The High Cost Of Revival:

The High Cost of Revival John R. Rice, 1946 **The High Cost of Farm Welfare** Clifton B. Luttrell, 1989-01-01 Few people have been helped by the massive farm subsidy programs that have developed over the past 5 years charges agricultural economist Clifton B Luttrell the programs have been a colossal waste of money In this book Luttrell traces the history of government intervention in the agricultural sector from the early price support schemes to the massive expansion of farm programs during the New Deal and the postwar period then provides a comprehensive analysis of modern programs He contends that such programs tax the poor to enrich the wealthy Luttrell concludes that dismantling the farm programs would provide major savings for American consumers and taxpayers increase the economic viability of the nation's farming sector and reduce the federal budget deficit by as much as 25 billion His provocative arguments are sure to become required reading on U S farm policy **Revival in the City** Eric R. Crouse, 2005-09-23 From the 1880s to the outset of World War I the best known American evangelists held hundreds of revival meetings in cities across Canada Over a million and a half Canadians gathered in churches roller rinks halls theatres factories and even saloons to hear the likes of D L Moody Sam Jones Sam Small Reuben Torrey and J Wilbur Chapman preach a particular brand of American revivalism While at first these meetings were as successful in Canada as they were in the US by the second decade of the twentieth century the support of Canadian Protestant leaders for revivalism had diminished The American evangelists inspired their largely working class listeners by talk of personal salvation but Eric Crouse argues in an increasingly secular climate this inspiration did not lead them to become church members The Canadian church leadership thus came to see the revival experience as costly and ineffective **Routledge Revivals: Industrial Dislocation (1991)** Daniel Todd, 2018-05-08 First published in 1991 this book offers a thorough examination of the decline of heavy industry in industrialised countries in the West which focuses on problems in the shipbuilding industry Todd argues that three points are central to its demise industrial life cycles the international division of labour and the energy crises of 1973 His work begins with despondency in western shipbuilding going back as early as 1956 when Japan usurped Britain as the pre eminent ship producer The book goes on to explore international trade and industry in the second half of the 20th century with analysis on industrial reorganisation and East Asian conglomerates diversification with the marine industries and shipbuilding in Brazil India and China **The Economics of Unemployment (Routledge Revivals)** J. A. Hobson, 2013-05-13 First published in 1922 Hobson's study of the depression and resulting unemployment in the aftermath of the First World War is a far sighted analysis which looks beyond the consequences of the war itself at the root economic causes of the crisis Dealing with issues such as the failure of consumption trade fluctuations the balance of spending and saving and spiralling credit as factors which lay at the root of the depression Hobson's study is a document of considerable economic social and historical value which still has much to teach the modern reader whether interested layperson or student of economics Technology, Employment, and Output Per Man

V. Varghese, 2021-11-18 Higher education is vital to India's future creating democratic citizens and a modern economy building communities and cities and conducting research the country needs to continue its advance Yet with two thirds of people of India living in rural areas and urban incomes below the world average in a culturally diverse country the tragic effects of the Covid 19 pandemic and profound problems of regional social and gender inequalities higher education faces many challenges This book brings together experts and emerging researchers from India and the UK to discuss these issues and to explore positive solutions The team shine the spotlight on financing and funding governance and regulation sector organisation and institutional classification equity and social inclusion the large and poorly regulated private sector Union State relations in higher education student political activism and internationalisation *The Cat and the Toaster* Douglas A. Hall, Judy Hall, Steve Daman, 2010-01-01 Living system ministry is an approach to Christian ministry in the Western world that recognizes the differences between cats the world God created and toasters the world we create using our technology and our capacities limited as they are The church is the Body of Christ a living system Neighborhoods cities and cultures too are complex and interrelated living social systems Why then would we try to do God's work in a church or social system using tools and methods designed for non living systems We do it because our culture is very organizationally and technologically centered We have grown accustomed to thinking of our social contexts not as living systems but as things we can easily measure and control Embracing both perspective and procedure Living System Ministry is about doing better ministry by seeing a better picture of what exists in the total system Like farmers rather than technicians we learn to be involved in and to be in tune with what causes fruitfulness We never cause fruit to happen God does But as our work becomes better aligned with what God is already doing in his complex living system environment there is an explosion of life We discover the fruit that remains Writing from his forty five years of experience as an urban ministry practitioner in Boston Dr Doug Hall introduces us to an approach to missions that recognizes the lead role of God's larger living social systems as powerful engines for doing far more in our world than we can even begin to imagine **Russia's 'Age of Silver' (Routledge Revivals)** Ian Blanchard, 2014-05-01 First published in 1989 Russia's Age of Silver represents a major contribution to the history of the international economy during the eighteenth century challenging old prejudices and establishing the importance of Russian precious metal production Ian Blanchard examines the nature of the Central and South America specie crisis of 1670 to 1760 and the response of European precious metal producers He highlights the rise of the Russian copper industry to a position of world supremacy and the Siberian gold and silver mines to old world supremacy

