Introduction

Benchmarks are important tools for tracking the rapid advancements in large language model (LLM) capabilities. However, benchmarks are not keeping pace in difficulty: LLMs now achieve over 90% accuracy on popular benchmarks like MMLU, limiting informed measurement of state-of-the-art LLM capabilities. In response, we introduce Humanity's Last Exam, a multi-modal benchmark at the frontier of human knowledge, designed to be the final closed-ended academic benchmark of its kind with broad subject coverage. The dataset consists of 3,000 challenging questions across over a **hundred** subjects. We publicly release these questions, while maintaining a private test set of held out questions to assess model overfitting.

The Last Exam

Keengwe, Jared

The Last Exam:

Right here, we have countless book **The Last Exam** and collections to check out. We additionally manage to pay for variant types and furthermore type of the books to browse.
