Small Comrades Revolutionizing Childhood In Soviet Russia 1917 1932:

Small Comrades Lisa A. Kirschenbaum, 2013-09-13 *Small Comrades* is a fascinating examination of Soviet conceptions of childhood and the resulting policies directed toward children. Working on the assumption that cultural representations and self-representations are not entirely separable, this book probes how the Soviet regime's representations structured teachers' observations of their pupils and often adults' recollections of their childhood. The book draws on work that has been done on Soviet schooling and focuses specifically on the development of curricula and institutions but it also examines the wider context of the relationship between the family and the state and to the Bolshevik vision of the children of October. *Science of the Child in Late Imperial and Early Soviet Russia* Andy Byford, 2020-02-27 Between the 1880s and the 1930s children became the focus of unprecedented scientific and professional interest in modernizing societies worldwide including in the Russian Empire and then the Soviet Union. Those who claimed children as special objects of investigation were initially spread across a network of imperfectly professionalized scholarly and occupational groups based mostly in the fields of medicine, education and psychology. From their various perspectives they made ambitious claims about the contributions that their emergent expertise made to the understanding of and intervention in human bio-psycho-social development. The international movement that arose out of this catalyzed the institutionalization of new domains of knowledge including developmental and educational psychology, special needs education and child psychiatry. *Science of the Child* charts the evolution of the child science movement in Russia from the Crimean War to the Second World War. It is the first comprehensive history in English of the rise and fall of this multidisciplinary field across the late Imperial and Soviet periods. Drawing on ideas and concepts emanating from a variety of theoretical domains, the study provides new insights into the concerns of Russia's professional intelligentsia with matters of biosocial reproduction and investigates the incorporation of scientific knowledge and professional expertise focused on child development into the making of the welfare-warfare state in the rapidly changing political landscape of the early Soviet era. **A Modern History of Russian Childhood** Elizabeth White, 2020-02-20 *A Modern History of Russian Childhood* examines the changes and continuities in ideas about Russian childhood from the 18th to the 21st century. It looks at how children were thought about and treated in Russian and Soviet culture as well as how the radical social, political and economic changes across the period affected children. It explains how and why childhood became a key concept both in Late Imperial Russia and in the Soviet Union and looks at similarities and differences to models of childhood elsewhere. Focusing mainly on children in families, telling us much about Russian and Soviet family life in the process. Elizabeth White combines theoretical ideas about childhood with examples of real lived experiences of children to provide a comprehensive overview of the subject. The book also offers a comprehensive synthesis of a wide range of secondary sources in English and Russian whilst utilizing various textual primary sources as part of the discussion. This book is key reading for anyone wanting to understand the social and cultural history of Russia as well as the

history of childhood in the modern world Throw Your Voice Meghanne Barker, 2024-08-15 *Throw Your Voice* is a story of loss and recovery. It relates how children placed in a temporary care institution make sense of their situations. Moving between a Kazakhstan government children's home Hope House and the Almaty State Puppet Theater, Meghanne Barker shows how children and puppets as proxies bring to life ideologies of childhood and visions of a rosy future. Sites and stories run in parallel. Framed by the narrative of Anton Chekhov's *Kashtanka* about a lost dog taken in by a kind stranger, the author follows the story's staging at the puppet theater. At Hope House, children find themselves on a path similar to *Kashtanka*, dislodged from their first homes to reside in a second. The heart of this story is about living in displacement and about the fragile intimacies achieved amidst conditions of missing. Whether due to war, migration, or pandemic, people get separated from those closest to them. *Throw Your Voice* examines how strangers become familiar and how objects mediate precarious ties. She shows how people use fantasy to mitigate loss.

Left Out Kimberley Reynolds, 2016-07-22 *Left Out* presents an alternative and corrective history of writing for children in the first half of the twentieth century. Between 1910 and 1949, a number of British publishers, writers, and illustrators included children's literature in their efforts to make Britain a progressive, egalitarian, and modern society. Some came from privileged backgrounds; others from the poorest parts of the poorest cities in the land; some belonged to the metropolitan intelligentsia or bohemia; others were working-class autodidacts, but all sought to use writing for children and young people to create activists, visionaries, and leaders among the rising generation. Together, they produced a significant number of both politically and aesthetically radical publications for children and young people. This radical children's literature was designed to ignite and underpin the work of making a new Britain for a new kind of Briton. While there are many dedicated studies of children's literature and children's writers working in other periods, the years 1910-1949 have previously received little critical attention. In this study, Kimberley Reynolds shows that the accepted characterisation of inter-war children's literature as retreatist, anti-modernist, and apolitical is too sweeping and that the relationship between children's literature and modernism, left-wing politics, and progressive education has been neglected.

