Girl Power Marisa Meltzer, 2024-05-01 In the early nineties riot grrrl exploded onto the underground music scene inspiring girls to pick up an instrument create fanzines and become politically active Rejecting both traditional gender roles and their parents brand of feminism riot grrrls celebrated and deconstructed femininity The media went into a titillated frenzy covering followers who wrote slut on their bodies wore frilly dresses with combat boots and talked openly about sexual politics The movement's message of revolution girl style now soon filtered into the mainstream as girl power popularized by the Spice Girls and transformed into merchandising gold as shrunken T-shirts lip glosses and posable dolls Though many criticized girl power as at best frivolous and at worst soulless and hypersexualized

Marisa Meltzer argues that it paved the way for today's generation of confident girls who are playing instruments and joining bands in record numbers. *Girl Power* examines the role of women in rock since the riot grrrl revolution, weaving Meltzer's personal anecdotes with interviews with key players such as Tobi Vail from Bikini Kill and Amy Ray of the Indigo Girls. Chronicling the legacy of artists such as Bratmobile, Sleater Kinney, Alanis Morissette, Britney Spears, and yes, the Spice Girls, *Girl Power* points the way for the future of women in rock.

Many parents work more hours outside of the home and their lives are crowded with more obligations than ever before many children spend their evenings and weekends trying out for all star teams traveling to regional and national tournaments and eating dinner in the car while being shuttled between activities In this vivid ethnography based on almost 200 interviews with parents children coaches and teachers Hilary Levey Friedman probes the increase in children s participation in activities outside of the home structured and monitored by their parents when family time is so scarce As the parental second shift continues to grow alongside it a second shift for children has emerged especially among the middle and upper middle classes which is suffused with competition rather than mere participation What motivates these particular parents to get their children involved in competitive activities Parents primary concern is their children s access to high quality educational credentials the biggest bottleneck standing in the way of or facilitating entry into membership in the upper middle class Competitive activities like sports and the arts are seen as the essential proving ground that will clear their children s paths to

the Ivy League or other similar institutions by helping them to develop a competitive habitus This belief motivated both by reality and by perception and shaped by gender and class affects how parents envision their children s futures it also shapes the structure of children s daily lives what the children themselves think about their lives and the competitive landscapes of the activities themselves
