**So You Want to Sing Folk Music** Valerie Mindel, 2017-02-27 So many who love to sing are drawn to the immediacy and essential simplicity of the music we commonly call folk. Folk music, in fact, can serve as the perfect entry point for those just starting on their singing careers because of the ways in which it sidesteps the strictures of classical forms without giving up the fundamentals of professional singing techniques. In *So You Want to Sing Folk Music*, singer and writer Valerie Mindel demystifies this sprawling genre, looking at a variety of mainly traditional American musical styles as well as those of the folk revival that continues in various forms to this day. The aim is to help the fledgling singer better understand the scope of folk music and find his or her voice in the genre, looking at the how of creating a vocal sound that reflects a folk based style. The book looks at specific repertoires and ways of approaching them in terms of both working up material and performing it. It also looks at some of the realities of folk music in the twenty first century that affect both amateurs and professionals. Additional chapters by Scott McCoy, Wendy LeBorgne, and Matthew Edwards address universal questions of voice science and pedagogy, vocal health, and audio enhancement technology. **So You Want to Sing Sacred Music** Matthew Hoch, 2016-12-14. Sacred music traditions vary profoundly from one religion to the next. Even within the Christian faith, one can hear a wide variety of music among and within different denominations. Catholics, mainline Protestants, and Evangelicals have all developed unique traditions. Many people are not exposed to multiple faith experiences in their upbringings, which can make exploring an unfamiliar sacred music style challenging. Because of this, singers and teachers regularly encounter religious singing styles to which they have not yet been exposed. In *So You Want to Sing Sacred Music*, multiple contributors offer a broad overview of sacred singing in the Judeo-Christian tradition. Evan Kent, Anthony Ruff, Matthew Hoch, and Sharon L. Radionoff share their expertise on topics as diverse as Jewish cantorial music, Gregorian chant, post-Vatican II Catholic music, choral traditions, and contemporary Christian music. This plethora of styles represents the most common traditions encountered by amateur and emerging professional singers when exploring sacred performance opportunities. In each chapter, contributors consider liturgical origins, musical characteristics, training requirements, repertoire, and resources for each of these traditions. The writers are all professional singers and teachers with rich experience singing these styles; they also discuss vocal technique as it relates to each style. Contributors also offer professional advice for singers seeking work within each tradition's institutional settings, surveying the skills needed while offering practical advice for auditioning and performing successfully in the world of sacred music. *So You Want to Sing Sacred Music* is a helpful resource for any singer looking to add sacred performance to their portfolio or seeking opportunities and employment where sacred music is practiced and performed. Additional chapters by Scott McCoy, Wendy LeBorgne, and Matthew Edwards address universal questions of voice science and pedagogy, vocal health, and audio enhancement technology.