(An)Archive Mnemo ZIN, Iveta Silova, Nelli Piattoeva, Zsuzsa Millei, 2024-04-22 What was it like growing up during the Cold War? What can childhood memories tell us about state socialism and its aftermath? How can these intimate memories complicate history and redefine possible futures? These questions are at the heart of *An Archive: Childhood Memory and the Cold War*. This edited collection stems from a collaboration between academics and artists who came together to collectively remember their own experiences of growing up on both sides of the Iron Curtain. Looking beyond official historical archives, the book gathers memories that have been erased or forgotten, delegitimized or essentialized, or at best reinterpreted nostalgically within the dominant frameworks of the East-West divide. And it reassembles and re-stores these childhood memories in a form of an archive, a site for merging, mixing, connecting, but also juxtaposing personal experiences, public memory, political rhetoric, places, times, and artifacts. These acts and arts of collective remembering tell

about possible futures and the past's futures what life during the Cold War might have been but also what it has become An Archive will be of particular interest to scholars in a variety of fields but particularly to artists educators historians social scientists and others working with memory methodologies that range from collective biography to oral history auto biography autoethnography and archives

Radical childhoods Jessica Gerrard, 2016-05-16 At a time when education appears to be simply reproducing social class relations *Radical childhoods* offers a timely consideration of how children's and young people's education can confront and challenge social inequality Presenting detailed analysis of archival material and oral testimony the book examines the experiences of students and educators in two schooling initiatives that were connected to two of the most significant social movements in Britain Socialist Sunday Schools est 1892 and Black Saturday Supplementary Schools est 1967 Analysing across time the author explores the ways in which these two very different schooling movements incorporated large numbers of women challenged class and race inequality and attempted to create spaces of emancipatory education independent to the state It argues that despite appearing to be on the margins of the public sphere these schools were important if contested and complex sites of political struggle

Childhood and Schooling in (Post)Socialist Societies Iveta Silova, Nelli Piattoeva, Zsuzsa Millei, 2017-12-07 This book explores childhood and schooling in late socialist societies by bringing into dialogue public narratives and personal memories that move beyond imaginaries of Cold War divisions between the East and West Written by cultural insiders who were brought up and educated on the eastern side of the Iron Curtain spanning from Central Europe to mainland Asia the book offers insights into the diverse spaces of socialist childhoods interweaving with broader political economic and social life These evocative memories explore the experiences of children in navigating state expectations to embody model socialist citizens and their mixed feelings of attachment optimism dullness and alienation associated with participation in building socialist futures Drawing on the research traditions of autobiography autoethnography and collective biography the authors challenge what is often considered normal and natural in the historical accounts of socialist childhoods and engage in re-writing histories that open space for new knowledges and vast webs of interconnections to emerge This book will be compelling reading for students and researchers working in education sociology and history particularly those within the interdisciplinary fields of childhood and area studies The authors of this beautiful book are professional academics and intellectuals who grew up in different socialist countries Exploring socialist childhoods in myriad ways they draw on memories and collective history emotional insider knowledge and the measured perspective of an analyst What emerges is life that was caught between real optimism and dullness ethical commitments and ideological absurdities selfless devotion to children and their treatment as a political resource Such attention to detail and examination of the paradoxical nature of this time makes this collective effort not only timely but remarkably genuine Alexei Yurchak University of California USA

Children and Yiddish Literature From Early Modernity to Post-Modernity Gennady Estraiikh, Kerstin Hoge, Krutikov Mikhail, 2016-05-20 Children have occupied a

