Holmström, Charlotta, Bjønness, Jeanett, Jensen, Mie Birk, Seikkula, Minna, Antonsdóttir, Hildur Fjóla, Skilbrei, May-Len, Søderholm, Tara, Grönvall, Ylva, 2019-11-20

What do we know about the extent of young people's experiences of sex for compensation in the Nordic countries? Are such experiences addressed by social initiatives and how do legal measures affect them? This report is based on country studies focusing on knowledge about sex for compensation among young people in the Nordic countries. The five country studies show how research on the extent of and the motivations and conditions for young people selling sex in the Nordic countries is rather scarce and that there are few social initiatives that target young people specifically. The interviews with service providers and the literature reviewed point to individual vulnerabilities related to young people's experiences of compensational sex. In order to develop preventive measures more knowledge on structural factors related to experiences of compensational sex is needed.

Selling French Sex

Elisa Camiscioli, 2024-01-25

Selling French Sex is an illuminating account of the cultural, social and economic history of the sale of French sex. It explores the discourses and experiences surrounding the early twentieth century debate on sex trafficking, which mobilized various international reform movements to combat the coerced prostitution of young women abroad. According to popular legend and empirical studies, French women were present in brothels all over the world where they were the most desired and best paid in the business. But were they trafficking victims or willing migrants? In this timely

book Elisa Camiscioli reconstructs the networks and mechanisms of cross border migrations for sexual labor elucidates women s motives for leaving and staying and explains why French migrant sexual labor occupied such a prominent place in the underworld of prostitution as well as in the imaginaries of anti trafficking campaigners immigration officials and ordinary consumers of vice

Empire of Purity Eva Payne,2024-11-12 How the US crusade against prostitution became a tool of empire Between the 1870s and 1930s American social reformers working closely with the US government transformed sexual vice into an international political and humanitarian concern As these activists worked to eradicate prostitution and trafficking they promoted sexual self control for both men and women as a cornerstone of civilization and a basis of American exceptionalism Empire of Purity traces the history of these efforts showing how the policing and penalization of sexuality was used to justify American interventions around the world Eva Payne describes how American reformers successfully pushed for international anti trafficking agreements that mirrored US laws calling for states to criminalize prostitution and restrict migration and harming the very women they claimed to protect She argues that Americans ambitions to reshape global sexual morality and law advanced an ideology of racial hierarchy that viewed women of color immigrants and sexual minorities as dangerous vectors of disease Payne tells the stories of the sex workers themselves revealing how these women s experiences defy the dichotomies that have shaped American cultural and legal conceptions of prostitution and trafficking such as choice and coercion free and unfree labor and white sexual innocence and the assumed depravity of nonwhites Drawing on archives in Europe the United States and Latin America Empire of Purity ties the war on sexual vice to American imperial ambitions and a politicization of sexuality that continues to govern both domestic and international policy today

Criminalising the Purchase of Sex Jay Levy,2014-09-15 In an attempt to abolish prostitution Sweden criminalised the purchase of sex in 1999 while simultaneously decriminalising its sale In so doing it set itself apart from other European states promoting itself as the pioneer of a radical approach to prostitution What has come to be referred to as the Swedish model has been enormously influential and has since been adopted and proposed by other countries This book establishes the outcomes of this law and the law s justifying narratives for the dynamics of Swedish sex work and upon the lives of sex workers Drawing on recent fieldwork undertaken in Sweden over several years including qualitative interviewing and participant observation Jay Levy argues that far from being a law to be emulated the Swedish model has had many detrimental impacts and has failed to demonstrably decrease levels of prostitution Criminalising the Purchase of Sex Lessons from Sweden utilises a wealth of respondent testimony and secondary research to redress the current lack of primary academic research and to contribute to academic discussion on this politically charged and internationally relevant topic This original and timely work will be of interest to sex worker rights organisations policy makers and politicians as well as researchers academics and students across a number of related disciplines including law sociology criminology human geography and gender studies
