Soft Or Hard Borders Managing The Divide In An Enlarged Europe:

Soft or Hard Borders? Joan DeBardeleben, 2017-07-05 Bringing together leading European and North American experts this timely volume answers questions about the implications and management of the new external borders of the European Union following another phase of enlargement Implications of the EU's new external border especially its eastern border with Russia and Ukraine will be a key issue for the new member countries for the EU and for the new neighbouring regions The contributors address this emerging question from two perspectives They examine whether an expanded Europe will create a new dividing line in Europe between insiders and outsiders and also consider the concrete problems of border management and how the issues will be handled The book will be of particular value to those concerned with European politics and the expansion of Europe and to those with an interest in political sociology

Soft Or Hard Borders? Joan DeBardeleben, 2017-07-05 Bringing together leading European and North American experts this timely volume answers questions about the implications and management of the new external borders of the European Union following another phase of enlargement Implications of the EU's new external border especially its eastern border with Russia and Ukraine will be a key issue for the new member countries for the EU and for the new neighbouring regions The contributors address this emerging question from two perspectives They examine whether an expanded Europe will create a new dividing line in Europe between insiders and outsiders and also consider the concrete problems of border management and how the issues will be handled The book will be of particular value to those concerned with European politics and the expansion of Europe and to those with an interest in political sociology

EU-Russian Border Security S. V. Golunov, 2013 The land border between Russia and the European Union is one of the longest land borders in the world with very considerable trade flowing across the border in both directions This book examines the nature of the EU Russia border and the issues connected with its management It describes the territories and the societies on each side of the border discusses the challenges which confront border management including migration and criminal activities and explores how people on both sides perceive each other and perceive threats and security issues It concludes by assessing achievements to date in managing the border and by assessing continuing unresolved challenges

The Boundaries of EU Enlargement J. DeBardeleben, 2007-12-14 The 2004 and 2007 enlargements pushed the EU's external border further east as well as closer to unstable areas in the western Balkans With future enlargements unlikely in the short term the EU faces new challenges in securing stable relationships with these neighbouring countries while not fostering false hopes of early accession

Extraterritorial Immigration Control Bernard Ryan, Valsamis Mitsilegas, 2010-04-06 A central element of contemporary border regimes is their application to migrants before they reach a state's territory The main forms of this extraterritorial immigration control are visa requirements pre embarkation immigration controls and the interception of irregular migrants at sea This work analyses the complex relationship of the law to these practices as legal guarantees are potentially avoided while the legality of control is

often uncertain It examines the international law framework including the law of the sea and the extraterritorial application of principles of non refoulement contained in the Refugee Convention and in international human rights law The work also includes detailed case studies of the legal challenges posed by extraterritorial immigration controls in Europe Australia and the United States

Modern European Borders in Fiction Andrew Hammond, 2025-09-18 There are few features of the contemporary world more significant than national and regional borders In modern Europe the practices of human division have defined the continent from the early years of the Cold War to the present barriers of Fortress Europe whose exposure of irregular migrants to trafficking discrimination and deportation is rarely absent from the daily news Modern European Borders in Fiction offers a comprehensive study of literary responses to the topic Through reference to over 600 novels and short stories Andrew Hammond analyses the wide ranging engagement of post 1945 novelists with the ideologies processes and effects of territorialisation as well as the related issues of military conflict migration populism nationalism and regionalism Among the topics under study are the ideological divisions of the Cold War the closed societies of totalitarian communism the labour migrations of the 1950s and 1960s the tightening of border controls from the 1970s the twenty first century war on migration the official restrictions on borderland communities the conflicts in Bosnia Georgia and Ukraine and the patterns of social segregation that have marked the continent from the Second World War to the present Drawing on theoretical work in the social sciences and the humanities this is a ground breaking contribution to European literary studies establishing the importance of continental border writing and opening up fresh avenues for decolonised teaching and research

