Some are outwardly successful but just don't feel good about themselves. This practical and compassionate book explains the reasons behind these struggles and offers parents doable strategies to help children cope with feelings, embrace learning and build satisfying relationships. In *Smart Parenting for Safer Kids*, parents will learn how to: Recognise the dangers to children in modern Western society. Build stronger kids and help them make smart choices. world more connected than ever before exposing them to dangers their parents didn't even imagine and raising questions they've never considered. But in our rush to protect them we can do more harm than good. Outright bans and rules deemed unfair can push your child away when what they need most of all is you. Child psychotherapist and cybertrauma expert Catherine Knibbs has helped hundreds of families work together to build healthy boundaries around technology. In this science-backed guide Knibbs sets out what the evidence really says about the risks and where your fears may be misguided to empower you with the answers to make the right decisions for your family.
