Make It Go in the Snow Larry Jorgensen, 2024-08-01 Through the years, the challenge of powered transportation in the snow has been met with ideas from explorers, creative inventors, and small companies, all with new ideas, often unique and sometimes successful. The name snowmobile was trademarked in 1917, but there were snow travel ideas before that date, and certainly thousands more since. Winter explorers and trailblazers sought to replace their dogsleds and snowshoes as they explored difficult locations, including remote locations on the north and south poles. Early inventors of snow vehicles often scavenged parts from many mechanical devices, trying many power and propulsion methods, from 2 and 4 stroke engines to air propulsion, and even a snow biting screw auger concept. The snow travel ideas from some early inventors were simply designed to solve their own needs; others came from entrepreneurs who believed folks would be impressed and want to buy their creations. Some of their ideas evolved into companies such as Polaris Arctic Cat and Ski Doo, which prospered and now can trace their roots back to that first snowmobile idea. **Make It Go In The Snow** provides a fun look at the history of a few of the many thousands of snow travel ideas and those enthusiasts who gave them birth. Captured and recorded are a wide variety of snowmobile ideas without offering judgment on any individual venture. Join me as I pay tribute to all those ideas, past, present, and future. But keep watching, because more snow excitement is waiting to be created. From Modern History Press
