Sacred Demise Carolyn Baker, Ph.D., 2009-02-23 The collapse of industrial civilization is rapidly unfolding and offers us an opportunity far beyond mere survival even as it renders absurd any attempts to fix or prevent the end of the world as we have known it *Sacred Demise* is about the transformation of human consciousness and the emergence of a new paradigm as a result discovering our purpose in the collapse process thereby coming home to our ultimate place in the universe Our willingness to consciously embark on the journey with openness and uncertainty may be advantageous for engendering a quantum evolutionary leap for our species and for the earth community We face an awesome internal transition that will take us into very unfamiliar territory and will call upon our deeper resources Carolyn Baker's *Sacred Demise* is a courageous wise and compassionate guide for us all through this inner journey Michael Brownlee Co founder

Richard Heinberg from WRPI **The Ties That Bind** Mike F. Foster, 2010-10 Americans are great joiners Millions of us join organizations devoted to birds animals natural history and the outdoors But joining is not the same as connecting We have been slow to realize that Nature is in trouble The climate is warming Resources are disappearing faster than we can replace them Species extinctions are accelerating To save birds and to preserve the planet we must first heal ourselves because as intolerance and selfishness demonstrate every day humanity is in trouble with itself We can begin to save ourselves by realizing that our fate is linked to that of the natural world We can begin to heal our environment by relearning cooperation mutual respect and generosity of spirit virtues that will reinforce our intimate and infinite ties to Mother Nature Throughout *The Ties That Bind Birds Nature and Us* Mike Foster emphasizes the practical value of these virtues while elaborating the personal philosophy he has developed during a lifetime of outdoor experiences His sympathetic connections to Nature provide vivid images of the natural world especially birds His message is informative and uplifting The questions the author raises in these essays probe subjects most of us prefer to ignore Why are so many Americans still denying their role in global warming How is the energy crisis mostly a matter of attitudes What would bacteria like to tell us Why is water shortage a moral issue In the voluminous literature on the environment this book is unique in suggesting the transformative role birds can play in changing our attitudes to Nature Based on solid biological research expressed in a fluent and often lyrical style with a confident voice Foster's essays will convince you that birds and Nature are worth saving [When Technology Fails](#)

Four Arrows, 2020-08-01 The diversity and Inclusion movement in corporations and higher education has mostly fallen short of its most authentic goals This is because it relies upon the dominant worldview that created and creates the problems it attempts to address Rediscovering and applying our original Indigenous worldview offers a remedy that can bring forth a deeper and broader respect for diversity and a different way to understand and honor it This book offers a

