**The Land and Government of Muscovy** Heinrich von Staden, Thomas Esper, 1967      The Land and Government of Muscovy Heinrich von Staden, 1967      Sources for World in the Making: Since 1300 Bonnie G. Smith, Marc Van de Mierop, Richard Von Glahn, Kris E. Lane, 2018-08-07 Designed to complement World in the Making A Global History this two volume sourcebook gathers together the voices of both notable figures and everyday individuals Compiled by the Bonnie Smith Marc Van Der Mierop Richard von Glahn and Kris Lane Sources for World in the Making reflects the geographic breadth and key social cultural and political developments covered in each chapter of the parent text Every chapter includes an introduction and approximately six sources representing both major works and fresh perspectives A Contrasting Views feature presents sources with divergent perspectives to foster comparative analysis      **Sources of Crossroads and Cultures, Volume II: Since 1300** Bonnie G. Smith, 2012      **The Limits of Empire: European Imperial Formations in Early Modern World History** William Reger, 2016-03-03 This volume published in honor of historian Geoffrey Parker explores the working of European empires in a global perspective focusing on one of the most important themes of Parker's work the limits of empire which is to say the centrifugal forces sacral dynastic military diplomatic geographical informational that plagued imperial formations in the early modern period 1500 1800 During this time of wrenching technological demographic climatic and economic change empires had to struggle with new religious movements incipient nationalisms new sea routes new military technologies and an evolving state system with complex new rules of diplomacy Engaging with a host of current debates the chapters in this book break away from conventional historical conceptions of empire as an essentially western phenomenon with clear demarcation lines between the colonizer and the colonized These are replaced here by much more fluid and subtle conceptions that highlight complex interplays between coalitions of rulers and ruled In so doing the volume builds upon recent work that increasingly suggests that empires simply could not exist without the consent of their imperial subjects or at least significant groups of them This was as true for the British Raj as it was for imperial China or Russia Whilst the thirteen chapters in this book focus on a number of geographic regions and adopt different approaches each shares a focus on and interest in the working of empires and the ways that imperial formations dealt with or failed to deal with the challenges that beset them Taken together they reflect a new phase in the evolving historiography of empire They also reflect the scholarly contributions of the dedicatee Geoffrey Parker whose life and work are discussed in the introductory chapters and we are proud to say in a delightful chapter by Parker himself an autobiographical reflection that closes the book      *The Cambridge History of Russia: Volume 1, From Early Rus' to 1689* Maureen Perrie, Ronald Grigor Suny, 2006 An authoritative history of Russia from early Rus to the reign of Peter the Great      **Imperial Russian Foreign Policy** Hugh Ragsdale, V. N. Ponomarev, 1993-10-29 Imperial Russian Foreign Policy aims to demythologise a field hitherto dominated by suspicions of diabolical cunning inscrutable motives and international plots using unseen forces of the gigantic

fear inspiring empire of the tsar The contributors leading historians from both Russia and the West examine Imperial foreign policy from its origins to the October Revolution revealing a policy that as in other countries had a complex of motives commerce nationalism the interests of various social groups but an unusual origin coming almost exclusively from the entourage of the tsar The work is based largely on original research in Soviet archives which only became possible after Soviet glasnost

Ivan the Terrible Charles J. Halperin, 2019-09-13 Ivan the Terrible is infamous as a sadistic despot responsible for the deaths of thousands of innocent people particularly during the years of the oprichnina his state within a state Ivan was the first ruler in Russian history to use mass terror as a political instrument However Ivan's actions cannot be dismissed by attributing the behavior to insanity Ivan interacted with Muscovite society as both he and Muscovy changed This interaction needs to be understood in order properly to analyze his motives achievements and failures Ivan the Terrible Free to Reward and Free to Punish provides an up to date comprehensive analysis of all aspects of Ivan's reign It presents a new interpretation not only of Ivan's behavior and ideology but also of Muscovite social and economic history Charles Halperin shatters the myths surrounding Ivan and reveals a complex ruler who had much in common with his European contemporaries including Henry the Eighth

