Race, Gender, and Citizenship in the African Diaspora Manoucheka Celeste, 2016-07-01 Winner of the National Communication Association's 2018 Diamond Anniversary Book Award With the exception of slave narratives there are few stories of black international migration in U S news and popular culture This book is interested in stratified immigrant experiences diverse black experiences and the intersection of black and immigrant identities Citizenship as it is commonly understood today in the public sphere is a legal issue yet scholars have done much to move beyond this popular view and situate citizenship in the context of economic social and political positioning The book shows that citizenship in all of its forms is often rhetorically representationally and legally negated by blackness and considers the ways that blackness

and representations of blackness impact one's ability to travel across national and social borders and become a citizen This book is a story of citizenship and the ways that race gender and class shape national belonging with Haiti Cuba and the United States as the primary sites of examination **Citizenship in the 21st Century** Lester T. Kane, Marylyn R. Poweller, 2008 Citizenship is membership in a political community and carries with it rights to political participation It is largely coterminous with nationality although it is possible to have a nationality without being a citizen and vice versa This book presents a line up of contributors offering in depth analyses of this issue **Welfare Law** Lucy A. Williams, 2020-11-25 This title was first published in 2001 Welfare law is a legal field integral to most jurisprudential formulations whether artificially designated as doctrinal theoretical or practical At its core legal discourse regarding welfare challenges the formulations traditionally viewed as pre legal the background rules of property tort and contract law In addition it affects a large percentage of the world's population highlights the social construction of identities and perhaps more than any other area of law graphically epitomizes the intersection of class race and gender distinctions However within both the legal academy and practice welfare law has been marginalized and viewed as a field that does not connect to any but a small sector of lawyers and legal clients Isolated as an arcane domain of either statutory and regulatory legal minutiae or jurisprudential insignificance welfare law has never realized its potential as a major hub for legal theoretical discourse The articles in this volume seek to expose the roots of the essentialized view of welfare law as nonessential and re establish its value and importance **Social Policy Review 34** Andy Jolly, Ruggero Cefalo, Marco Pomati, 2022-06-27 Experts review the leading social policy scholarship from the past year in this comprehensive volume Published in association with the Social Policy Association this volume addresses current issues and critical debates *The Politics of Pleasure in Sexuality Education* Louisa Allen, Mary Lou Rasmussen, Kathleen Quinlivan, 2013-12-17 Pleasure and desire have been important components of the vision for sexuality education for over 20 years This book argues that there has been a lack of scrutiny over the political motivations that underpin research supportive of pleasure and desire within comprehensive sexuality education In this volume key researchers in the field consider how discourses related to pleasure and desire have been taken up internationally They argue that sexuality education is clearly shaped by specific cultural and political contexts and examine how these contexts have shaped the development of pleasure's inclusion in such programs Via such discussions this volume incites a re configuration of thought regarding sexuality education's approach to pleasure and desire **Senior citizenship?** Louise Ackers, Peter Dwyer, 2002-06-26 This book charts the development of mobility and welfare rights for those citizens exercising their right to move or return home on retirement under the Free Movement of Persons provisions and explores their experiences of international mobility It is set within the context of Citizenship of the Union Senior citizenship draws on substantial primary research material to combine detailed analysis of the framework of EU rights shaping social with in depth qualitative interviews involving retired migrants across six member states Greece Portugal Italy

the United Kingdom Sweden and Ireland describe and evaluate an innovative approach to comparative enquiry that combines biographical interviews with legal and qualitative analysis highlight the diverse nature of retirement migration encompassing the experiences of returning workers migrating retirees and post retirement returnees Topics are explored thematically in the context of comparative social policy raising important and topical issues around the future of social citizenship and the implications of the exercise of agency in an increasingly global and mobile world *What is Citizenship?* Derek

