## **Social Awakening Adolescent Behavior As Adulthood Approaches:**

**Social Awakening** Robert T. Michael, 2001-08-23 While headlines about violent crimes committed by adolescents often capture the public's attention many more young people excel in the classroom on the athletic field and in the community Why do some youngsters strive to achieve while others court disaster Using new data from the National Longitudinal Survey of Youth NLSY a survey of more than nine thousand young people between the ages of twelve and sixteen *Social Awakening* explores the choices adolescents make about their lives and their futures The book focuses on the key role the family plays as teenagers navigate the difficult transition from childhood to adulthood *Social Awakening* analyzes a wide range of adolescent behavior and issues that affect teenagers' lives from their dating and sexual behavior drug and alcohol use and physical and mental well-being to their career goals and expectations for the future The findings strengthen our understanding of how an array of family characteristics single parenthood income educational level race and geographical location influences teens' lives One contributor explores why children from single parent families are more likely to perform poorly in school and to indulge in risky behavior such as drug abuse or promiscuous sexual activity Another chapter examines why children of parents with a college degree are less likely to engage in early sexual activity And another looks at different levels of criminal behavior among urban and rural youths One of the advantages of an in-depth interview such as the NLSY is the wide array of behavior and experiences by the same youths that can be mutually investigated The analysis in *Social Awakening* helps confirm or refute what we think we know to explore what we could not explore with older or less complex surveys The NLSY which forms the foundation of *Social Awakening* will be updated annually over the coming decades to enable experts to learn how those who were adolescents at the dawn of the twenty-first century handled the move to adulthood *Social Awakening* provides a compelling first look at these young people's lives *Key Indicators of Child and Youth Well-being* Brett V.

Brown, 2008 Indicators of child and youth well-being are indispensable tools for improving the lives of children In this book the nation's leading development researchers review the recent progress made in the measurement collection dissemination and use of indicators of child and youth well-being In addition they identify opportunities for future research to expand and improve on the indicator data available so as to develop greater measures of positive development The first eleven chapters cover key indicators in the areas of health education social and emotional development and then social context indicators of the family peers school and the community The book then goes on to demonstrate the use of indicators for influencing policy at the state and local levels One chapter discusses how social indicators were used to guide welfare reform and another recounts the use of the indicators to guide local planning The volume concludes with a discussion of summary indices of well-being and the methodological challenges of constructing such indices Written in an accessible manner for policy makers practitioners and researchers concerned with children's well-being including experts in developmental social community and educational psychology the book also serves as a supplementary text in public policy and the social sciences The policy

chapters will be of particular interest to those who use child and youth indicators to guide policy development

choices parents make the behaviors they engage in and relevant policy and program interventions More specifically core questions addressed by the authors include Why do some families invest while others do not and are differential investment patterns related to biology economics or social factors What constitutes a successful investment portfolio How are investments measured and or characterized Are different investments interchangeable compensating or off setting Given a set of resources why are some families able to make more effective investments in child outcomes How well do these investments affect outcomes for children and for these children as young adults Can interventions or public policies help families build assets or become better investors in their children s potential Developing a better understanding of what investments matter when they matter and how resources can be successfully invested in children s potential is key to shaping efficient interventions and social policies Knowledge of how parents invest and what strategies are effective may help policies which seek to further empower and enable parental involvement and choice for their children
