The Key To Failure Laos And The Vietnam War:

The Key to Failure Norman B. Hannah, 1987 *The Key to Failure* Norman B. Hannah, 1990-01-01 **China and the Vietnam Wars, 1950-1975** Qiang Zhai, 2005-10-21 In the quarter century after the founding of the People's Republic of China in 1949 Beijing assisted Vietnam in its struggle against two formidable foes France and the United States. Indeed the rise and fall of this alliance is one of the most crucial developments in the history of the Cold War in Asia. Drawing on newly released Chinese archival sources, memoirs and diaries and documentary collections Qiang Zhai offers the first comprehensive exploration of Beijing's Indochina policy and the historical domestic and international contexts within which it developed. In examining China's conduct toward Vietnam Zhai provides important insights into Mao Zedong's foreign policy and the ideological and geopolitical motives behind it. Throughout the 1950s and 1960s he shows Mao considered the United States the primary threat to the security of the recent Communist victory in China and therefore saw support for Ho Chi Minh as a good way to weaken American influence in Southeast Asia. In the late 1960s and 1970s however when Mao perceived a greater threat from the Soviet Union he began to adjust his policies and encourage the North Vietnamese to accept a peace agreement with the United States. **The Columbia Guide to the Vietnam War** David L.

Anderson, 2002-07-10 More than a quarter of a century after the last Marine Corps Huey left the American embassy in Saigon the lessons and legacies of the most divisive war in twentieth century American history are as hotly debated as ever. Why did successive administrations choose little known Vietnam as the test case of American commitment in the fight against communism? Why were the best and brightest apparently blind to the illegitimacy of the state of South Vietnam? Would Kennedy have pulled out had he lived? And what lessons regarding American foreign policy emerged from the war? The Columbia Guide to the Vietnam War helps readers understand this tragic and complex conflict. The book contains both interpretive information and a wealth of facts in easy to find form. Part I provides a lucid narrative overview of contested issues and interpretations in Vietnam scholarship. Part II is a mini encyclopedia with descriptions and analysis of individuals, events, groups and military operations. Arranged alphabetically this section enables readers to look up isolated facts and specialized terms. Part III is a chronology of key events. Part IV is an annotated guide to resources including films, documentaries, CD-ROMs and reliable Web sites. Part V contains excerpts from historical documents and statistical data. A Tangled Web William P. Bundy, 1999-06-04 An authoritative historical assessment of American foreign policy in a crucial postwar decade. William Bundy's magisterial book focuses on the controversial record of Richard Nixon's and Henry Kissinger's often overpraised foreign policy of 1969 to 1973, an era that has rightly been described as the hinge on which the last half of the century turned. Bundy's principled, clear-eyed assessment in effect pulls together all the major issues and events of the thirty-year span from the 1940s to the end of the Vietnam War and makes it clear just how dangerous the consequences of Nixon and Kissinger's deceptive modus operandi were. *Corps Competency?* Michael F.

Morris,2024-08-07 The Vietnam War ended nearly fifty years ago but the central paradox of the struggle endures how did the world s strongest nation fail to secure freedom for the Republic of Vietnam Michael F Morris addresses this vexing question by focusing on the senior Marine headquarters in the conflict s most dangerous region Known as I Corps the northern five provinces of South Vietnam witnessed the bloodiest fighting of the entire war I Corps also contained the Viet Cong s strongest infrastructure key portions of the Ho Chi Minh Trail and the important political and economic prizes of Hue and Da Nang For Americans it was the site of the first major military operation Operation STARLITE the Battles of Hue City and Khe Sanh during the 1968 Tet Offensive and a military innovation known as the Combined Action Platoon CAP a counterinsurgency technique designed to secure the region s villages The Marine zone served as Saigon s canary in the coal mine if the war was to be won allied action must succeed in its most contested region With such deep significance I Corps holds many answers to the lasting questions of the Vietnam War Following the Marine Amphibious Force III MAF the primary US tactical command in I Corps from 1965 to 1970 Corps Competency provides the first composite analysis of the critical role of the senior Marine headquarters and offers a coherence missing in piecemeal accounts Despite the critical importance of I Corps relatively little is known about its overall impact on the war due to disconnected and patchy historical study of the region In this comprehensive and newly insightful study of the Vietnam War Michael Morris tells a story that illustrates what can happen when a corps headquarters is not ready for the conflict it encounters and then fights the war it wants to rather than the one it must The views expressed in this work are those of the author and not the official position of the United States government Department of Defense Department of the Navy United States Marine Corps or Marine Corps University

