10 years more and more linguistic and psycholinguistic research has been devoted to the study of discourse and written texts. Much of this research deals with the markers that underline the connections and the breaks between clauses and sentences plus the use of these markers by adults and children in the production and comprehension of oral and written material. In this volume major observations and theoretical views from both sides of the Atlantic are brought together to appeal to a wide range of linguists, psychologists and speech therapists. The volume presents contributions from researchers interested specifically in adult language and from others concerned with developmental aspects of language. Some contributors deal primarily with production whereas others concentrate on comprehension. Some direct their attention to oral discourse while others focus on written texts. To preserve overall coherence however the contributors were given the following recommendations. With regard to the level of linguistic analysis the emphasis should be on the clause level more particularly on the relationships between clauses. Special emphasis should also be placed on linguistic markers e.g. connectives, markers of segmentation, punctuation. An overview of a given field of research should be offered and current research should be put into perspective. For contributors in the developmental field attention should be paid to the fact that an account of the acquisition of some language functions throughout childhood should be included only if general principles of interclause relations that might be masked by the exclusive examination of adult evidence could be derived from it.

F.S.P. Arthur Gwynn-Browne, 2017-07-24 I am in the F S P F S P stands for Field Security Personnel That is the authorized version So begins this remarkable account of six months service with the British Expeditionary Force in France up to and including the terrible retreat to and evacuation from the beaches of Dunkirk at the end of May 1940 Absorbing affecting thrilling often funny this book is very different from other war memoirs It was the first on the ground account of Dunkirk to be published in 1942 and lacks nothing in the immediacy of its telling The narrative is gripping and the style is revolutionary immersing the readers in the emotional and psychological

turbulence of the author's experience and making them feel they are living through it themselves. The result is a stunningly authentic and involving record of one of the defining episodes of twentieth-century British history. Editor N. H. Reeve provides a lucid critical and biographical Afterword and includes two extracts from an unfinished work by Gwynn Browne in which his idiosyncratic stream-of-consciousness style is used to describe the London Blitz and the mood of the civilian population in wartime. *Fabulous Females and Peerless Pirs*, 2004. A distinctive aspect of Hindu devotion is the veneration of a human guru who is not only an exemplar and a teacher but is often worshipped as an embodiment of the divine. In the past these gurus have almost always been men. Today, however, female gurus are a noticeable presence, especially in the United States.
