working in children's services and child protection and bringing together leading figures from a range of disciplines this important text shows how the latest child development theories can be applied to professional practice. Considering theories of development throughout the lifespan from the early years through to adolescence and transitions to adulthood this resource is essential reading for a range of professionals including social workers, teachers and health and mental health professionals. The authors build up an integrated picture of the developing world of the child looking at genetic and biological influences alongside individual psychological, interpersonal, familial, educational and wider community domains. The final part of the book looks specifically at issues for practice including chapters on communicating with children, exercising professional judgement and planning interventions and outcomes in children's services.

Child and Adolescent Mental Health Christine Hooper, Margaret Thompson, Catherine Laver-Bradbury, Chris Gale, 2012-02-24. The book covers all the core aspects of child and adolescent mental health starting with the background to emotional and behavioural problems and looking at models and tools for assessment and treatment before examining specific problems encountered in children, young people and their families from different cultural backgrounds. Key features: clear.

Child Public Health Dr Mitch Blair, Professor Sarah Stewart-Brown, Dr Tony Waterston, Dr Rachel Crowther, 2010-01-21. Despite children making up around a quarter of the population the first edition of this book was the first to focus on a public health approach to the health and sickness of children and young people. It combined clinical and academic perspectives to explore the current state of health of our children, the historical roots of the speciality and the relationship between early infant and child health on later adult health. Child public health is a rapidly developing field and is increasingly recognised throughout the world as a major area of focus for population health. Targeting the health of children now is essential if we are to achieve a healthy population as adults. For the second edition the text has been revised and updated with new material on health for all children, global warming, child participation, systems theory, refugees, commissioning and sustainable development. *Child Public Health 2e* will be of interest to public health practitioners, paediatricians, general practitioners with a child health and commissioning interest and GP trainees. Whilst paediatricians are given a unique population perspective on their clinical specialty, public health professionals will gain a specialist insight into a specific population group and primary care doctors, nurses and managers will find support for their commissioning and clinical governance agendas.

Child and Adolescent Mental Health Cathy Laver-Bradbury, Margaret J.J. Thompson, Christopher Gale, Christine M. Hooper, 2021-05-12. This textbook provides an overview of child and adolescent mental health. The text covers all core aspects on the subject from the importance of knowing why mental health in children is important to how to assess, formulate and treat a variety of presentations seen in children and young people. Beginning with an overview of conditions and the background to emotional and behavioural problems, the book examines the different models and tools used to assess and treat children and young people and provides an outline of the practitioners working to help this population. Chapters consider the many diverse

identities and groups within the population addressing specific problems encountered in children young people and their families from different cultural backgrounds This revised edition addresses issues of current public debate such as gender identity and the role of social media in children s and young people s development and behaviour Featuring authors from a variety of clinical and research backgrounds this fully revised third edition is an important resource for all professionals working with children young people and their families including student and practitioner psychiatrists clinical psychologists mental health nurses and social care specialists

Supporting Postnatal Women into Motherhood Lynn Bertram,2018-12-13 New mothers are often unprepared for the emotional impact of having a baby Feelings of isolation and anxiety which often emerge in the early months can trigger postnatal depression Health professionals can support women with therapeutic groupwork to help them overcome these feelings and adjust to the many changes which inevitably occur at this time This book describes setting up and managing a discussion group for new mothers to provide support and introduce women to others at the same life stage in a safe environment It shows how facilitating this structured activity can be positive and empowering for all concerned It is practical and stimulating reading for everyone involved professionally with postnatal women

Understanding Babies Ania Witkowska,2021-02-25 The first

three months of your baby's life sometimes called the fourth trimester is a transitional phase in which each of you is processing the birth experience you shared and acclimatising to a new way of being. It can be hard to interpret your new baby's behaviour: is she arching her back because she has tummy ache or does she simply enjoy a stretch? Does sucking his hands indicate hunger or something else? As you navigate these early days, your emotions might be all over the place and it can be hard to find and trust your instinctive need to connect with your baby. In *Understanding Babies*, experienced movement specialist Ania Witkowska looks at what your baby needs to thrive and how they show you they need it, revealing how you can tune in to your baby so that both of you can relax and enjoy your new life together. By explaining how your baby's development is supported through movement and interaction and guiding you through simple exercises and activities, she helps demystify the early days of parenting so that you can feel more joy and less anxiety as you and your baby flourish.

The Child Protection Handbook E-Book Rachael Clawson, Lisa Warwick, Rachel Fyson, 2024-01-03. The *Child Protection Handbook* explains how to recognise abuse and protect at risk children for those working with children and young people aged under 18, including in social care, education, health services and sport and leisure settings. The book has been fully updated to incorporate the impact of new technology as well as current legal and policy frameworks that govern statutory child protection intervention in the UK. It considers all aspects of child protection, including organisational issues, children's rights, the needs of those from diverse backgrounds and the impacts of the Covid 19 pandemic on child protection work. With accessible up to date information presented in an easy to navigate format, the Handbook is ideal for all busy practitioners wanting to improve outcomes for children, young people and their families. Fully updated since the last edition in 2007, perfect for all those working with children and young people. Easy to navigate and locate information suitable as a reference book for busy practitioners. Illustrative boxes in each chapter drawing on practice case examples to highlight current issues and dilemmas. All concepts explained in straightforward jargon free language. Reflective points to encourage the reader to think about their own practice and apply new knowledge. Key questions for students and teachers to check understanding and to explore concepts further. Links to resources and further reading. Supporting social workers in child protection practice. Poverty and child protection. New forms of child abuse including technology assisted child sexual abuse, child sexual exploitation, gangs and criminal exploitation, radicalisation, forced marriage of children and young people, female genital mutilation and faith based abuse. Focus on teenagers including child protection in adolescence, leaving care, safeguarding and children in conflict with the law, children and young people who have displayed harmful sexual behaviour and child to parent violence and abuse. Safeguarding in sport and leisure. Working with parents at risk of repeat removal of their children through care proceedings. *The Science of Parenting* Margot Sunderland, 2016-07-05. Backed by the most up to date scientific research, *The Science of Parenting* 2nd Edition provides evidence based parenting advice about how you should care for your child with practical strategies from birth to 12 years of age.