Why South Vietnam Fell Anthony James Joes,2014-10-16 Between 1954 and 1963 President Ngo Dinh Diem against great odds but with U S assistance built a functioning South Vietnamese state But gravely misled by American journalists in Saigon the U S embassy in league with second tier members of the State Department urged certain South Vietnamese generals to stage a coup against Diem resulting in his brutal murder Despite the instability after Diem s murder the South Vietnamese Army performed well during the 1968 Tet Offensive and the 1972 Easter Offensive In proportion to population South Vietnamese Army losses were much greater than American losses Nevertheless the American media ignored South Vietnamese sacrifices and completely misrepresented the consequences of the Tet Offensive The disastrous peace agreement the U S forced on the South Vietnamese in 1973 made continuing American support vital But Congress began to slash aid to South Vietnam so that its soldiers had to fight on with dwindling supplies of fuel ammunition and medicine Under these circumstances the South Vietnamese attempted to regroup their army into the provinces around Saigon an effort that ended in disaster The final chapter reflects on the meaning of the conflict and the tragedy that abandonment by Washington and conquest by Hanoi brought upon the South Vietnamese people An Appendix presents a strategy for preserving a South Vietnamese state with the commitment of a relatively small number of U S forces **Dirty Wars** Simon

Innes-Robbins,2016-10-06 Who is the enemy This is the question most asked in modern warfare gone are the set piece conventional battles of the past Once seen as secondary to more traditional conflicts irregular warfare as modified and refashioned since the 1990s now presents a major challenge to the state and the bureaucratic institutions which have dominated the twentieth century and to the politicians and civil servants who formulate policy Twenty first century conflict is dominated by counterinsurgency operations where the enemy is almost indistinguishable from innocent civilians Battles are gunfights in jungles deserts and streets winning hearts and minds is as important as holding territory From struggles in South Africa the Philippines and Ireland to operations in Iraq Afghanistan and Chechnya this book covers the strategy and doctrine of counterinsurgency and the factors which ensure whether such operations are successful or not Recent ignorance of central principles and the emergence of social media which has shifted the odds in favour of the insurgent have too often resulted in failure leaving governments and their security forces embedded in a hostile population immersed in costly and dangerous nation building

U. S. Containment Policy and the Conflict in Indochina William Duiker,1994-07-01 From the end of World War II down to the dissolution of the Soviet Union the primary objective of U S foreign policy has been to prevent the expansion of communism Indeed that objective was directly embodied in the so called strategy of containment a global approach to the pursuit of U S national security interests that was first adumbrated by George F Kennan in 1947 and later became the guiding force in U S foreign policy At first the concept of containment was applied primarily to Europe It was there that the threat to U S interests from international communism directed from Moscow was first perceived in the form of Soviet efforts to dominate the nations of Eastern Europe and extend Soviet influence into the eastern Mediterranean and the Middle East Other areas of the world Asia Africa and Latin America were considered to be less threatened by forces hostile to the free world or more peripheral to U S foreign policy concerns At least that was the view initially proclaimed by George Kennan himself who identified five areas in the world as vital to the United States North America Great Britain Central

