## **Urban Regeneration and Neoliberalism** Clare

Kinsella,2020-10-29 This book explores the concept of home in Liverpool over phases of regeneration following the Second World War Using qualitative research in the oral history tradition it explores what the author conceptualises as forward facing regeneration in the period up to the 1980s and neoliberal regeneration interventions that prioritise the past from the 1980s to the present The author examines how the shift towards city centre focused redevelopment and event led initiatives has implications for the way residents make sense of their conceptualisations of home and demonstrates how the shift in regeneration focus discourse and practice away from Liverpool s neighbourhood districts and towards the city centre has produced changes in the ways that residents identify with neighbourhoods and the city centre with prominence being given to the latter Employing Pierre Bourdieu s concepts of habitus and field as mechanisms for understanding different senses of home and shifts from localised views to globalised views this book will appeal to those with interests in urban sociology regeneration geography sociology home cultures and cities

## **The Death of Consensus** Phil Tinline,2022-06-23

Over Britain s first century of mass democracy politics has lurched from crisis to crisis How does this history of political agony illuminate our current age of upheaval To find out journalist Phil Tinline takes us back to two past eras when the ruling consensus broke down and the future filled with ominous possibilities until finally a new settlement was born How did the Great Depression s spectres of fascism bombing and mass unemployment force politicians to think the unthinkable and pave the way to post war Britain How was Thatcher s road to victory made possible by a decade of nightmares of hyperinflation military coups and communist dictatorship And why since the Crash in 2008 have new political threats and divisions forced us to change course once again Tinline brings to life those times past and present when the great compromise holding democracy together has come apart when the political class has been forced to make a choice of nightmares This lively original account of panic and chaos reveals how apparent catastrophes can clear the path to a new era The Death of Consensus will make you see British democracy differently

## Conscience and Critic Keith Tudor,2016-11-10 Conscience

and Critic The Selected Works of Keith Tudor brings together 35 years of Keith Tudor's finest contributions to the field of mental health. Covering a wide range of subjects that encompass psychotherapy, social policy and positive mental health or wellbeing, Keith reflects on practice and theory from his wealth of experience in various fields of practice including probation, counselling, field hospital and psychiatric social work, psychotherapy supervision and education and training. Over the span of his professional career Keith's concerns and contributions have focused on the interface between psyche and society. This is reflected in his writings on the politics of disability, mental health reform, class conscious therapeutic practice, the application and critique of theory, health and professional regulation and registration. Conscience and Critic will be of interest to psychotherapists and mental health practitioners as well as students of psychotherapy.

**The Rise and Fall of the Right of Silence** Hannah Quirk, 2016-11-25 Within an international context in which the right to silence has long been regarded as sacrosanct this book provides the first comprehensive empirically based analysis of the effects of curtailing the right to silence. The right to silence has served as the practical expression of the principles that an individual was to be considered innocent until proven guilty and that it was for the prosecution to establish guilt. In 1791 the Fifth Amendment to the US Constitution proclaimed that none shall be compelled in any criminal case to be a witness against himself. In more recent times the privilege against self incrimination has been a founding principle for the International Criminal Court, the new South African constitution and the ad hoc International Criminal Tribunals for Rwanda and the former Yugoslavia. Despite this pedigree over the past 30 years when governments have felt under pressure to combat crime or terrorism the right to silence has been reconsidered as in Australia curtailed in most of the United Kingdom or circumvented by the creation of the military tribunals to try the Guantnamo detainees. The analysis here focuses upon the effects of the Criminal Justice and Public Order Act 1994 in England and Wales. There curtailing the right to silence was advocated in terms of common sense policy making and was achieved by an eclectic borrowing of concepts and policies from other jurisdictions. The implications of curtailing this right are here explored in detail with reference to England, Wales and Northern Ireland but within a comparative context that examines how different types of legal systems regard the right to silence and the effects of constitutional protection.

**Diversity and Decomposition in the Labour Market** David Robbins, Lesley Caldwell, Graham Day, Karen Jones, Hilary Rose, 2018-05-11 Originally published in 1982 Diversity and Decomposition in the Labour Market is an edited collection addressing the contemporary sociology of the labour market. The collection focuses on the categorisation of the diverse dualities that might be thought to characterise certain labour markets. The collection addresses many economic sectors and there is a distinct focus on labour market analyses developed within neo-classical and radical economics in the USA. The analyses maintain that the labour market is in some sense dualistic.

