2020 Peanuts Worldwide LLC **Everyone's Gone to the Moon** Joe Cuhaj,2023-10-17 Much has been written about the legendary flight of Apollo 11 and mankind's first tentative steps into deep space It's often said that the world stopped watching in awe as the crew of Apollo 11 completed their mission It is true that in that moment almost everyone had virtually gone to the moon as people around the world gazed in wonderment at the grainy black and white images of Neil Armstrong taking that first step onto the surface of another world But that was a fleeting moment and just as quickly the moment was gone wars raged on protestors filled the streets and average Americans went back to their daily lives Everyone's Gone to the
