Making Minorities History explores the historical context and intellectual milieu in which population transfer developed from being initially regarded as a marginal idea propagated by a handful of political fantasists and extreme nationalists into an acceptable and a progressive instrument of state policy as amenable to bourgeois democracies and Nobel Peace Prize winners as it was to authoritarian regimes and fascist dictators In addition to examining the planning and implementation of population transfers and in particular the diplomatic negotiations surrounding them Making Minorities History looks at a selection of different proposals for the resettlement of minorities that came from individuals organizations and states during this era of population transfer

Austria in the First Cold War, 1945-55 G. Bischof, 1999-08-12 At the height of the first Cold War in the early 1950s the Western powers worried that occupied Austria might become Europe's Korea and feared a Communist takeover The Soviets exploited their occupation zone for maximum reparations American economic aid guaranteed Austria's survival and economic reconstruction Their military assistance turned Austria into a secret ally of the West Austrian diplomacy played a vital role in securing the Austrian treaty in bilateral negotiations with Stalin's successors in the Kremlin demonstrating the leverage of the weak in the Cold War

Soldiers and Politics in Eastern Europe, 1945-90 Zoltan D. Barany, 1993-07-27

Australia and the Birth of the International Bill of Human Rights, 1946-1966 Annemarie Devereux, 2005 Australia and the Birth of the International Bill of Human Rights provides the first in depth examination of Australia's first reactions to international human rights during the negotiations for the International Bill of Rights the Universal Declaration of Human Rights the ICCPR and ICESCR It follows Australian policy from 1946 the first year in which the United Nations began discussing a Bill of Rights until 1966 when the twin Covenants were finalized The book looks at what successive Australian Governments understood by human rights and how they responded to discussion of sensitive domestic topics such as immigration policies self determination for inhabitants of trust territories equal pay for men and women and balancing human rights and national security As well as considering Australian policies towards substantive rights the book looks at Australian policies towards international schemes for protecting rights including early proposals for an International Court of Human Rights and its later support for more modest technical expertise based assistance for States debates often taking place against the background of highly politicised issues such as the Cold War and the fight against apartheid In looking at this 20 year period the book demonstrates the way in which Australian policy changed substantially over time as between Labor and Liberal administrations between Ministers and bureaucrats and as between decision makers with markedly distinct visions of the ideal relationship between citizens and a State and the individual State and the international community In highlighting the diversity of views about human rights this

book thus challenges the notion that Australia has historically supported a universally understood set of human rights norms and underlines the number of variables which may be affecting ongoing implementation of human rights standards

Hungary's Cold War Csaba Békés, 2022-05-03 In this magisterial and pathbreaking work Csaba B k s shares decades of his research to provide a sweeping examination of Hungary s international relations with both the Soviet Bloc and the West from the end of World War II to the dissolution of the Soviet Union in 1991 Unlike many studies of the global Cold War that focus on East West relationships often from the vantage point of the West B k s grounds his work in the East drawing on little used non English sources As such he offers a new and sweeping Cold War narrative using Hungary as a case study demonstrating that the East Central European states have played a much more important role in shaping both the Soviet bloc s overall policy and the East West relationship than previously assumed Similarly he shows how the relationship between Moscow and its allies as well as among the bloc countries was much more complex than it appeared to most observers in the East and the West alike

The World Refugees Made Pamela Ballinger, 2020-03-15 In The World Refugees Made Pamela Ballinger explores Italy s remaking in light of the loss of a wide range of territorial possessions colonies protectorates and provinces in Africa and the Balkans the repatriation of Italian nationals from those territories and the integration of these national refugees into a country devastated by war and overwhelmed by foreign displaced persons from Eastern Europe Post World War II Italy served as an important laboratory in which categories differentiating foreign refugees who had crossed national boundaries from national refugees those who presumably did not were debated refined and consolidated Such distinctions resonated far beyond that particular historical moment informing legal frameworks that remain in place today Offering an alternative genealogy of the postwar international refugee regime Ballinger focuses on the consequences of one of its key omissions the ineligibility from international refugee status of those migrants who became classified as national refugees The presence of displaced persons also posed the complex question of who belonged culturally and legally in an Italy that was territorially and politically reconfigured by decolonization The process of demarcating types of refugees thus represented a critical moment for Italy one that endorsed an ethnic conception of identity that citizenship laws made explicit Such an understanding of identity remains salient as Italians still invoke language and race as bases of belonging in the face of mass immigration and ongoing refugee emergencies Ballinger s analysis of the postwar international refugee regime and Italian decolonization illuminates the study of human rights history humanitarianism postwar reconstruction fascism and its aftermaths and modern Italian history Open Access edition funded by the National Endowment for the Humanities

an era of political confidence and economic strength As the title suggests the pervasive theme of the book is that of rebirth The most recent decades are set in the context of modern European history as a whole The authors trace the disillusionment and uncertainty that overcame Europe at the turn of the twentieth century and that culminated in the devastation of the Second World War In their analysis of the political and economic causes of the renaissance that has followed the demise of the Cold War the authors highlight the themes of national integration and economic modernization The chapters are uniquely organized to present both international and domestic developments in Europe as coherent wholes as well as the importance of their interaction The initial analysis of key international developments in the twentieth century helps students to understand the relationship between foreign and domestic events and provides background for the substantial discussion of the major European countries that follows in chapters devoted to each national experience The political and economic histories of these nation states are considered in terms of their individual traditions and challenges and the authors explore difficult issues such as the overall costs and benefits of the scientific technological revolution the pursuit of social justice the proper role of the state and of political parties and contrasting national paths of economic and political development Rebirth is designed as a text for use in courses on modern European history especially twentieth century Europe and for students of comparative politics who are seeking a substantial consideration of the historical factors of European politics In this revised edition the authors have updated the text with an analysis of developments since 1991 and added recent scholarship to the lists of Suggested Readings *The Plimpton Papers-law and Diplomacy* Francis Taylor Pearsons Plimpton,1985
