B. B. Biskupski,2012-09-13 The 11th of November 1918 Polish Independence Day is a curious anniversary whose commemoration has been only intermittently observed in the last century In fact the day and the several symbols that rightly or wrongly have become associated with it has a rather convoluted history filled with tradition and myth which deserves attention Independence Day is more than just the history of a day or the evolution of its celebration but an explanation of what meaning has come to be associated with that date It offers a re reading of Polish history not by a series of dates but through a series of symbols whose combination allows the Poles to understand who they are by what they have been Its focus is on

the era 1914 2008 and the central actor is the charismatic Jozef Pilsudski He came to represent a disposition regarding the meaning of Polish history which eventually penetrated virtually all of modern Polish society The work is constructed by the analysis of memoirs documents coins stamps films maps monuments and many other features making it a multi disciplinary and multi dimensional volume *Civil-Military Relations in Post-Communist Europe* Timothy Edmunds,Andrew

Cottey,Anthony Forster,2013-10-18 Fifteen years after the fall of communism we are able to appraise the results of the multi faceted postcommunist transition in Central and Eastern Europe with authority This volume specifically addresses the fascinating area of Civil Military relations throughout this transitional period The countries of the region inherited a onerous legacy in this area their armed forces were part of the communist party state system and most were oriented towards Cold War missions they were large in size and supported by high levels of defence spending and they were based on universal male conscription Central and eastern European states have thus faced a three fold civil military reform challenge establishing democratic and civilian control over their armed forces implementing organisational reform to meet the security and foreign policy demands of the new era and redefining military bases for legitimacy in society This volume assesses the experiences of Poland Hungary Latvia Romania Croatia Serbia Montenegro Ukraine and Russia in these areas Collectively these countries illustrate the way in which the interaction of broadly similar postcommunist challenges and distinct national contexts have combined to produce a wide variety of different patterns of civil military relations This book was previously published as a special issue of European Security **The Consolidation of Democracy in East-Central Europe** Karen

Dawisha,Bruce Parrott,1997-06-13 Edited by two of the world s leading analysts of post communist politics this book brings together distinguished specialists on the Baltic states Estonia Latvia and Lithuania Poland the Czech Republic Slovakia and Hungary The authors analyse the patterns of post communist democratization in these countries paying particular attention to the process of party formation electoral politics the growth of civil society and the impact of economic reform on the emergence of interest groups Karen Dawisha and Bruce Parrott provide theoretical and comparative chapters on post communist political development across the region This book will provide students and scholars with detailed analysis by leading authorities plus the latest research data on recent political and economic developments in each country **Anatomy of Post-Communist European Defense Institutions** Thomas-Durell Young,2017-06-29 Although the West won the Cold War the continuation of the status quo is not a foregone conclusion The former Soviet aligned regions outside of Russia Ukraine Poland Czech Republic and others sit atop decaying armed forces while Russian behavior has grown more and more aggressive as evidenced by its intervention in Ukraine in recent years Thomas Young delves into the state of these defense institutions in Central and Eastern Europe whose resources have declined at a faster rate than their Western neighbors due to social and fiscal circumstances at home and shifting attitudes in the wider international community With rigorous attention to the nuances of each region s politics and policies he documents the status of reform of these armed forces and

the role that Western nations have played since the Cold War as well as identifying barriers to success and which management practices have been most effective in both Western and Eastern capitals This is essential reading for undergraduates and graduates studying the recent history of Europe in the post Soviet era as well as those professionally involved in defense governance in the region

Norms and Nannies Ronald Haly Linden, 2002 As the Central and East European states seek to join the European Union and NATO they face challenging demands to adhere to specific European norms and standards In this first comprehensive analysis contributors examine how this process operates in a variety of domains including civil military relations social labor and regional relations economic and information policies and foreign policy Each author considers what norms are generated by or absent from European international organizations how they are communicated to prospective members and most important what impact they have had on the policies and actions of individual countries as well as on the region as a whole These on the ground studies provide the empirical foundation needed to support theories of norm diffusion constructivism and liberalism in international relations and comparative politics alike

Edmunds, 2001-11-28 This major comparative study examines the challenges that the countries of postcommunist Central and Eastern Europe have faced in securing democratic control of their armed forces and establishing civilian control of defence policy This book explores how the interaction of the common challenges of postcommunism and the diverse circumstances of individual countries shape civil military relations in this changing region Detailed country case studies written by leading experts compare the experiences of the Central European states such as Poland and Romania the Baltic republics the former Yugoslavia republics Russia and Ukraine

Civil-Military Relations in Russia and Eastern Europe David Betz, 2004-07-31 This book examines how civil military relations have been transformed in Russia Poland Hungary and Ukraine since the collapse of the Soviet Union and the Warsaw Pact in 1991 It shows how these countries have worked to reform their obsolete armed forces and bring them into line with the new economic and strategic realities of the post Cold War world with new bureaucratic structures in which civilians play the key policy making roles and with strengthened democratic political institutions which have the right to oversee the armed forces

Altered States Andrew P. Cortell, Susan Peterson, 2003-01-01 Challenging dominant assumptions in international relations *Altered States* demonstrates that national political institutions change more frequently and less dramatically than is commonly thought and with important consequences for the political landscape Combining theory with solid empirical research including archival evidence and interviews the contributors explore the causes and consequences of institutional transformation in the United States Western and Eastern Europe Russia and the former Soviet Republics and Cuba *Altered States* highlights the dynamic and interactive relationship between national political institutions and reform minded policy entrepreneurs a perspective that will interest scholars and policy makers alike
