

Snapping Americas Epidemic Of Sudden Personality Change

David Kirk

Snapping Americas Epidemic Of Sudden Personality Change:

Snapping Flo Conway, Jim Siegelman, 1995 Classic Returns In this expanded edition of the 1978 original Conway and Siegelman continue their study of the altering of the American psyche which has led to the rise of religious cults super Christian sects private citizen militias and other phenomena that dominate today's headlines Probably more timely now than when first published this is an important title for academic and public libraries Library Journal Their book is judicious sensible well researched and very frightening New York Times Book Review It is a book of investigative reporting at its best New York Post What Woodward and Bernstein were to Watergate Conway and Siegelman may well be to the cults United Press International Credible and chilling The second edition of SNAPPING is as important a resource in understanding spreading societal chaos as the first edition was in explaining the chaos of cults Minneapolis Star Tribune Important this book provides a tool to exercise judgment monitor incoming information and interpret what has become an increasingly intrusive battle for our minds At its core it is language that holds the key to our mental health or to our destruction What George Orwell's *Animal Farm* is to literature SNAPPING is to non fiction Albuquerque Journal In a prophetic vein SNAPPING is not only fascinating and frightening reading it is also extremely well written The escalating pattern of cult fanaticism and religious political terror that the authors call a death spiral seems to be widening If we do nothing to understand and ultimately reverse that pattern it will pull more and more innocent people into its vortex Cleveland Jewish News For anyone threatened with snapping this book is a dispassionate valuable study of an often frightening phenomenon People There is no doubt that Conway and Siegelman are opening the door on areas of human understanding that have never been examined and that are in urgent need of study New Society SNAPPING is an exciting and responsible and original piece of research that has taught this old poop amazing new ways to think about the human mind Kurt Vonnegut SNAPPING is by far the best and most scientific treatment of the cult problem yet published For the scientist politician clergy or parent it is valuable and wonderfully readable John G Clark M D Asst Clinical Professor of Psychiatry Harvard Medical School Conway and Siegelman place cultic behavior in the wider context of the communication revolution of our time Indeed SNAPPING unfolds as a traveling detective investigation they very capably trace and analyze the course of the phenomenon and contribute greatly to our understanding of it The Cult Observer Conway and Siegelman are onto something important SNAPPING is a fascinating book with frightening implications Edward T Hall author of *The Silent Language* The classic book on cults still the best book ever Believe me folks these are the real experts Geraldo Rivera **The to Z of New Religious Movements** George D. Chryssides, 2006-04-17 Alongside the older and more established religions there are hundreds indeed thousands more which have recently emerged These new religious movements or NRMs for lack of a better name are not only numerous they are also extremely varied and stem from a wide array of sources They run the gamut from small to large and all possess a tendency to constantly expand And while their potential for good is considerable more often than not it is their abuses that

are noticed Still writing them off as sects is too easy especially when they are as poorly understood as they often are The A to Z of New Religious Movements is a major contribution to understanding these new and formative religions While leaving any evaluation to the reader it offers brief descriptions of well over a hundred NRMs in the dictionary section along with information on the founders and leaders and also their roots in Christianity Buddhism Hinduism Islam and other more traditional religions The impact of modern philosophy and science are also weighed Since their roots often lay further back the chronology starts in the 18th century and continues to the present and the introduction attempts the arduous task of defining and categorizing the NRMs The extensive bibliography provides further reading

Cults James R.

Lewis,2014-09-11 Cults examines the history and current status of cults across the United States Europe and East Asia Focusing on the principal controversial religions and movements that have attracted major media attention the book also includes profiles of hundreds of minority religions from Jesus People and Rastafarians to voodoo practitioners and the human cloning Raelians All the issues central to the practice and the fear of cults are examined apocalypticism deprogramming social isolation cults and the media the use and threat of violence child custody libel tax evasion solicitation and the techniques of persuasion and conviction as are the many charismatic cult leaders Cults presents a comprehensive and authoritative reference offering a balanced view of the controversy surrounding these new religious movements assessing the movements themselves as well as the legal and governmental responses to them including attempts to quantify membership

Another Gospel Ruth A. Tucker,2004 Ruth A Tucker s book is a comprehensive survey of all the major alternative religions in the United States including the new groups since the 1960s