prominent place in Yiddish literature since early modern times but children's literature as a genre has its beginnings in the early 20th century. Its emergence reflected the desire of Jewish intellectuals to introduce modern forms of education and promote ideological agendas both in Eastern Europe and in immigrant communities elsewhere. Before the Second World War a number of publishing houses and periodicals in Europe and the Americas specialized in stories, novels, and poems for various age groups. Prominent authors such as Yankev Glatshteyn, Der Nister, Joseph Opatoshu, Leyb Kvitko made original contributions to the genre while artists such as Marc Chagall, El Lissitzky and Yisakhar Ber Rybak also took an active part. In the Soviet Union meanwhile children's literature provided an opportunity to escape strong ideological pressure. Yiddish children's literature is still being produced today both for secular and strongly Orthodox communities. This volume is a pioneering collective study not only of children's literature but of the role played by children in literature. *The SAGE Encyclopedia of Children and Childhood Studies* Daniel Thomas Cook, 2020-04-20. The SAGE Encyclopedia of Children and Childhood Studies navigates our understanding of the historical, political, social, and cultural dimensions of childhood. This four-volume encyclopedia covers a wide range of themes and topics including Social Constructions of Childhood, Children's Rights, Politics, Representations, Geographies, Child-specific Research Methods, Histories of Childhood, Transnational Childhoods, Sociology, Anthropology of Childhood, Theories and Theorists, Key Concepts. This interdisciplinary encyclopedia will be of interest to students and researchers in Childhood Studies, Sociology, Anthropology, Psychology, Education, Social Welfare, Cultural Studies, Gender Studies, Disability Studies. **Raised under Stalin** Seth F. Bernstein, 2017-08-15. In *Raised under Stalin* Seth Bernstein shows how Stalin's regime provided young people with opportunities as members of the Young Communist League or Komsomol even as it surrounded them with violence, shaping socialist youth culture and socialism more broadly through the threat and experience of war. Informed by declassified materials from post-Soviet archives as well as films, memoirs, and diaries by and about youth, *Raised under Stalin* explains the divided status of youth for the Bolsheviks: they were the new people who would someday build communism, the potential soldiers who would defend the USSR, and the hooligans who might undermine it from within. Bernstein explains how, although Soviet revolutionary youth culture began as the preserve of proletarian activists, the Komsomol transformed under Stalin to become a mass organization of moral education; youth became the targets of state repression even as Stalin's regime offered them the opportunity to participate in political culture. *Raised under Stalin* follows Stalinist youth into their ultimate test: World War II. Even as the war against Germany decimated the ranks of Young Communists, Bernstein finds evidence that it cemented Stalinist youth culture as a core part of socialism. **The Decommodification of Early Childhood Education and Care** Michel Vandenbroeck, Joanne Lehrer, Linda Mitchell, 2022-12-30. *The Decommodification of Early Childhood*

The Children's Table Anna Mae Duane,2013-06-01 This collection brings together an eclectic range of prominent scholars in architecture education history law literary criticism and cultural studies to explore how the field of childhood studies questions some of the most basic tenets of humanities scholarship and to consider how these questions can bridge disciplines Each essay pairs childhood studies with another field of inquiry to ask explicitly how foregrounding the child reorients long established scholarly foundations in that field Childhood studies insistence that we need to rethink the symbolic work of the child necessarily realigns a host of other fields that often uncritically draw upon the false dichotomy separating the vulnerable dependent child from the allegedly independent and autonomous adult By complicating our assumptions about the child we are also providing a new way of thinking through some of the most basic tenets of the humanities Anna Mae Duane notes that much of the exciting work in the humanities seeks to recover the voices of those who have been infantilized including women people of color and the GLBT community This volume features thirteen essays by leading scholars who

reveal how childhood studies offers a vital methodological and theoretical roadmap for engaging issues that are among the most important and provocative in the humanities the recovery of colonized voices the definition of agency the performance of identity and the construction of gender and race to name a few Each of the essays seeks to understand how rhetorical views of childhood shape views of power politics knowledge and sociality

(1945-1989) Sabine Hering, 2009-06-17 In the period of State Socialism in Eastern Europe 1945-1989 Social Welfare was exercised on two levels. The dominant level was the system of governmental Social Policy because individual and private structures of social help were considered as a dispensable bourgeois tradition. According to this perception social welfare should include an extensive system of support and social services although in reality special groups of asocials and parasites were excluded. Although except for Yugoslavia social work as a profession was nearly totally eliminated modulated forms of social care had to be provided because people like handicapped elderly or mentally disabled still were in need. Therefore Social Care was realised on a subordinated level mostly allocated to proximate vocations or organisations like teachers, nurses and mass organisations. Experts from the respective countries explain what it was like. Countries under scrutiny: Bulgaria, Czechoslovakia, GDR, Hungary, Poland, Romania, Soviet Union, Yugoslavia.