transformative learning opportunity for preserving diverse environments at every level one that may be a matter of human survival Praise for The Red Road Linking Diversity and Inclusion Initiatives to Indigenous Worldview Four Arrows has combined his internationally respected scholarship on Indigenous worldview with experience based story telling to help bring forth a more effective way to actualize authentic respect for diversity especially as it relates to transformational curricula in higher education Had humanity begun this project long ago Nature would not have to be bringing us back into balance so radically now Tom McCallum White Standing Buffalo M tis Michif speaking elder Cree Sundance Lodge Keeper and author Five hundred years of colonization has divided humanity separated us from our relatives and reduced them to objects to be exploited for commerce and greed We are now steeped in multiple life threatening crises and staring at extinction The road of violence extermination and extinction has been paved by colonizing the land diverse cultures our minds and the future The Red Road Linking Diversity and Inclusion Initiatives to Indigenous Worldview by Four Arrows provides a path to the future a path of peace with signposts from Indigenous world views that recognize that we are interconnected and are all members of one Earth family Our highest duty our Dharma is living in harmony with all our relations Vandana Shiva Scholar Physicist environmental activists and recipient of the Alternative Nobel Peace Prize the Right Livelihood Award Director of NAVDANYA and author of over 20 books including Oneness vs the 1% and Who Really Feeds the World Understanding the Grand Design Joachim Wolf,2003 Increasingly scientific discoveries are revealing similarities with spiritual concepts but the common basis of science and spirituality has so far escaped a logical explanation This book describes how we can understand this common basis if we do something as simple as change our point of view After that it becomes a matter of common sense a brand new type of common sense that is available to everyone not just scientists This new common sense called Holistic Logic produces surprising and convincing results when applied to dimensions that transcend our three dimensional world Holistic Logic leads to conclusions that agree with the teachings of Christ Vedic Scripture and the tenets of Buddhist philosophy Even those unschooled in science can understand how Holistic Logic holds true for discoveries in Quantum Physics and Einstein s Theory of Relativity Holistic Logic explains spiritual reality in a rational way using the laws of multi dimensional reality much in the same way we explain physical reality with laws of physics This may well be the breakthrough that Mankind has been seeking for centuries Holistic Logic may finally have made the connection between the science of matter and the world of spirit In the future this connection may prove to be even more significant than that event some 400 years ago when Humankind first understood that the earth was not the center of the universe Today the world is desperate for a change As humans we are struggling to cope with the ever increasing problems that we are causing in our eco systems and in ourselves We are recklessly depleting our oil reserves we are destroying the lungs of our planet by cutting down the rainforests and have set in motion a pattern of global warming that can have disastrous results for us and our children As individuals we feel that we are at the mercy of random events Some of us are maimed or murdered some of

us develop fatal diseases and many of us know disappointment and guilt We don't understand the forces that drive events nor the apparent indifference of a God who expects obedience but rains misfortune down upon us We are powerless in the face of tragedies like that which occurred on 9/11/01 Now we have the tools that will help us to avoid destruction and turn the whole situation around We have the ability to understand and implement the laws of spiritual reality We have a method that will help us to understand The Grand Design and to create the kind of world that we want We have Holistic Logic This book explains the basics of Holistic Logic citing 10 Holon Principles that when taken together comprise the Holistic Logic System With the aid of clear practical examples and many illustrations the reader will understand the building blocks of physical and spiritual reality the mysterious union of the Whole and its Parts **The Water Bearer Diaries** Bud Dharmadha, 2006-09-01 The Water Bearer Diaries is a personal journal I kept leading up to during and after an experience that took place in Portland Oregon in early 2003 Although a personal journal my mindset was definitely global and there may be material in this book that will help modern spiritual seekers From The Water Bearer Diaries During the time immediately before I was taken to the psych ward I recall having problems breathing and perceiving that I needed to keep things in my mind or contact with life or else I'd die From a series of visions whizzing by I remember seeing among other things I can't remember my Mom Dad brother nephew some friends the sun an alien or aliens the earth this after I laid down on the bed this image of Earth as seen from outer space is the clearest image I have of this period of visions The Transition Handbook Rob Hopkins, 2008-02-25 Move from feeling anxious about the oil crisis to developing a positive vision and taking traction action to create a more self-reliant existence with this ground-breaking book We live in an oil-dependent world and have become reliant in a very short space of time using vast reserves of oil in the process and without planning for when the supply is not so plentiful Most of us avoid thinking about what happens when the oil runs out or becomes prohibitively expensive but the reality may not be as bad as we think The Transition Handbook shows how the inevitable and profound changes ahead could have a positive effect Written by permaculture expert Rob Hopkins he discusses the possibility of a rebirth of local communities which will generate their own fuel food and housing These will encourage the development of local currencies to keep money in the local area and unleash a local skilling up so that people have more control over their lives The growth in interest in the Transition model continues to be exponential There are now more than 35 formal Transition Initiatives in the UK including towns cities islands villages and peninsulas with more joining as the idea takes off With little proactivity at government level communities are taking matters into their own hands and acting locally If your community has not yet become a Transition Initiative this upbeat guide filled with beautiful black and white photographs offers you the tools to get started The Transition Handbook is the perfect manual to guide communities as they begin this energy descent journey
