Emiliano Zapata! Samuel Brunk, 2016-04-25 The life of Mexican Revolutionary Emiliano Zapata was the stuff that legends are made of Born and raised in a tiny village in the small south central state of Morelos he led an uprising in 1911 one strand of the larger Mexican Revolution against the regime of long time president Porfirio Diaz He fought not to fulfill personal ambitions but for the campesinos of Morelos whose rights were being systematically ignored in Don Porfirio's courts Expanding haciendas had been appropriating land and water for centuries in the state but as the twentieth century began things were becoming desperate It was not long before Diaz fell But Zapata then discovered that other national leaders Francisco Madero Victoriano Huerta and Venustiano Carranza would not put things right and so he fought them too He fought for nearly a decade until in 1919 he was gunned down in an ambush at the hacienda Chinameca In this new political biography of Zapata Brunk noted journalist and scholar shows us Zapata the leader as opposed to Zapata the archetypal peasant revolutionary In previous writings on Zapata the movement is covered and Zapata the man gets lost in the shuffle Brunk clearly demonstrates that Zapata's choices and actions did indeed have an historical impact The Industrial Connection Bernard Carl Rosen, Estudio que aborda el tema de como la industrializacion en los paises en desarrollo afecta al ambito de la familia La industrializacion refuerza el grupo de parientes en una sociedad en desarrollo que valora una familia extensa ademas la relacion entre maridos y esposas se vuelve mas comunicativa demostrativa e igualitaria las actitudes del rol sexual liberal aumentan el poder de la esposa dentro de la familia pero disminuye la fertilidad en la ciudad industrial Por otra parte la industrializacion democratiza las relaciones entre padres e hijos y aumenta la motivacion para lograr el exito en los chicos aunque como se lleve este a cabo depende de la cultura y la estructura social de cada uno **Chicanas/Chicanos at the Crossroads** David R. The Radical Humanism of Erich Fromm K. Durkin, 2014-09-04 This book shortlisted for the British Sociological Association's Philip Abrams Memorial Prize 2015 argues that Fromm is a vital and largely overlooked contribution to twentieth century intellectual history and one who offers a refreshingly reconfigured form of humanism that is capable of reintegrating explicitly humanist analytical categories and schemas back into social theoretical and scientific considerations

Social Generativity Mauro Magatti, 2017-12-12 The 2008 economic crisis called into question the sustainability of the individualistic consumer society However for better or for worse this long term crisis represents an opportunity for the creation of a new model of growth to reform capitalism structurally as well as culturally As a contribution to this debate Social Generativity offers a much needed and original conceptual synthesis within a unique anthropological focus on the forms of selfhood sustained by the historical and economic conditions of the present day Encompassing four years of interdisciplinary empirical research based primarily on a sample of social groups organizations and firms in Italy this volume redefines the notion of Social Generativity from its psychological origin as formulated by Erik Erikson to that of a social