Solovki Roy R. Robson, 2008-10-01 div Located in the northernmost reaches of Russia the islands of Solovki are among the most remote in the world And yet from the Bronze Age through the twentieth century the islands have attracted an astonishing cast of saints and scoundrels soldiers and politicians The site of a beautiful medieval monastery once home to one of the greatest libraries of eastern Europe Solovki became in the twentieth century a notorious labor camp Roy Robson recounts the history of Solovki from its first settlers through the present day as the history of Russia plays out on this miniature stage In the 1600s the piety and prosperity of Solovki turned to religious rebellion siege and massacre Peter the Great then used it as a prison But Solovki's glory was renewed in the nineteenth century as it became a major pilgrimage site only to descend again into horror when the islands became in the words of Alexander Solzhenitsyn the mother of the Gulag system From its first intrepid visitors through the blood soaked twentieth century Solovki like Russia itself has been a site of both glorious achievement and profound misery DIV

Ivan the Terrible Maureen Perrie, Andrei Pavlov, 2014-07-10 This is the first major re assessment of Ivan the Terrible to be published in the West in the post Soviet period It breaks away from older stereotypes of the tsar whether as crazed tyrant and evil genius on the one hand or as a

great and wise statesman on the other to provide a more balanced picture It examines the ways in which Ivan's policies contributed to the creation of Russia's distinctive system of unlimited monarchical rule Ivan is best remembered for his reign of terror the book pays due attention to the horrors of his executions tortures and repressions especially in the period of the oprichnina 1565-72 when he mysteriously divided his realm into two parts one of which was under the direct control of the tsar and his oprichniki bodyguard This work argues that the often gruesome forms assumed by the terror reflected not only Ivan's personal cruelty and sadism but also his religious views about the divinely ordained right of the tsar to punish his treasonous subjects just as sinners were punished in Hell Primarily chronological in its organisation the book focuses on three main aspects of Ivan's power the territorial expansion of the state the mythology rituals and symbols of monarchy and the development of the autocratic system of rule Wooden Church Architecture of the Russian North Evgeny

Khodakovsky, 2015-08-11 The book presents a broad panoramic overview of church architecture in the Russian North between the fourteenth and nineteenth centuries While it is inevitably overshadowed by the imperial splendour of the country's capital cities this unique phenomenon is regarded as the most distinctive national expression of traditional Russian artistic culture and at the same time as a significant part of humanity's worldwide architectural heritage The chief intention of the book is to present the regionally specific features of the wooden churches of the Russian North which vary from area to area for local natural or historical reasons This approach touches upon the very important questions of the typology and classification of the multiplicity of architectural forms The regional view entails giving clear definitions of the ambiguous terms architectural school and tradition explaining the origins and shaping impulses for the different regional clusters of objects Structurally the book presents a history of the development of wooden church architecture in the Russian North and then follows the key points of the mediaeval Russian expansion along the waterways from Novgorod into the North the Svir River Lake Onego the town of Kargopol and the River Onega the White Sea the Rivers Dvina Pinega and Mezen those areas that still retain the most splendid pieces of Russian regional wooden church architecture The study is based on field research and provides an up to date multi faceted view of Russian wooden architecture The Age of Wars of Religion, 1000-1650

Cathal J. Nolan, 2006-04-30 The Age of Wars of Religion saw navies armies armed merchant companies and mercenaries battle one another and local potentates in many lands and along numerous shores Wars of religion were fought in and between all the major religions and civilizations from Europe to China in Africa and in the isolated Americas mixing motives of knightly idealism mercenary greed and competing claims of divine sanction This unparalleled work traces the extraordinary upheavals of the period in military technology competing theologies and civilizational change that were brought about by or impinged upon military conflict It offers nearly 2 000 discrete but cross referenced entries on cultural military religious and political history as well as geography biography and military literature Close to 2 000 entries offer detailed information on the major events places battles figures technologies and ideas one must know to begin to make sense