Europe the USSR and Japan Only the latter was located in Asia By the end of the decade however the focus of U S containment strategy was extended to include East and Southeast Asia primarily because of the increasing likelihood of a communist victory in the Chinese Civil War which in the minds of some U S policymakers would be tantamount to giving the Soviet Union a dominant position on the Asian mainland Added to the growing threat in China was the increasingly unstable situation in Southeast Asia where the long arc of colonies that had been established by the imperialist powers during the last half of the nineteenth century was gradually but inexorably being replaced by independent states The emergence of such colonial territories into independence was generally viewed as a welcome prospect by foreign policy observers in Washington but when combined with the impending victory of communist forces in China it raised the unsettling possibility that the entire region might be brought within the reach of the Kremlin Infantry ,1987 **Historical Dictionary of the War in Vietnam** Ronald B. Frankum Jr.,2011-06-10 For Southeast Asia the Vietnam War altered forever the history topography people economy and politics of the Democratic Republic of Vietnam DRV the Republic of Vietnam RVN Cambodia and Laos That the war was controversial is an understatement as is the notion that the war can be understood from any one perspective One way of understanding the Vietnam War is by marking its time with turning points both major and minor that involved events or decisions that helped to influence its course in the years to follow By examining a few of these turning points an organizational framework takes shape that makes understanding the war more possible Historical Dictionary of the War in Vietnam emphasizes the international nature of the war as well as provide a greater understanding of the long scope of the conflict The major events associated with the war will serve as the foundation of the book while additional entries will explore the military diplomatic political social and cultural events that made the war unique While military subjects will be fully explored there will be greater attention to other aspects of the war All of this is done through a chronology an introductory essay an extensive bibliography and over 600 cross referenced dictionary entries This book is an excellent access point for students researchers and anyone wanting to know more about the Vietnam War **Encyclopedia of Media and Propaganda in Wartime America** Martin J. Manning,Clarence R. Wyatt,2010-12-20 This fascinating compilation of reference entries documents the unique relationship between mass media propaganda and the U S military a relationship that began in the period before the American Revolution and continues to this day sometimes cooperative sometimes combative and always complex The Encyclopedia of Media and Propaganda in Wartime America brings together a group of distinguished scholars to explore how war has been reported and interpreted by the media in the United States and what effects those reports and interpretations have had on the people at home and on the battlefield Covering press U S military relationships from the early North American colonial wars to the present wars in Iraq and Afghanistan this two volume encyclopedia focuses on the ways in which government and military leaders have used the media to support their actions and the ways in which the media has been used by other forces with different views and agendas The volumes highlight major

events and important military political and cultural players offering fresh perspectives on all of America's conflicts Bringing these wars together in one source allows readers to see how media affected the conflicts individually but also understand how the use of the various forms of media print radio television film and electronic have developed and changed over the years

Republic, Not an Empire Patrick J. Buchanan, 2013-02-05 All but predicting the September 11 attack on the World Trade Center Buchanan examines and critiques America's recent foreign policy and argues for new policies that consider America's interests first

Anatomy of Victory John D. Caldwell, 2018-11-09 This groundbreaking book provides the first systematic comparison of America's modern wars and why they were won or lost John D Caldwell uses the World War II victory as the historical benchmark for evaluating the success and failure of later conflicts Unlike WWII the Korean Vietnam and Iraqi Wars were limited but they required enormous national commitments produced no lasting victories and generated bitter political controversies Caldwell comprehensively examines these four wars through the lens of a strategic architecture to explain how and why their outcomes were so dramatically different He defines a strategic architecture as an interlinked set of continually evolving policies strategies and operations by which combatant states work toward a desired end Policy defines the high level goals a nation seeks to achieve once it initiates a conflict or finds itself drawn into one Policy makers direct a broad course of action and strive to control the initiative When they make decisions they have to respond to unforeseen conditions to guide and determine future decisions Effective leaders are skilled at organizing constituencies they need to succeed and communicating to them convincingly Strategy means employing whatever resources are available to achieve policy goals in situations that are dynamic as conflicts change quickly over time Operations are the actions that occur when politicians soldiers and diplomats execute plans A strategic architecture Caldwell argues is thus not a static blueprint but a dynamic vision of how a state can succeed or fail in a conflict