Refugees, Security and the European Union Sarah Léonard, Christian Kaunert, 2019-06-07 This book analyses the extent and the modalities of the securitization of asylum seekers and refugees in the EU It argues that the development of the EU asylum policy far from securitizing asylum seekers and refugees has led to the strengthening and codification of several rights for these two categories of persons However the securitization of terrorism and the links that have been constructed between asylum irregular migration and terrorism in the wake of the various terrorist attacks that have taken place in Europe in the last few years have had a significant impact on the ability of asylum seekers to gain access to asylum systems in the EU From a theoretical point of view the book develops an original analytical framework that draws upon and further develops security studies more precisely securitization theory by connecting it to the literature on policy venues and venue shopping It therefore makes a significant contribution to the debates on both securitization and migration Empirically examining the entire development of the EU s policy towards asylum seekers and refugees from its origins in 1993 this book will be of great interest to students of European and EU politics refugees migration security terrorism and counter terrorism security studies and International Relations

REGINE - Regularisations in Europe Martin Baldwin-Edwards, Albert Kraler, 2009 REGINE is a research project on regularisation practices in the European Union The aim of the project is to provide a thorough mapping of practices relating to the regularisation of third country nationals illegally resident in EU

Member States Two additional non EU countries Switzerland and the US will also be covered to gain insights in regularisation practices and the impact of regularisations elsewhere In examining regularisation practices the project also investigates the relationship of regularisation policies to the overall migration policy framework including to protection issues and refugee policies Moreover the project examines the political position of different stakeholders towards regularisation policies on the national level Finally the project examines potential options for policies on regularisation on the European level incorporating Member States as well as other stakeholders views on possible instruments on the European level *Debordering Europe* Livio Amigoni, Silvia Aru, Ivan Bonnin, Gabriele Proglia, Cecilia Vergnano, 2020-12-19 This contributed volume analyzes in depth how a border area is constantly reshaped as migration policies harden and what kind of social political and economic impacts are produced at local and international level The study is focused on Ventimiglia an Italian town located 6 km away from the French Italian border on the gulf of Genoa with a long story of commerce custom and smuggling activities related to its proximity to the frontier While several projects have analyzed other symbolic places of the EU migration crisis such as Lampedusa Calais and Lesvos there is a severe empirical gap regarding Ventimiglia a border town at the very geographic core of the Schengen area This case study may provide emblematic insights into what European migratory movements are currently revealing in terms of the lack of shared responsibility between EU Member States the EU common asylum system and respect for human rights with increasing claims for national sovereignty by some Member States

Borders in Post-Socialist Europe Tassilo Herrschel, 2016-04-08 Borders have attracted considerable attention in public and academic debates in light of the impact of globalisation and in Europe the end of the divisions of the Cold War era Instead being inside or outside of the EU has become a major paradigmatic divide between claimed spheres of influence by Brussels and Moscow respectively In the aftermath of the end of communism established certainties no longer seemed to apply And this included many of the borders within the former eastern Bloc with some losing their relevance while others re assert themselves As its particular contribution this book adopts a symbiotic approach to the analysis of borders drawing on a political economy perspective while also recognising the importance of the socio cultural dimension as found in border studies This seeks to do greater justice to the complex composite nature of borders as geo political state legal and cultural historic constructs in both theory and practice In addition the book s approach stretches across spatial scales to capture the multi level nature of borders The first part of the book presents the conceptual framework as it sets out to embrace this multi faceted multi layered nature of borders In the second part case studies from north central Europe including the Baltic Sea Region exemplify the complexity of borders in the context of post socialist transformation and continuing EU isation

What is Europe? Anna Triandafyllidou, Ruby Gropas, 2015-11-02 Europe is imbued with a multitude of social cultural economic and political meanings The authors of this comprehensive text present an authoritative yet accessible introduction to understanding Europe today moving beyond accounts of European integration to provide a holistic and nuanced study of

contemporary Europe and its historical development This book explores evolving definitions of Europe from antiquity to the Cold War right through to Europe in the midst of the Eurozone and global financial crises By examining the different roles and meanings that Europe has held inside and outside of the continent including the European Union's branding of Europe the text grounds its analysis in an understanding of Europe's plural Chapters explore concepts of Europe as civilization Europe as progress Europe as unity and Europe as diversity How do Europeans think of themselves and their respective national identities in a multicultural and multi ethnic age How has modernity and the pre and post industrial values of Europe affected the Europe of now and what are the political legacies of Europe To what extent are notions of social solidarity shared across the continent This is the first text to systematically answer these questions and others in order to better determine what is Europe