action that can be implemented during daily life and in different spheres of existence A critical analysis of contemporary capitalism this volume will appeal to postgraduate students and policy makers interested in fields such as Organisational Studies Anthropological Theory Social Change Economic Sociology Public Affairs and Business Ethics **Sociological Amnesia** Alex Law, Eric Royal Lybeck, 2016-03-03 The history of sociology overwhelmingly focuses on the winners from the classical canon Marx Durkheim and Weber to today's most celebrated sociologists This book strikingly demonstrates that restricting sociology in this way impoverishes it as a form of historically reflexive knowledge and obscures the processes and struggles of sociology's own making as a form of disciplinary knowledge Sociological Amnesia focuses on singular contributions to sociology that were once considered central to the discipline but are today largely neglected Chapters explore the work of illustrious predecessors such as Raymond Aron Erich Fromm and G D H Cole as well as examining exceptional cases of reputational revival as in the case of Norbert Elias or Gabriel Tarde Through understanding the obstacles of recognition faced by female sociologists like Viola Klein and Olive Schreiner and public intellectuals like Cornelius Castoriadis the volume considers the reasons why certain kinds of sociology are hailed as central to the discipline whilst others are forgotten In so doing the collection offers fresh insights into not only the work of individual sociologists but also into the discipline of sociology itself its trajectories forgotten promises and dead ends Erich Fromm's Critical Theory Kieran Durkin, Joan Braune, 2020-04-16 Interest in Fromm is increasing as a prominent Marxist sociologist psychoanalytic theorist and public intellectual the unique normative humanist thrust of his writings provides a crucial critical reference point for those seeking to understand and transcend the societal pathologies of our age The essays in this volume retrieve revive and expand upon Fromm's central insights and contributions They offer a critical theory of culture the self psychology and society that goes beyond what is typical of the narrower concerns of the fragmented and isolated disciplines of today demonstrating the pan disciplinary potential of Fromm's work But this book does not simply reassert Fromm's ideas and rehash his theories but rather reconstructs them to bring them into meaningful dialogue with contemporary ideas and cultural political and economic developments Providing new approaches to Fromm's ideas and work brings them up to date with contemporary problems and debates in theory and society and helps us understand the challenges of our times The Road from Paradise Stjepan Gabriel Me_trovi_, 1993-01-01 The 1989 fall of communism in Eastern Europe occurred in a period when Western intellectuals were involved in a confusing discourse on a number of other dramatic endings the end of modernity the end of the century even the possible end of sociology Against this backdrop the authors focus on continuities based on the habits of the heart of those who threw off communism in Eastern Europe contrasting them with Western modes of thought Their cultural explanation draws on theories of Tocqueville Durkheim and others to examine positive as well as negative aspects of the nations that survived communism While focusing on the Balkans they also make cautious prognoses for the rest of Eastern Europe **Durkheim and Postmodern Culture** Stjepan Mestrovic, 2017-09-29 The present work is

an elaboration of the author's previous efforts in *Emile Durkheim and the Reformation of Sociology* 1988 and *The Coming Fin de Sicle* 1991 to demonstrate Durkheim's neglected relevance to the postmodern discourse. The aims include finding affinities between our fin de sicle and Durkheim's fin de sicle and connecting the contemporary themes of rebellion against Enlightenment narratives found in postmodern culture with similar concerns found in Durkheim's sociology as well as in his fin de sicle culture contributing to Durkheimian scholarship as well as to the postmodern discourse. The distinctive aspects of the present study flow from the focus on culture, communication, and the feminine voice in culture. Durkheim is approached as a fin de sicle student of culture and his insights applied to our fin de sicle culture. Furthermore, because Durkheim claimed that culture is comprised primarily of collective representations, he was a forerunner of the current postmodern concerns with communication. Because Durkheim shall be read in the context of his fin de sicle, this book shall lead to the conclusion that Durkheim was a kind of psychoanalyst such that society is the patient, culture comprises the symptoms, and the sociologist must decipher, decode, and even deconstruct collective representations. Yet the Durkheimian deconstruction proposed here is unlike the postmodern deconstructions which criticize and tear apart a text without substituting a better meaning or interpretation. Postmodern discourse has made respectable again the synthesis of multidisciplinary insights that was fashionable in Durkheim's fin de sicle. In following this postmodern strategy, this book is more than a book about Durkheim. It is also a book about his contemporaries among them Carl Gustav Jung, Thorstein Veblen, Henry Adams, Georg Simmel, and Max Weber. The author does not follow the postmodern strategy completely because he follows *Habits of Industry* by Allen Tullos, 2017-10-01. *Habits of Industry* provides a richly descriptive social, historical, and cultural account of the Carolina Piedmont, the area between the Blue Ridge Mountains and the Coastal Plain, over the course of 150 years. By examining the social and religious culture of the region, Allen Tullos illuminates the lives of the working men and women whose habits of industry shaped their world. Tullos combines archival research with an extensive collection of oral histories to shed new light on the essentially all-white textile industry in the era before World War II. He examines such topics as workers' transition from an agrarian folk culture to an industrial working class, the changing patterns of employers' paternalistic relations, and the contrasting and complimentary meanings of industry. Using biographies and autobiographies of both mill owners and mill workers, Tullos juxtaposes the entrepreneurial narratives of the Belks, Hammetts, Tompkinses, Dukes, and Loves with the equally remarkable stories of such workers as Ethel Hillard, Alice, and Grover Hardin, and Nigel League.
