Formative Years, 1918-1928 Peter J. Boettke,2013-03-14 This book presents a narrative of one of the more interesting
utopian experiments in comparative political and economic history the first decade of the Soviet experience with socialism
1918 1928 Though historical and textual analysis the book s goal is to render this experience intelligible to get at the
meaning of the Soviet experience with socialism for comparative political economy today The book examines the texts of
Lenin Bukharin and other revolutionaries as well as the interpretations of contemporary historians of the revolution and the
writings of more recent interpreters of Soviet political and economic history Arguing that the first three years of the
Bolshevik regime 1918 1921 constitute an attempt to carry out the Marxian ideal of comprehensive central planning and that
the disastrous results which all commentators agree occurred were the inevitable outcome of this Marxian ideal coming into
conflict with the economic reality of the coordination problem that all economic systems face the book draws clear
conclusions and elucidates the air of mystery that often surrounds the subject Offering a radical challenge to contemporary
comparative political economy at the level of high theory applied research and public policy this book is appropriate for
students and scholars interested in Marxism economic history political economy and Austrian economics *Dictionary*