Europe Old and New Ray Taras, 2009 Is Europe indeed uniting or instead falling apart as a result of anti immigrant prejudices a massive Islamic influx and ancient intra European hatreds This innovative and engaging book explores the sources of Europe's culture based divide arguing that the idea of two Europes is grounded both in reality and myth The accession process that brought a dozen new members into the European Union after 2004 has highlighted the persisting gulf between old and new Europe despite the many physical barriers that have crumbled Ray Taras examines the treaties political rhetoric citizen attitudes and literary narratives of belonging and separation that both bind and fray the fabric of Europe Throughout this interdisciplinary work provides a comprehensive hard hitting and unabashed review of how enlarged Europe embraces contrasting understandings of its political home

Migration and the Refugee Dissensus in Europe Nicos Trimikliniotis, 2019-09-25 This book provides an explanation for the fundamental disagreement pertaining to immigration and asylum in Europe Since the collapse of consensus with the end of the Cold War immigration and asylum have increasingly emerged as a central socio political issue in Europe The present work attempts to move beyond the complexity of managing migratory flows by focusing on the most daunting issues arising from the response to the refugee crisis in Europe This debate is intimately connected to borders security belonging citizenship and labour precarity inequality The book addresses some crucial dimensions related to the migration and asylum dissensus by providing an integrated frame of analysis from the point of view of resistance rather than that of power It connects notions of belonging and the migrant integration with the processes of de democratisation racist populism citizenship and authoritarian migration regimes and contributes towards a theory of the asylum and immigration dissensus by examining the potential for transition towards a society of equality and rights The author proposes that the encounter's with surplus populations in Europe which result in the multiplication of liminal regimes as well as spaces for resistance generates potential for social imaginaries promising a society unimaginable in previous epochs This book will be of much interest to students of migration and border studies global governance European politics and International Relations

Regional Orders and Regional Powers Nadine Godehardt, Dirk Nabers, 2011 Annotation Regional Powers and Regional Orders presents a re examination and re conceptualization of the

concept of region and its function within power and order systems Utilising a comparative and case study approach the volume examines new regional powers such as Brazil China India Russia and South Africa These territories as regional powers are novel phenomenon in the field of international politics and even more so in the field of international relations The book focuses on the emerging role of these new regional powers within their respective region and asks how other members of these regions cope with and react to that role Regional Powers and Regional Orders will be of interest to students and scholars of international and regional politics and power and international relations *Border Politics* Cengiz Günay, Nina Witjes, 2016-12-09 In the light of mass migration the rise of nationalism and the resurgence of global terrorism this timely volume brings the debate on border protection security and control to the centre stage of international relations research Rather than analysing borders as mere lines of territorial demarcation in a geopolitical sense it sheds new light on their changing role in defining and negotiating identity authority security and social and economic differences Bringing together innovative and interdisciplinary perspectives the book examines the nexus of authority society technology and culture while also providing in depth analyses of current international conflicts Regional case studies comprise the Ukraine crisis Nagorno Karabakh the emergence of new territorial entities such as ISIS and maritime disputes in the South China Sea as well as the contestation and re construction of borders in the context of transnational movements Bringing together theoretical empirical and conceptual contributions by international scholars this Yearbook of the Austrian Institute for International Affairs offers novel perspectives on hotly debated issues in contemporary politics and will be of interest to researchers graduate students and political decision makers alike **A Companion to Border Studies** Thomas M. Wilson, Hastings Donnan, 2016-01-19 A Companion to Border Studies Taking into consideration all aspects this book has a very important role in the professional literature of border studies Cross Border Review Yearbook of the European Institute Summing Up Highly recommended Upper division undergraduates and above Choice This book with its interdisciplinary team of authors from many world regions shows the state of the art in this research field admirably Ulf Hannerz Stockholm University This volume will be the definitive work on borders and border related processes for years into the future The editors have done an outstanding job of identifying key themes and of assembling influential scholars to address these themes David Nugent Emory University This urgently needed Companion edited by two leading figures of border studies reflects past insights and showcases new directions a must read for understanding territory power and the state Dr Nick Vaughan Williams University of Warwick This impressive collection will have a broad appeal beyond specialist border studies Anyone with an interest in the nation state nationalism ethnicity political geography or indeed the whole historical project of the modern world system will want to have access to a copy The substantive scope is global and the intellectual reach deep and wide Simply indispensable Richard Jenkins University of Sheffield Dramatic growth in the number of international borders has coincided in recent years with greater mobility than ever before of goods people and ideas As a result interest in borders as a focus of

