SMU Reflections Bonnie Brunk Hillerbrand,1986 **The Negro's Church** Benjamin E. Mays,2015-08-04 Benjamin E Mays 1894 1984 was President and Professor Emeritus of Morehouse College Leak Detector for Use in Space Environment Kenneth W. Woodis,1970 **NASA Technical Note** ,1970 *Evangelism and the Openness of God* Vaughn W. Baker,2012-12-18 In *Evangelism and the Openness of God* Vaughn Baker argues that a dynamic concept of God as articulated in open theism better serves the evangelistic mission of the church than does conventional theology Open theism affirms an ontology of love as opposed to power and it focuses on God's kenosis in creation allowing for the authentic freedom of creation influenced by divine persuasion God's genuine temporal relationship with creation one that is open synergist and non coercive provides a new perspective for evangelistic activity In this volume the author has made a valuable contribution to the integration of new developments in theology and evangelism **The Oxbridge Evangelist** Michael J. Gehring,2017-02-28 In *The Oxbridge Evangelist Motivations Practices and Legacy of C S Lewis* Michael Gehring examines the evangelistic practices of one of the most significant lay evangelists of the twentieth century In the early 1930s not many who knew Lewis would have guessed that he would become such a significant evangelist He has left an evangelistic legacy that has influenced millions across the world Yet Lewis scholarship has not given sufficient attention to this crucial aspect of his legacy This work examines Lewis's loss and recovery of faith and it shows how his experience heightened his own awareness of the loss of the Christian faith in England Because of his ability to identify with others Lewis engaged in the work of evangelism with uncanny skill This work required singular courage on his part it cost him dearly professionally and in his relationships Gehring critically explores Lewis's motivations practices and legacy of evangelism In doing so he provides penetrating insight for those interested in the theory and practice of evangelism in a culture that too readily leaves it to the crazies of the Christian tradition or relegates it to the margins of church life *The Evangelistic Love of God & Neighbor* Bishop Scott J. Jones,2010-08-01 There are it seems as many definitions of the term evangelism as there are people doing the defining For some it means proclaiming the gospel to those who have not heard it To others it means making disciples of Jesus Christ To others it means working for the transformation of the world into the kingdom of God For still others it has principally to do with building vibrant healthy congregations Underlying this confusion is a fundamental inability to locate the practice of evangelism within one's overall theological convictions We will never understand the part that proclamation disciple making kingdom building and church growth play in evangelism until we first ask a more important question What does evangelism have to do with who God is What is it we know about God that makes evangelism a central part of what it means to be Christian In this comprehensive theology of evangelism Scott J Jones proposes to ground the practice of evangelism in an understanding of God's love for the world specifically as seen in the incarnation of God in Christ In Jesus God took on all of what it means to be human Because of this evangelism must be a ministry to the whole person The typical

distinctions between soul winning social action and church growth evaporate individual conversion and acts of mercy are part of the same ministry of bringing persons more fully into the reign of a loving God Image and Reflection Ethel C. Simpson,1990-01-01 A yearbook of yearbooks celebrating the connection between the old and new the 522 photographs in Image and Reflection stir the memories of every past and present member of the University community from its beginning at William McIlroy s farm to today s bustling campus **Globalisation, Populism, Pandemics and the Law** Findlay, Mark,2021-07-31 Advocating a style of law and a role for legal agency which returns to its essential humanist ideology and represents public spiritedness this unique book confronts the myths surrounding globalisation advancing the role for law as a change agent unburdened from its current market functionality Applying Design Thinking to the Measurement of Experiential Learning Peck, Adam,DeSawal, Danielle,2021-06-25 In the field of student affairs many are rethinking the value of a wide variety of traditional aspects associated with the student experience Recent commentary has questioned whether students should attend college that has an all inclusive tuition focused primarily upon academic and support services Given the need for changes the COVID 19 pandemic has created it is imperative to question whether this kind of academic package is ideal for the future of higher education As issues surrounding the traditional aspects of the student experience continue to develop research has begun to focus on how student learning and awareness can be improved specifically within the principles of design thinking Applying Design Thinking to the Measurement of Experiential Learning is a forward thinking and innovative look at assessment and design conditions that promote student learning It proposes new models for education conditions for student learning and student learning assessment using design thinking and experiential learning These topics include adjustments to curriculum integrated learning environments student success and student affairs campus wide design thinking and testing assessments This book is valuable for senior leaders in the field of student affairs student affairs assessment professionals and faculty teaching in higher education programs practitioners researchers academicians and students interested in how the principles of design thinking can be applied to higher education Missionalia ,1992 Contains abstracts of missiological contributions book reviews and articles **The 2nd Dubai International Conference in Higher Education** Lulett Escarpe-Ibarra, **Bulletin** Council on the Study of Religion,1976 **AI and Big Data** Mark Findlay,Josephine Seah,Willow Wong,2023-09-06 This provocative and timely book identifies and disrupts the conventional regulation and governance discourses concerning AI and big data It suggests that instead of being used as tools for exclusionist commercial markets AI and big data can be employed in governing digital transformation for social good *Analytical Index to Publications of the Texas Folklore Society, Volumes 1-36* James T. Bratcher,1973 Hoping to become famous Broderick practices on a tongue depressor to become the world s greatest surfing mouse Theological Reflection and Education for Ministry John E. Paver,2016-02-17 A major and continuing problem for theological education and the practice of Christian ministry is how to best achieve a genuine integration between theory and practice theology and

experience The key claim of this book is that theological reflection beginning with experience is a method of integration and that pastoral supervision is a vehicle for theological reflection In establishing this claim John Paver demonstrates that the model and method have potential to be a catalyst for reform within theological colleges and seminaries Three different theological reflection models are developed and critiqued in this book and their capacity to be developed in particular contexts is explored This book does not stop at ministry cultural and personal integration but is bold enough to make recommendations for structural integration within the theological institution

Digital (In)justice in the Smart City

Debra Mackinnon,Ryan Burns,Victoria Fast,2022-12-21 In the contemporary moment smart cities have become the dominant paradigm for urban planning and administration which involves weaving the urban fabric with digital technologies Recently however the promises of smart cities have been gradually supplanted by recognition of their inherent inequalities and scholars are increasingly working to envision alternative smart cities Informed by these pressing challenges Digital In Justice in the Smart City foregrounds discussions of how we should think of and work towards urban digital justice in the smart city It provides a deep exploration of the sources of injustice that percolate throughout a range of sociotechnical assemblages and it questions whether working towards more just sustainable liveable and egalitarian cities requires that we look beyond the limitations of smartness altogether The book grapples with how geographies impact smart city visions and roll outs on the one hand and how unjust geographies are produced in smart pursuits on the other Ultimately Digital In Justice in the Smart City envisions alternative cities smart or merely digital and outlines the sorts of roles that the commons utopia and the law might take on in our conceptions and realizations of better cities