The study explains why Russia experienced little inflation and why no metal was exported the economy acted as a sponge absorbing the flood of coins as monetary expansion was paralleled by rapid economic growth These developments doubled average per capita incomes over the course of the century so that between 1788 and 1807 the average Russian enjoyed an income equivalent to that of their British counterpart Providing a comprehensive analysis this reissue will be of particular value to students and researchers with an interest in Russian economic history

Constraints and Adjustments in British Foreign Policy (Routledge Revivals) Michael Leifer, 2013-10-31 This book first published in 1972 offers a detailed analysis of the post war formulation of foreign policy as Britain sought to detach itself from its imperialist past and moved towards a European future The contributors all experts in their fields together provide a comprehensive commentary on the complexities of the external pressures that moulded British foreign policy during these years The subjects covered highlight the dichotomy of and interaction between residual obligations and new goals and national aspirations These include the examination of past policies regarding the Commonwealth South East Asia NATO and the special relationship with the U S A as well as multi national companies and Britain's place in the changing global society This reissue will be of particular interest to students and academics researching the history of British foreign policy international diplomacy and development and post colonialism

The Economics of Alfred Marshall (Routledge Revivals) David Reisman, 2013-07-04 First published in 1986 The Economics of Alfred Marshall is concerned with the theories of demand supply market structure and income distribution which the celebrated author of the Principles of Economics developed while standing on the shoulders of giants It is thus concerned with hidden assumptions institutional constraints tentative conclusions and blurred distinctions for these are an integral part of the contribution of an economist who warned against spurious over simplification of that which is inherently complex The economics of Alfred Marshall appears easy when in fact it is fraught with difficulties The Economics of Alfred Marshall seeks to explain Marshall's theories in detail and to evaluate them in depth The book attempts in that way to help the reader to gain a deeper understanding of an influential thinker whose insights however difficult continue to shed a great deal of light on the nature and workings of the economic system

Under the Big Top Josh McMullen, 2015-02-02 Under the Big Top examines the immensely popular big tent revivals of turn of the twentieth century America and develops a new framework for understanding Protestantism in this transformative period of the nation's history Contemporary critics of the revivalists often depicted them as anxious and outdated religious opponents of a modern urban nation Early historical accounts likewise portrayed tent revivalists as Victorian hold outs bent on re-establishing nineteenth century values and religion in a new America In this revisionist work Josh McMullen argues that contrary to these stereotypes big tent revivalists actually participated in the shift away from Victorianism and helped in the construction of a new consumer culture in the United States How did the United States become the most consumer driven and yet one of the most religious societies in the western world McMullen shows that revivalists and their audiences reconciled the Protestant ethic of salvation with the

emerging consumer ethos by cautiously unlinking Christianity from Victorianism and joining it to the new emerging consumer culture Under the Big Top helps to explain the continued appeal of both the therapeutic and the salvific worldview to many Americans as well as the ambivalence that accompanies this combination Commerce Reports ,1939-04 *When Heaven Invades Earth Expanded Edition* Bill Johnson,2013-03-19 It is truly possible for human people to walk in the divine and Christ came to show us the way It is by rediscovering our true identity in Him that we can begin to move into the promises of God regarding the miraculous Bill Johnson not only teaches the supernatural he imparts it by changing the way we think If you are not walking **Victorian Religious Revivals** David Bebbington,2012-05-31 Revivals are outbursts of religious enthusiasm in which there are numerous conversions In this book the phenomenon of revival is set in its broad historical and historiographical context David Bebbington provides detailed case studies of awakenings that took place between 1841 and 1880 in Britain North America and Australia showing that the distinctive features of particular revivals were the result less of national differences than of denominational variations These revivals occurred in many places across the globe but revealed the shared characteristics of evangelical Protestantism Bebbington explores the preconditions of revival giving attention to the cultural setting of each episode as well as the form of piety displayed by the participants No single cause can be assigned to the awakenings but one of the chief factors behind them was occupational structure and striking instances of death were often a precipitant Ideas were far more involved in these events than historians have normally supposed so that the case studies demonstrate some of the main patterns in religious thought at a popular level during the Victorian period Laymen and women played a disproportionate part in their promotion and converts were usually drawn in large numbers from the young There was a trend over time away from traditional spontaneity towards more organised methods sometimes entailing interdenominational co operation World's Greatest Revivals Fred Wright,Sharon Wright,2011-07-28 How desperate are you Revivals always begin with personal desperation When we are desperate enough to cry out to God for our need He releases a deluge of His Spirit to not only meet your need but to also change your family community state nation and the world The greatest revivals have all been initiated by the deep seated needs of man God has responded to passionately meet each of those needs Waves of God s mercy in response to our heart s cry will benefit those around us and even the world The World s Greatest Revivals explores The Reformation The Great Awakening The Azusa Street Revival The Toronto Blessing Through extensive research and personal experiences authors Fred and Sharon Wright share the fascinating history of revivals and revivalists over the past 600 years and explore their long lasting impact on society This book shows the personal impact of these revivals and how our desperation opens the floodgates of heaven **A History of Land Use in Joshua Tree National Monument** Linda W.