American Sociology of Religion

Anthony J. Blasi,2007 First ever collection of histories of American sociology of religion including accounts of early dissertations changes in theory and studies of denominations globalization feminism new religions and Latino a American religion

The Oxford Handbook of New Religious Movements James R. Lewis,Inga B. Tollefsen,2016-04-12 The study of New Religious Movements NRMs is one of the fastest growing areas of religious studies and since the release of the first edition of The Oxford Handbook of New Religious Movements in 2003 the field has continued to expand and break new ground In this all new volume James R Lewis and Inga B T llefsen bring together established and rising scholars to address an expanded range of topics covering traditional religious studies topics such as scripture charisma and ritual while also applying new theoretical approaches to NRM topics Other chapters cover understudied topics in the field such as the developmental patterns of NRMs and subcultural considerations in the study of NRMs The first part of this book examines NRMs from a social scientific perspective particularly that of sociology In the second section the primary factors that have put the study of NRMs on the map controversy and conflict are considered The third section investigates common themes within the field of NRMs while the fourth examines the approaches that religious studies researchers have taken to NRMs As NRM Studies has grown subfields such as Esotericism New Age Studies and neo Pagan Studies have grown as distinct and

individual areas of study and the final section of the book investigates these emergent fields Understanding New Religious Movements John A Saliba,2004-09-08 Discussions of any religion can easily raise passions But arguments tend to become even more heated when the religion under discussion is characterized as new Divisions around the study of new religious movements NRMs or cults or nontraditional or alternative or emergent religions are so acute that there is even controversy over what to call them John Saliba strives to bring balance to these discussions by offering perspectives on new religions from different academic perspectives history psychology sociology law theology and counseling This approach provides rich descriptions of a broad range of movements while demonstrating how the differing aims of the disciplines can create much of the controversy around NRMs The new second edition has been updated and revised throughout and includes a new foreword by noted historian of religion J Gordon Melton For classes in religion or the social sciences or for interested individuals Understanding New Religious Movements offers the most objective introduction possible Perspectives on New Religious Movements John A. Saliba,2016-10-06 This book provides a dispassionate analysis of new religious movements charting their growth and examining them from a variety of perspectives sociological psychological legal and theological Saliba then questions whether or not membership harms those who join these new movements and assesses the charge that they brainwash their adherents **Countercultures** J. Milton Yinger,1984-04 In this important study Yinger successfully demonstrates his central point countercultures are best understood as a continuous part of human experience and social organization Library Journal **The Psychology of Religion, Fourth Edition** Ralph W. Hood, Jr.,Peter C. Hill,Bernard Spilka,2009-07-15 Scholarly and comprehensive yet accessible this state of the science work is widely regarded as the definitive graduate level psychology of religion text The authors synthesize classic and contemporary empirical research on numerous different religious groups Coverage includes religious thought belief and behavior across the lifespan links between religion and biology the forms and meaning of religious experience the social psychology of religious organizations and connections to morality coping mental health and psychopathology Every chapter features thought provoking quotations and examples that bring key concepts to life New to This Edition Revised and updated with the latest theories methods and empirical findings Many new research examples Restructured with fewer chapters for better fit with a typical semester More attention to the differences between religion and spirituality Covers emerging topics genetics and neurobiology positive psychology atheism and more **EXPLORING CHÁN** Chuan Zhi,2025-03-01 Exploring Ch n A Journey into the Heart of Chinese Buddhism Chuan Zhi s Exploring Ch n is a profound and comprehensive guide to the history philosophy and practice of Chinese Ch n Buddhism Blending rigorous scholarship with philosophical depth Zhi reconstructs both the emergence of Buddhism in general and of Chinese or Ch n Buddhism in particular with astonishing knowledge and a philosophically profound understanding of its spiritual core Kirkus Reviews The book traces Buddhism s evolution from India to China and beyond offering a nuanced perspective on Ch n as a mystical discipline rooted in Self knowledge As the precursor to Japanese

