**The Art of Tonal Analysis** Carl Schachter, 2016 Carl Schachter is the world's leading practitioner of Schenkerian theory and analysis His articles and books have been broadly influential and are seen by many as models of musical insight and lucid prose Yet perhaps his greatest impact has been felt in the classroom At the Mannes College of Music the Juilliard School of Music Queens College and the Graduate Center of the City University of New York and at special pedagogical events around the world he has taught generations of musical performers composers historians and theorists over the course of his long career In Fall 2012 Schachter taught a doctoral seminar at the CUNY Graduate Center in which he talked about the music and the musical issues that have concerned him most deeply the course was in essence a summation of his extensive and renowned teaching In *The Art of Tonal Analysis* winner of the Society for Music Theory's 2017 Citation of Special Merit music theorist Joseph Straus presents edited transcripts of those lectures Accompanied by abundant music examples including analytical examples transcribed from the classroom blackboard Straus's own visualizations of material that Schachter presented aurally at the piano and Schachter's own extended Schenkerian graphs and sketches this book offers a vivid account of Schachter's masterful pedagogy and his deep insight into the central works of the tonal canon In making the lectures of one of the world's most extraordinary musicians and musical thinkers available to a wide audience *The Art of Tonal Analysis* is an invaluable resource for students and scholars of music

**The Last Straw** Sharon Sala, 2021-02-23 In the crosshairs of a killer PI Charlie Dodge may be down but he's most definitely not out He's still reeling after a series of earth shattering events so when a desperate woman hires Dodge Investigations to find her missing sister the head scratcher of a case is exactly the distraction Charlie and his steadfast partner Wyrick need Two days prior Rachel Dean disappeared without a trace from her locked room in the inside Dallas apartment and every possible trail has gone cold Grappling with the fallout of her efforts to dismantle the shadowy organization Universal Theorem Wyrick throws herself into her investigative work Charlie knows his partner can handle herself but when she uncovers a past connection that paints a target on her back the threat of losing her hits Charlie hard There's nothing he wouldn't do to keep Wyrick safe but with the clock ticking on a victim they've yet to find

it s only a matter of time before the cold blooded killer leads them to a deadly end The Jigsaw Files Book 1 The Missing Piece Book 2 Second Sight Book 3 Blind Faith Book 4 The Last Straw      **The Infinite** A.W. Moore,2018-10-09 We are all captivated and puzzled by the infinite in its many varied guises by the endlessness of space and time by the thought that between any two points in space however close there is always another by the fact that numbers go on forever and by the idea of an all knowing all powerful God In this acclaimed introduction to the infinite A W Moore takes us on a journey back to early Greek thought about the infinite from its inception to Aristotle He then examines medieval and early modern conceptions of the infinite including a brief history of the calculus before turning to Kant and post Kantian ideas He also gives an account of Cantor s remarkable discovery that some infinities are bigger than others In the second part of the book Moore develops his own views drawing on technical advances in the mathematics of the infinite including the celebrated theorems of Skolem and G del and deriving inspiration from Wittgenstein He concludes this part with a discussion of death and human finitude For this third edition Moore has added a new part Infinity superseded which contains two new chapters refining his own ideas through a re examination of the ideas of Spinoza Hegel and Nietzsche This new part is heavily influenced by the work of Deleuze Also new for the third edition are a technical appendix on still unresolved questions about different infinite sizes an expanded glossary and updated references and further reading The Infinite Third Edition is ideal reading for anyone interested in an engaging and historically informed account of this fascinating topic whether from a philosophical point of view a mathematical point of view or a religious point of view      *Congressional Record* United States.