of the past six centuries of global conflicts Though especially ferocious and intense the Wars of Reformation and Counter Reformation fought by Europeans from the 15th through 17th centuries were hardly unique in world or military history The Byzantine Empire bastion of Christian Orthodoxy staggered to the tortuous end of its long conflict with the Ottoman Empire the Great Power of the Sunni Muslim world The Ottomans in turn were still engaged in an equally ancient intra Muslim war between Sunnis and Shi ites In India the Hindu Rajputs and Marathas and also the Sikhs organized armies around religious communities to throw off the Muslim Yoke Mughul Empire and also fought against Christian invaders from Europe As for the isolated Americas ideas of divine kingship sustained by powerful priesthoods and religious warfare also prevailed as exemplified by the Inca and Aztec empires      *Московская Русь (1359-1584)* Ann M. Kleimola, Gail Lenhoff, 1997      *The House of Hemp and Butter* Kevin C. O'Connor, 2019-11-15 Founded as an ecclesiastical center trading hub and intended capital of a feudal state Riga was Old Livonia s greatest city and its indispensable port Because the city was situated in what was initially remote and inhospitable territory surrounded by pagans and coveted by regional powers like Poland Sweden and Muscovy it was also a fortress encased by a wall The House of Hemp and Butter begins in the twelfth century with the arrival to the eastern Baltic of German priests traders and knights who conquered and converted the indigenous tribes and assumed mastery over their lands It ends in 1710 with an account of the greatest war Livonia had ever seen one that was accompanied by mass starvation a terrible epidemic and a flood of nearly biblical proportions that devastated the city and left its survivors in misery Readers will learn about Riga s people merchants and clerics craftsmen and builders porters and day laborers about its structures and spaces its internal conflicts and its unrelenting struggle to maintain its independence against outside threats The House of Hemp and Butter is an indispensable guide to a quintessentially European city located in one of the continent s more remote corners      Unfree Labor Peter KOLCHIN, 2009-06-30 Two massive systems of unfree labor arose a world apart from each other in the late sixteenth and early seventeenth centuries The American enslavement of blacks and the Russian subjection of serfs flourished in different ways and varying degrees until they were legally abolished in the mid nineteenth century Historian Peter Kolchin compares and contrasts the two systems over time in this magisterial book which clarifies the organization structure and dynamics of both social entities highlighting their basic similarities while pointing out important differences discernible only in comparative perspective These differences involved both the masters and the bondsmen The independence and resident mentality of American slaveholders facilitated the emergence of a vigorous crusade to defend slavery from outside attack whereas an absentee orientation and dependence on the central government rendered serfholders unable successfully to defend serfdom Russian serfs who generally lived on larger holdings than American slaves and faced less immediate interference in their everyday lives found it easier to assert their communal autonomy but showed relatively little solidarity with peasants outside their own villages American slaves by contrast were both more individualistic and more able to identify with all other blacks both slave and free Kolchin has discovered

apparently universal features in master bondsman relations a central focus of his study but he also shows their basic differences as he compares slave and serf life and chronicles patterns of resistance If the masters had the upper hand the slaves and serfs played major roles in shaping and setting limits to their own bondage This truly unprecedented comparative work will fascinate historians sociologists and all social scientists particularly those with an interest in comparative history and studies in slavery

**Criticising the Ruler in Pre-Modern Societies - Possibilities, Chances and Methods** Karina Kellermann,Alheydis Plassmann,Christian Schwermann,2019-12-09 In vormodernen Monarchien beobachteten wir Widerspruch und Widerstand gegen einzelne Herrscher ihre politischen Entscheidungen und ihre Verwaltung aber in der Regel keine direkten Angriffe auf die Ordnungsprinzipien und das politische System Wenn Unzufriedenheit zu Aufständen und Revolten führte blieb es normalerweise bei einem bloßen Austausch des Regenten Subtilere Methoden der Herrscherkritik konnten sich mittels fester Usancen oder spezifischer Codes und Spielregeln innerhalb des legalen Rahmens Gehör verschaffen und zielten darauf ab die Qualitäten des Regenten zu verbessern oder spezifische Modi der Amtsführung zu reformieren Diese verschiedenen Formen und Praktiken von Herrscherkritik in vormodernen monarchischen Gesellschaften sind Gegenstand dieses Bandes When looking at pre modern monarchical societies one does not expect to observe fundamental dissent directed at the social order as such or at the political system As a rule criticism was limited to individual monarchs their performance and decisions While discontent could lead to insurrection and rebellion which normally only culminated in the ruler being replaced by another monarchical figurehead the subtler methods of voicing criticism were applied within a framework of legality of a set of customs or of a code of rules of the game and intended to improve the performance of the incumbent or reform his conduct at court The various forms of verbal or staged censure of rulers in pre modern monarchical societies are the subject of this volume