Mackert,Bryan S. Turner,2017-03-16 The Transformation of Citizenship addresses the basic question of how we can make sense of citizenship in the twenty first century These volumes make a strong plea for a reorientation of the sociology of citizenship and address serious threats of an ongoing erosion of citizenship rights Arguing from different scientific perspectives rather than offering new conceptions of citizenship as supposedly more adequate models of rights membership and belonging they deal with both the ways citizenship is transformed and the ways it operates in the face of fundamentally transformed conditions This volume Political Economy discusses manifold consequences of a decades long enforcement of neo liberalism for the rights of citizens As neo liberalism not only means a new form of economic system it has to be conceived of as an entirely new form of global regional and national governance that radically transforms economic political and social relations in society Its consequences for citizenship as a social institution are no less than dramatic Against the background of both manifest and ideological processes the book looks at if citizenship has lost the basis it has rested upon for decades or if the institution itself is in a process of being fundamentally transformed and restructured thereby changing its meaning and the significance of citizens rights This book will appeal to academics working in the field of political theory political sociology and European studies **Ethics in Public Health Practice in India** Arima Mishra,Kalyani

Subbiah,2018-10-10 This edited volume draws on ten original contributions that locate ethics at the centre stage of public health practice The essays explicate ethical issues challenges deliberations and resolutions covering a broad canvas of public health practice including policies programmes research training and advocacy The contributors are academics and practitioners in varying roles and long standing engagement with public health in diverse settings within India Their expertise in disciplines range from anthropology sociology health communications gender studies economics epidemiology social work and medicine Their chapters deal with dimensions of ethical dilemmas that can rarely be defined and contained within ethical guidelines and protocols alone Instead they throw light on the associated factors value systems and contexts in which such complexities occur and require response or redressal This volume aims to articulate the growing awareness among practitioners that public health ethics is not merely an advanced grouping of possible problems and solutions It hopes to facilitate robust platforms for dialogue and debate on the subject through the lenses of these contributions The book is conceptualized to reach broader audiences such as public health practitioners and researchers in several roles within Government health systems NGOs Grass root organizations CSR initiatives advocacy groups as well as researchers in academic settings and facilitators involved in teaching ethics and imparting training for students and young practitioners of public health

Imagined Societies Willem Schinkel,2017-02-16 In many countries in Western Europe the demand for immigrant integration has inevitably raised questions about the societies into which immigrants are asked to integrate Imagined Societies critically intervenes in debates on immigrant integration and multiculturalism in Western Europe Schinkel argues that the term multiculturalism is not used primarily to describe a type of policy or political philosophy in countries such as the Netherlands France Germany or Belgium but rather as a rhetorical device that promotes demands for integration He analyses how such demands are ways of imagining the very idea of a host society as modern secular and enlightened Starting from debates in social theory on social imaginaries and drawing on public debates on citizenship secularism and sexuality and on the social science of measuring immigrant integration this book presents a highly original study of immigrant integration that challenges our understanding of the concept of society

Homelessness Patricia Kennett,Alex Marsh,1999-09-15 Analysis that links the phenomenon of homelessness to wider debates about the changing social and economic environment remains relatively underdeveloped This important book brings together contemporary debates and empirical research in order to explore the nature experience and impact of social change in the context of risks and uncertainties

including older people practitioners in ageing and aged care researchers and those who reflect on the process of growing older Chapters feature diverse perspectives highlighting the need for inclusivity in conversations that surround ageing and recognize how development of cultures is influenced by the society where they emerge and by minority groups within larger society Chapters also note the occurrence of subcultures of ageing and aged care The conference was held shortly before the onset of the COVID 19 pandemic with the chapters being written often during times of lockdown Their content reflects the importance of spirituality in times of isolation and can show ways of reaching out to vulnerable older people of various faiths and cultures whatever their situations Changing Cultures of Ageing and Spirituality will be a key resource for academics researchers and advanced students of Theology Divinity and Religious Studies Gerontology Sociology Psychology Mental Health and Nursing The chapters included in this book were originally published as a special issue of Journal of Religion Spirituality Aging