Zen Ch n remained largely unknown in the West overshadowed by Zen s global recognition This disparity stems from historical factors like China s restrictive Canton System during the Qing Dynasty Exploring Ch n bridges this gap providing modern readers with a rare and insightful view of Chinese Ch n s depth and significance Readers will find Zhi s work both intellectually stimulating and spiritually enriching His practical guidance on meditation is paired with clear and accessible explanations of Buddhist concepts As Booklife Reviews notes Readers will be inspired by his encouraging reminders about the objectives of Ch n and straightforward guidance on practicing meditation Whether you are a spiritual seeker a student of world religions or simply curious about Ch n this meticulously crafted book with its footnotes illustrations and extensive bibliography invites you to delve into Chinese Buddhism and discover a tradition that offers timeless wisdom spiritual practice and a profound way of living

Encyclopedia of Pseudoscience William F. Williams, 2013-12-02 The Encyclopedia of Pseudoscience is the first one volume A to Z reference that identifies defines and explains all of the terms and ideas dealing with the somewhat murky world of the almost sciences Truly interdisciplinary and multicultural in scope the Encyclopedia examines how fringe or marginal sciences have affected people throughout history as well as how they continue to exert an influence on our lives today This comprehensive reference brings together superstitions and fads that are part of popular culture such as fortune telling healing practices once thought marginal that are now become increasingly accepted such as homeopathy and acupuncture frauds and hoaxes that have occurred throughout history such as UFOs mistaken theories first put forward as serious science but later discarded as false such as phrenology and racial typing etc More than 2000 extensively cross referenced and illustrated entries cover prominent phenomena major figures events topics places and associations

Agents of Discord Anson Shupe, Susan E. Darnell, 2011-12-31 It is widely acknowledged that the United States has always provided fertile ground for the growth of new religious movements and cults but modern organized efforts to oppose and restrict them have been less well understood In Agents of Discord Anson Shupe and Susan E Darnell offer a groundbreaking analysis of the operations and motives of these oppositional groups which they generally group under the umbrella term of the anticult movement Historically there have always been parallel groups opposed to certain religious movements whether these be anti Quaker anti Roman Catholic or anti Mormon The authors establish the cultural context of such movements in the nineteenth century They point out the link between modern anticult movements and nativist movements in American history Turning to the postwar era the authors discuss the rise of anticult movements and focus specifically on one of the most prominent the Cult Awareness Network CAN CAN was a two tiered organization Partly composed of volunteers donors and families affected by cult movements it also included what the authors call an inner sanctum of behavioral science professionals attorneys and deprogrammers Using never before reported data on CAN s activities the authors cite an extensive history of financial impropriety that finally led to the organization s bankruptcy They offer a pointed critique informed by current scholarship of the brainwashing model of mental enslavement presented by the

anticult movement that has been a central assumption undergirding its activities At the same time they show how increasing professionalization has gradually begun a shift of such movements to a therapeutic model of exit counseling that rejects the crude methods of earlier intervention strategies In their analysis of the anticult movement nationally and internationally Shupe and Darnell merge sociological concepts and social history to make unique sense of a heretofore relatively unexplored phenomenon

Routledge Library Editions: Sociology of Religion Various,2021-07-14 This set collects together in 19 volumes a wealth of texts on Sociology of Religion An invaluable reference resource it contains classic books on a wide range of topics including religion and violence religion and family life religion and society culture and class The Psychology of Religion Ralph W. Hood (Jr.),Peter C. Hill,Bernard Spilka,2018-09-17 Keeping up with the rapidly growing research base the leading graduate level psychology of religion text is now in a fully updated fifth edition It takes a balanced empirically driven approach to understanding the role of religion in individual functioning and social behavior Integrating research on numerous different faith traditions the book addresses the quest for meaning links between religion and biology religious thought belief and behavior across the lifespan experiential dimensions of religion and spirituality the social psychology of religious organizations and connections to coping adjustment and mental disorder Chapter opening quotations and topical research boxes enhance the readability of this highly instructive text New to This Edition New topics cognitive science of religion religion and violence and groups that advocate terrorist tactics The latest empirical findings including hundreds of new references Expanded discussion of atheism and varieties of nonbelief More research on religions outside the Judeo Christian tradition particularly Islam State of the art research methods including techniques for assessing neurological states

