

# SCI-FI SNAPSHOT

50 QUICK TRIPS TO THE FUTURE

The background of the book cover is a vibrant, abstract illustration of a futuristic space or time landscape. It features several concentric, glowing energy fields in shades of orange, yellow, and red, resembling a black hole or a wormhole. Interspersed among these fields are various small, glowing celestial bodies, some with trails, suggesting motion through a dark, star-filled void. The overall aesthetic is one of high-energy science fiction.

between the microbial metallome and the aquatic metallome and thus the influence of metals on the biogeochemical cycles of climatically important elements such as carbon nitrogen and sulfur Both reviews and original research on the occurrence and abundance of microbial metal proteins and peptides the utilisation of metals by aquatic microbes the influence of microbially produced exudates on metal speciation and the biogeochemical cycling and the toxicity of metals to microbial organisms are welcome
