Schmid,2015-02-13 An examination of how the technical choices social hierarchies economic structures and political dynamics shaped the Soviet nuclear industry leading up to Chernobyl The Chernobyl disaster has been variously ascribed to human error reactor design flaws and industry mismanagement Six former Chernobyl employees were convicted of criminal negligence they defended themselves by pointing to reactor design issues Other observers blamed the Soviet style of ideologically driven economic and industrial management In Producing Power Sonja Schmid draws on interviews with veterans of the Soviet nuclear industry and extensive research in Russian archives as she examines these alternate accounts Rather than pursue one definitive explanation she investigates how each of these narratives makes sense in its own way and demonstrates that each implies adherence to a particular set of ideas about high risk technologies human machine interactions organizational methods for ensuring safety and productivity and even about the legitimacy of the Soviet state She also shows how these attitudes shaped and were shaped by the Soviet nuclear industry from its very beginnings Schmid explains that Soviet experts established nuclear power as a driving force of social not just technical progress She examines the Soviet nuclear industry's dual origins in weapons and electrification programs and she traces the emergence of nuclear power experts as a professional community Schmid also fundamentally reassesses the design choices for nuclear power reactors in the shadow of the Cold War's arms race Schmid's account helps us understand how and why a complex sociotechnical system broke down Chernobyl while unique and specific to the Soviet experience can also provide valuable lessons for contemporary nuclear projects [Cosmos](#) Alexander von Humboldt,1880 [Cosmos: A Sketch of a Physical Description of the Universe](#) Alexander Von Humboldt,2023-02-24 Reprint of the original first published in 1871 The publishing house Anatiposi publishes historical books as reprints Due to their age these books may have missing pages or inferior quality Our aim is to preserve these books and make them available to the public so that they do not get lost

**The Early Avant-Garde in Twentieth-Century Literature and Art** Willard Bohn,2018-05-11 This book focuses on avant garde literature and art in Europe and America during the first quarter of the twentieth century It examines five movements that shaped our response to the demands of the modern age and contributed to the creation of a modern sensibility Cubism Futurism the Metaphysical School Dada and Surrealism Each of these arose in response to recent scientific technological and or philosophical developments that drastically affected modern civilization In turn each was responsible for a major paradigm shift that altered the way in which we view and respond to the world around us The final chapter is comparative in nature and studies the role of the mannequin in literature and art during the same period [The](#)

**stadium century** Robert W. Lewis,2016-12-08 The stadium century traces the history of stadia and mass spectatorship in modern France from the v lodromes of the late nineteenth century to the construction of the Stade de France before the 1998 soccer World Cup As the book demonstrates the stadium was at the centre of debates over public health and urban development and proved to be a key space for mobilising the urban crowd for political rallies and spectator sporting events alike After 1945 the transformed French stadium constituted part of the process of postwar modernisation but also was increasingly connected to global transformations to the spaces and practices of sport Drawing from a wide range of sources the stadium century links the histories of French urbanism mass politics and sport through the stadium in an innovative work that will appeal to historians students of French history and the history of sport and general readers alike *Shaping the Novel* Constantina Thalia Mitchell,Paul Raymond Côté,1996-10-01

The dialogue between form and message is intrinsic to the novel as genre Yet the strength of that discourse has been shaken in the twentieth century by an increasing doubt about affirmations of any kind and a growing awareness of the relativity of knowledge and perception The novel reflects this intellectual current by turning its glance inward to mediate on the creative act as a form of self contained assertion of its own particular significance The three writers on whom this study focuses all major twentieth century authors were chosen because they can be considered as important representatives of this novelistic self consciousness Building on Andr Malraux s vision of the colloquium as an open ended verbal interchange this study calls upon the voices of Anne H rbert and Patrick Modiano to enter into a dialogue on novelistic form

**De la classe coopérative à la pédagogie institutionnelle** Fernand Oury,Aïda Vasquez,1971-01-01T00:00:00+01:00  
Pendant des années Fernand Oury instituteur de banlieue a poursuivi avec une obstination débordante la tâche immense et dérisoire de transformer le monde entre les quatre murs d'une salle de classe Et pas n'importe laquelle une classe de perfectionnement Nanterre celle des débiles des laissés pour compte ou viennent chouer tous ceux qui opposent l'école une corce impénétrable Ne sait pas lire Ne sait pas compter Insupportable Intenable Et de ces rebuts il tente de faire une classe un groupe des individus quelque chose d'humain Pour cela il faut bien sûr du courage et du tempérament Mais aussi de la méthode Et c'est ainsi que l'instituteur aide d'une psychologue vaincue qui passait par là est mis la besogne Avec ces enfants il n'y a pas question de dire que la pédagogie est un art une intuition Il faut du solide Du scientifique Empruntant la psychologie la psycho-sociologie la sociométrie la psychanalyse et bien sûr aux techniques Freinet dont Fernand Oury est un fervent partisan ils se sont mis à laborer une doctrine eux quelque chose d'un peu bricolé toutefois mais qui peu à peu prendait forme et contenu et qui est devenu sans doute l'une des bases les plus solides de l'flexion dont on dispose actuellement Une pédagogie qui repose sur le groupe mais l'oppose au laisser faire non directif qui s'appuie sur des règles précises donnant chacun une tâche soumise à la discussion et l'approbation de l'ensemble Une pédagogie qui tente de constituer un espace humain fort dans lequel l'individu se sent pris en charge par la présence des autres tout en assumant ses responsabilités propres Tout cela s'est constitué au diable au contact des difficultés et des enfants et c'est le fil de cette laboration que l'on remonte tout au long de ces huit cents pages où se mêlent les portraits les descriptions les imprécations contre le système et les chercheurs en chambre les flexions théoriques et les diagrammes Sous son titre prébarbatif de manuel pour pédagogue ce livre est une sorte de torrent bouillonnant où les notations et les exclamations s'entrechoquent avec une virulence verbale dont l'optimisme renforce Frédéric Gaußen Le Monde 1974     **Claude Lanzmann After Shoah** Michael G. Levine,Jared Stark,2022-01-01 The 141st volume of Yale French Studies examines the life and work of Claude Lanzmann following his masterpiece *Shoah*. This volume of Yale French Studies charts the different paths the filmmaker Claude Lanzmann (1925–2018) took after the release of *Shoah* in 1985. These paths are explored through a consideration of his late films *Tsahal* (1994), *A Visitor from the Living* (1997), *Sobibor October 14 1943* (2001), *Light and Shadows* (2008), *The Karski Report* (2010), *The Last of the Unjust* (2013), *Napalm* (2017) and *Four Sisters* (2018) and of his memoir *The Patagonian Hare*. The volume also includes an English translation of his last major interview *Self Portrait at Ninety*. The original essays collected here show that Lanzmann's

late films and writing stand as something more than mere footnotes to his 1985 masterpiece Continuing to wrestle with questions of cinematic transmission and the relationship among film history and testimony they confront anew and in a variety of approaches the challenge of representing the Holocaust and of living in its aftermath