Understanding Religious Abuse and Recovery Patrick J. Knapp,2021-04-21 Currently there are at least four major identifiable perspectives on how people best understand and recover from religious abuse Both secular and faith based Christian adherents can be variously identified in each of these approaches This book examines these viewpoints and evaluates their various strengths and limitations It concludes that each perspective is helpful to the extent possible given the limitations of its respective philosophic or theological assumptions This book summarizes each viewpoint and suggests a larger contextual perspective helpful to better understand involvement in and recovery from religiously abusive environments The conclusion is an integration of the various conceptual frameworks and a different model SECURE is described that includes essential principles and practical strategies necessary for recovery from religious abuse Suggestions are made for future research and study both for academics with interest in the cultic studies and counseling fields and for various people negatively affected by religious abuse and in need of recovery **The Elementary Forms of the New Religious Life** Roy Wallis,2019-03-19 This book first published in 1984 examines the whole range of new religious movements which appeared in the 1960s and 1970s in the West It develops a wide ranging theory of these new religions which explains many of their major characteristics Some of the movements are well known such as Scientology Krishna

Consciousness and the Unification Church Others such as the Process Meher Baba and 3 HO are much less known While some became international others remained local in other ways too such as style belief organisation they exhibit enormous diversity The movements studied here are classified under three ideal types world rejecting world affirming and world accommodating and from here the author develops a theory of the origins recruitment base characteristics and development patterns which they display The book offers a critical exploration of the theories of the new religions and analyses the highly contentious issue of whether they reflect the process of secularisation or whether they are a countervailing trend marking the resurgence of religion in the West

MOVE Richard Kent Evans,2020-06-01 What is a religion That is the question that Richard Kent Evans attempts to answer in this book He does so through the story of MOVE a little known group with a fascinating story MOVE emerged in Philadelphia in the early 1970s It was a small mostly African American group devoted to the teachings of John Africa In 1985 the Philadelphia Police Department working in concert with federal and state law enforcement attacked a home that MOVE people as they preferred to be known shared in West Philadelphia Hundreds of police officers and firefighters laid siege to the building using tear gas ten thousand rounds of ammunition and improvised explosives Most infamously a police officer riding in a helicopter dropped a bomb containing C 4 explosives which he had acquired from the FBI onto the roof of the MOVE house The bomb started a fire which officials allowed to spread in hopes of chasing the MOVE people out of the house Police officers fired upon those who tried to escape the flames Eleven MOVE people died in the attack including John Africa Five of those who died were children In this book Richard Kent Evans tells the story of MOVE a story that has been virtually lost outside of Philadelphia What was MOVE Many MOVE members thought of themselves as belonging to a religion and they sought legal recognition But to others including other religious groups like the Quakers and more importantly the courts MOVE was anything but a religion Evans dives deep into how we decide what constitutes a genuine religious tradition and the enormous consequences of that decision

The Subtle Body Stefanie Syman,2010-06-15 In *The Subtle Body* Stefanie Syman tells the surprising story of yoga s transformation from a centuries old spiritual discipline to a multibillion dollar American industry Yoga s history in America is longer and richer than even its most devoted practitioners realize It was present in Emerson s New England and by the turn of the twentieth century it was fashionable among the leisure class And yet when Americans first learned about yoga what they learned was that it was a dangerous alien practice that would corrupt body and soul A century later you can find yoga in gyms malls and even hospitals and the arrival of a yoga studio in a neighborhood is a signal of cosmopolitanism How did it happen It did so Stefanie Syman explains through a succession of charismatic yoga teachers who risked charges of charlatanism as they promoted yoga in America and through generations of yoga students who were deemed unbalanced or even insane for their efforts *The Subtle Body* tells the stories of these people including Henry David Thoreau Pierre A Bernard Margaret Woodrow Wilson Christopher Isherwood Sally Kempton and Indra Devi From New England the book moves to New York City and its new

suburbs between the wars to colonial India to postwar Los Angeles to Haight Ashbury in its heyday and back to New York City post 9 11 In vivid chapters it takes in celebrities from Gloria Swanson and George Harrison to Christy Turlington and Madonna And it offers a fresh view of American society showing how a seemingly arcane and foreign practice is as deeply rooted here as baseball or ballet This epic account of yoga s rise is absorbing and often inspiring a major contribution to our understanding of our society **Dark Hero of the Information Age** Flo Conway, Jim Siegelman, 2006-08-29 Two award winning journalists reveal the epic story of one of the 20th century s most brilliant figures the eccentric mathematical genius Norbert Wiener who founded the revolutionary science of cybernetics and then spent his life warning the world about its dangerous human consequences photos
