No Joke M. Keith Booker, 2023-05-18 No Joke is a detailed examination of Todd Phillips's Joker one of the biggest global box office hits of 2019 While his success was no doubt partly because of the association of its title character with the Batman superhero franchise Joker is anything but a flashy superhero romp It does explore the pathologies of its central character and suggest ways in which his life experiences might have driven him to become a supervillain the arch enemy of Batman At the same time the film leaves open the possibility that its Joker is not in fact the same as the one conventionally associated with Batman In fact the film leaves open many interpretive possibilities in keeping with the complex work of postmodern art that it turns out to be Joker also engages in extensive dialogues with a range of works from modern American culture especially the films of the 1970s and 1980s the period in which the action of Joker is set Moreover Joker is a highly political film that comments in important ways on American political history from roughly the beginning of the presidency of Richard Nixon through the end of the Trump presidency with a special focus on the Reagan years It also comments in more general and fundamental ways on the very nature of American society and American capitalism All this and more is covered in M Keith Booker's analysis of one of the most talked about films of recent years

*Mind The Gap* Peter Wilson, 2014-06-03 We rarely speak or even write in the complete sentences that are often held to be the ideal form of linguistic communication Language is in fact full of gaps because speakers and writers operate in contexts which allow bits of language to be understood rather than expressed This book systematically analyses this inherent gappiness of

language known as ellipsis and provides an account of the different contexts both linguistic and situational which affect its use Peter Wilson draws on a wide variety of examples of spoken and written English and both literary and non literary to present a comprehensive classification of elliptical language that ranges from the conversational fragment and the advertisement to the dialogue of Shakespeare and imagist poetry Mind the Gap shows how ellipsis is a feature of major structural and stylistic importance to our understanding of spoken and written language and will be of interest to undergraduate students of linguistics literature communication and the interrelations between them
