"Sticks and stones may break my bones, but words can never hurt me."

Haig Bosmajian, UW professor of speech communication, takes issue with that old saying. "While names, words, and language can be, and are, used to inspire us, to motivate us to humane acts, to liberate us, they can also be used to dehumanize human beings and to 'justify' their suppression and even their extermination," he asserts.

Bosmajian's scholarly research on the language of oppression began in the 1960s when he examined the rhetoric of Adolf Hitler and Nazis, especially the language used to demonize and dehumanize the Jews and other "enemies" of the State. "The Nazis persistent portrayal of the Jews as 'vermin,' 'bacilli,' 'parasites,' and 'disease' contributed to the 'Final Solution,'" he notes. His explorations of how language has been used to defend the indefensible led him to examine the language of white racism in a seminal journal article in 1969; the paper subsequently was reprinted in over a dozen anthologies and texts adopted in university courses across the nation.

"With the subjugation and suppression of African Americans came a language which labeled them 'chattels,' 'property,' and 'beasts,'" he notes. This sort of oppressive language appeared in legal documents, political speech, and religious discourse. Similarly, he says, the subjugation and extermination of a significant population of "American Indians" was accompanied by the use of dehumanizing language defining them as "non-persons," "savages," and "Satan's partisans."

From the 1970s through the 1990s, Bosmajian's work has received national recognition. His articles and book chapters have been reprinted in college textbooks and tradebooks, appearing alongside the writings of Maya Angelou, James Baldwin, Aldous Huxley, Susanne Langer, George Orwell, Kurt Vonnegut, and other writers who have examined the uses and abuses of language.

Bosmajian was honored in 1983 with the George Orwell Award from the National Council of Teachers of English for his book, *The Language of Oppression*,¹ which treats the languages of anti-Semitism, White Racism, Indian derision, sexism, and war. The Orwell Award was established in 1975 to recognize each year the author or producer of a print or nonprint work which has made an outstanding contribution to the critical analysis of public discourse. Past recipients include Sissela Bok, Noam Chomsky, Neil Postman, and Erving Goffman.

Bosmajian has extended his explorations to the realm of language, power, and the law. In his book, *Metaphor and Reason in Judicial Opinions*,² published in 1992, he argues that while we perceive the courts as relying on the precise, literal use of language, in fact some of the most important judicial decision have relied on figurative language, especially on the metaphor. The Language Of Oppression :

The Language of Oppression Haig A. Bosmajian, 1974 Examines decadence in our language especially that language which leads to dehumanization and degradation of human beings Powerful illustrations may be found in the fact that for instance Hitler's Final Solution appeared reasonable once the Jews were successfully labelled by the Nazis as sub humans parasites vermin or bacilli So too the subjugation of the American Indian was defensible since they were defined as barbarians and savages The author of this engrossing text that was originally published in 1974 by Public Affairs Press successfully identifies and critically comments on the racist sexist and ethnic slurs still predominant in society today with the hope that this decadence will be cured Winner of the 1983 George Orwell Award from the Committee on Doublespeak of the NCTE

Praying the Language of Enmity in the Psalter Aran J. E. Persaud, 2016-07-22 How is it possible to hold a New Testament ethic to love one's enemies and pray for their physical infliction shame death and suffering of family members And yet the Psalter the prayer book of the Church contains such prayers In modern times the Church has adopted a semi-Marcionite attitude towards these troubling texts excluding whole psalms or parts from liturgies and private use But as the age of terror dawns upon us we are finding that these texts speak of unchanging realities that perhaps the ancients were abler to understand than moderns Two great wars and a multitude of ideologies proved in the last century that the intellect cannot prevent these irrational impulses of destruction and post
