Sketchbooks are an outstanding feature in more than a few exhibitions they have a downright prominent place in showcases above them monitors where all sheets can be seen on touch screens a visual pleasure and an exciting event Unfortunately however many people continue to be rather baffled by sketchbooks What goes on there Most are convinced that the purpose of a sketchbook is to prepare for a work typically a painting Its pages contain impressions of a preliminary nature sketched in a few strokes which are completed at another time and another place But things have changed and this is a development we have to examine at long last in greater depth sketchbooks can accomplish more they plough a field other than that of pre liminarity To date there is no publication that explores their true significance within the creative process Is it not called for to take a close look at the weight artists attach to the silent companion in their jacket pocket This is the purpose of this book

**Creative Collaboration** Vera John-Steiner,2006-08-03 Rodin s sculpture The Thinker dominates our collective imagination as the purest representation of human inquiry the lone stoic thinker But while the Western belief in individualism romanticizes this perception of the solitary creative process the reality is that scientific and artistic forms emerge from the joint thinking passionate conversations emotional connections and shared struggles common in meaningful relationships In Creative Collaboration Vera John Steiner offers rare and fascinating glimpses into the dynamic alliances from which some of our most important scholarly ideas scientific theories and art forms are born Within these pages we witness the creative process unfolding in the intimate relationships of Jean Paul Sartre and Simone de Beauvoir Henry Miller and Anais Nin Marie and Pierre Curie Martha Graham and Erick Hawkins and Georgia O Keeffe and Alfred Stieglitz the productive partnerships of Pablo Picasso and Georges

Braque Albert Einstein and Marcel Grossmann Aaron Copland and Leonard Bernstein and Freeman Dyson and Richard Feynman the familial collaborations of Thomas and Heinrich Mann Hubert and Stuart Dreyfus and Margaret Mead Gregory Bateson and Mary Catherine Bateson and the larger ensembles of The Guarneri String Quartet Lee Strasburg Harold Clurman and The Group Theater and such feminist groups as The Stone Center and the authors of Women s Ways of Knowing Many of these collaborators complemented each other meshing different backgrounds and forms into fresh styles while others completely transformed their fields Here is a unique cultural and historical perspective on the creative process Indeed by delving into these complex collaborations John Steiner illustrates that the mind rather than thriving on solitude is clearly dependent upon the reflection renewal and trust inherent in sustained human relationships Here is a unique cultural and historical perspective on the creative process and a compelling depiction of the associations that nurtured our most talented artists and thinkers By delving into these complex intimate collaborations John Steiner illustrates that the mind rather than thriving on solitude is clearly dependent upon the dialogue renewal and trust inherent in sustained human relationships
