Sheckels, 2022-11-25 Margaret Atwood and Social Justice eventually presents a loose ideology evident in the author's major works of prose fiction It insists however that Atwood is a writer not an ideologue and that therefore this ideology evolves over her career always secondary to her presenting stories and characters and through them ideas Throughout her career Atwood has been concerned about the social injustice experienced by women After expressing concern for the plight of the environment in *Surfacing* and workers in *Life Before Man* Atwood turned quite political in *Bodily Harm* and *The Handmaid's Tale* blending her concern for justice for women with criticism of present day Third World and future right wing governments Atwood then turned inward looking at how those denied justice often do the same to others and turned to history looking at injustice tied to social class She later brought many of her concerns together in *The Blind Assassin* and especially the three books that comprise the MaddAddam trilogy Later works such as *The Heart Goes Last* *Hag Seed* and *The Testaments* add to the picture most fully articulated in *The Blind Assassin* which looks back at the 1930s and the MaddAddam books which look ahead to a future marked by global warming corporate oppression and pandemic As argued here these later books strengthen her indictment of corporations which oppress for the sake of profit and offer her most straightforward recognition that race plays a major role in whether social justice is served or not Barry Jenkins and the Legacies of Slavery Delphine Letort, 2023-08-08 In this book Delphine Letort examines the plots and ploys that intermingle fiction and history in Barry Jenkins television adaptation of *The Underground Railroad* allowing viewers to experience enslavement and flight through the eyes of the female protagonist Cora Letort demonstrates how the fusion of imaginary and real elements underlies a poetic visual and narrative style to guide viewers emotional and epistemological understanding of the past She posits that another imagery of enslavement can be created one that does not position the black woman at the margins of slavery cinema and history as the *mise en sc ne* of the underground as a symbolic space representing the hidden and the repressed opens new fictional possibilities for imagining the intimate life of the enslaved Ultimately this book reveals how the serial format proves instrumental in transforming the gaze on the racial subject using repetition and difference from one episode to the next to prompt new ways of seeing Scholars of film and television studies popular culture history and critical race theory will find this book of particular interest