Hollister, 2013-06-29 Curious about the images of the city that have been evolving in the different social sciences we did what academics often do in such a situation we set up a seminar on Images of the City in the Social Sciences From the start we counted on the help of specialists in other fields to pursue their interests Of the persons who agreed to participate all but two came from the United States and their analyses in the main reflect the experience of Western countries and the United States In our formal instructions to our collaborators we took it granted that a variety of images of the city could be found or inferred in their fields of expertise We asked them to identify these images and their functions to explain how and why they have changed over time and to relate these images to the distinct intellectual traditions and techniques analytical or otherwise in their respective fields The definition of image was left to the judgment of the participants     **Obstacles to Fairness in Criminal Proceedings** John D Jackson, Sarah J Summers, 2018-03-22 This volume considers the way in which the focus on individual rights may constitute an obstacle to ensuring fairness in criminal proceedings The increasingly cosmopolitan nature of criminal justice forcing legal systems with different institutional forms and practices to interact with each other as they attempt to combat crime beyond national borders has accentuated the need for systems to seek legitimacy beyond their domestic traditions Fairness expressed in terms of the right to a fair trial in provisions such as Article 6 of the European Convention on Human Rights has emerged across Europe as the principal means of guaranteeing the legitimacy of criminal proceedings The consequence of this is that criminal procedure doctrines are framed overwhelmingly in constitutional terms the protection of defence rights is necessary to restrict and legitimate the state's mandate to prosecute crime Yet there are various problems with relying solely or predominantly on defence rights as a means of ensuring that proceedings are fair or legitimate and these issues are rarely discussed in the academic literature In this volume scholars from the disciplines of law philosophy and sociology challenge various normative assumptions underpinning our understanding of fairness in criminal proceedings     **The Global City** Saskia Sassen, 2025-09-09 In her classic book The Global City Saskia Sassen tells how New York London and Tokyo became command centers of the emerging global economy and in the process underwent massive and parallel changes The book reorients the way we think about how cities shape and are shaped by globalization and provides lessons for the future     **Feminism and "race"** Kum-Kum Bhavnani, 2001 The past two decades have seen the incursion of feminist thought into many academic areas Within the academy feminist approaches have gained some legitimacy and yet simultaneous with these disciplinary advances there have been charges of racism directed at feminist scholarship and practice These charges have resulted in feminist work continuously reshaping itself This volume represents the strength as well as diversity of writings which discuss race and feminism showing how these two areas usually considered to be distinct and therefore discrete from each other have developed Feminism and Race includes articles

spanning a number of disciplinary areas such as history literary analysis sociology and psychology and provides a history of how second wave feminisms have negotiated race as well as suggesting what future directions these debates may take

#### *Visible Histories* Suzanne Mackenzie,1989

While there has been growing interest in assimilating women s experience into the social record of human history relatively few studies have examined the environments women have built and changed in creating history Through an examination of the process of environmental change as an important part of gender relations and socio economic activity Suzanne Mackenzie shows how the environmental activity of women both increased the visibility of their historical creativity and altered existing environments in the resort city of Brighton England She documents the multitude of ways in which women changed not only themselves but also the city in which they lived during the decades between the end of the Second World War and the early 1980s

#### Selling the Welfare State Ray Forrest,Alan Murie,2014-06-03 Originally published in 1988 this book offers the first comprehensive and critical analysis of the privatisation of public housing in Britain It outlines the historical background to the growth of public housing and the developing political debatea surrounding its disposal The main

emphasis in the book however is on the ways in which privatisation in housing links to other key changes in British society. The long trend for British social housing to become a welfare housing sector is related to evidence of growing social polarisation and segregation. Within this overall context the book explores the uneven spatial and social consequences of the policy. *Social Work and Social Perspectives* Eileen Oak, 2008-11-24. Social Work and Social Work Perspectives introduces readers to a range of important sociological concepts showing how these can feed critical practice and illustrate social work's complex relationship with the welfare state. Adopting a unique social policy framework this distinctive text is illuminating reading.