academic study has developed into a dynamic multi disciplinary field embracing perspectives from anthropology development studies geography history political science and sociology Authors provide a comprehensive examination of key characteristics of borders and frontiers including cross border cooperation security and controls migration and population displacements hybridity and transnationalism A Companion to Border Studies brings together these disciplines and viewpoints through the writing of an international collection of preeminent border scholars Drawing on research from Africa Asia the Middle East Europe and the Americas the contributors argue that the future of Border Studies lies within such diverse collaborations which approach comparatively the features of borders worldwide *Governing Mobility Beyond the State* A.

Müller,2014-07-29 This book explores the structural tensions and conflicts that arise with the abolition of border controls between the EU s member states and how this conflict ridden relationship affects and is affected by the institutional shape of the EU s external borders *Immigration Policy in Europe* Virginie Guiraudon,Gallya Lahav,2006-11-09 Previously published as a special issue of West European Politics this edited volume evaluates the extent to which a policy gap between inputs and outcomes exists with regard to immigration control In exploring an expanded migration policy field which includes the extreme right the media and actors this book goes beyond traditional analyses that focus on classical moments of policy making and instead seeks to understand the normative and cognitive context in which they operate Taking into account the recent work of migration scholars into variants of the disjuncture theme the comparative studies also highlight the variations across time countries regions and sectors The international list of contributors discuss refugee protection asylum and illegal migration in chapters that fall under three subject areas formulating policy implementing policy international policy making Immigration Policy in Europe will be of great interest to students and scholars of European studies and British politics

The Routledge Research Companion to Border Studies Doris Wastl-Walter,2016-04-01 Throughout history the functions and roles of borders have been continuously changing They can only be understood in their context shaped as they are by history politics and power as well as cultural and social issues Borders are therefore complex spatial and social phenomena which are not static or invariable but which are instead highly dynamic This comprehensive volume brings together a multidisciplinary team of leading scholars to provide an authoritative state of the art review of all aspects of borders and border research It is truly global in scope and besides embracing the more traditional strands of the field including geopolitics migration and territorial identities it also takes in recently emerging topics such as the role of borders in a seemingly borderless world creating neighbourhoods and border enforcement in the post 9 11 era **European Homeland Security** Christian Kaunert,Sarah Léonard,Patryk Pawlak,2012-05-04 This book examines the processes and factors shaping the development of homeland security policies in the European Union EU within the wider context of European integration The EU functions in a complex security environment with perceived security threats from Islamist terrorists migration and border security issues and environmental problems In order to deal with these the EU has undertaken a number of actions

including the adoption of the European Security Strategy in 2003 the Information Management Strategy of 2009 and the Internal Security Strategy of 2010 However despite such efforts to achieve a more concerted European action in the field of security there are still many questions to be answered about whether the European approach is really a strategic one European Homeland Security addresses two major debates in relation to the development of homeland security in Europe First it reflects on the absence of homeland security in European political debate and its potential consequences Second it examines the significant policy developments in the EU that suggest the influence of homeland security ideas notably through policy transfer from the United States The book will be of great interest to students of European security and EU politics terrorism and counter terrorism security studies and IR

The Top Books of the Year Soft Or Hard Borders Managing The Divide In An Enlarged Europe The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the captivating narratives that have enthralled audiences this year. Soft Or Hard Borders Managing The Divide In An Enlarged Europe : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Soft Or Hard Borders Managing The Divide In An Enlarged Europe : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens' "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and thrilling novel that will keep you wondering until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