Whiteout Alexander Cockburn, Jeffrey St. Clair, 2014-12-16 A shocking expose of the CIA's role as drug baron On March 18 1998 the CIA's Inspector General Fred Hitz told astounded US Reps that the CIA had maintained relationships with companies and individuals that the Agency knew to be involved in the drug business More shocking was the revelation that the CIA had received from Reagan's Justice Department clearance not to report any knowledge it might have of drug dealing by CIA assets Many years worth of CIA denials much of it under oath to Congress were sunk Hitz's admissions made fools of some of the most prominent names in US journalism and vindicated others that had been ruined Particularly resonant was the case of the San Jose Mercury News which published a sensational series on CIA involvement in the smuggling of cocaine into black urban neighborhoods and then under pressure conspired in the destruction of its own reporter Gary Webb In *Whiteout* Alexander Cockburn and Jeffrey St Clair finally put the whole story together from the earliest days when the CIA's institutional ancestors cut a deal with America's premier gangster and drug trafficker Lucky Luciano This is a thrilling history that stretches from Sicily in 1944 to the killing fields of Laos and Vietnam to CIA safe houses in Greenwich Village and San Francisco where CIA men watched

Agency paid prostitutes feed LSD to unsuspecting clients We meet Oliver North as he plotted with Manuel Noriega and Central American gangsters We travel to little known airports in Costa Rica and Arkansas We hear from drug pilots and accountants from the Cali Cartel We learn of DEA agents whose careers were ruined because they tried to tell the truth Cockburn and St Clair show how the CIA's complicity with drug dealing criminal gangs was part and parcel of its attacks on labor organizers whether on the docks of New York Marseilles or Shanghai They trace how the Cold War and counter insurgency led to an alliance between the Agency and the vilest of war criminals like Klaus Barbie or fanatic opium traders like the mujahedin in Afghanistan Cockburn and St Clair horrifyingly affirm charges of outraged black communities that the CIA had undertaken enduring programs of experiments on minorities They show that the CIA imported Nazi scientists straight from their labs at Dachau and Buchenwald and set to work developing chemical and biological agents tested on blacks some of them in mental hospitals Cockburn and St Clair dissect the shameful way American journalists have not only turned a blind eye to the Agency's misdeeds but also helped plunge the knife into those who tried to tell the truth Fact packed and fast paced Whiteout is a richly detailed excavation of the CIA's dirtiest secrets For anyone who wants to know the real truth about the Agency this is the book to start with

Vietnamese Communists' Relations with China and the Second Indochina Conflict, 1956-1962 Ang Cheng Guan, 2024-12-18 According to the final declaration of the 1954 Geneva Conference general elections were to be held in July 1956 that would lead to the reunification of North and South Vietnam The Geneva agreement was however doomed from the start as the South Vietnamese leaders did not subscribe to it and the leaders of the Communist North saw its value primarily as propaganda By 1956 it was obvious that reunification was impossible and the North Vietnamese looked to China for advice and assistance Based on Vietnamese Chinese American and British sources many only recently made available this work examines Sino Vietnamese relations in the early stages of the second Indochina conflict and reveals that the Hanoi government was remarkably in control of its own decision making

America and Vietnam, 1954-1963 Michael M. Walker, Col., USMC (Ret.), 2022-09-14 The conventional narrative of the Vietnam War often glosses over the decade leading up to it Covering the years 1954-1963 this book presents a thought provoking reexamination of the war's long prelude from the aftermath of French defeat at Dien Bien Phu through Hanoi's decision to begin reunification by force to the assassination of South Vietnamese President Ngo Dinh Diem Established narratives of key events are given critical reappraisal and new light is shed on neglected factors The strategic importance of Laos is revealed as central to understanding how the war in the South developed

MACV Graham A. Cosmas, 2006 CMH Pub 91-6 United States Army in Vietnam Covers the United States buildup in Vietnam from every angle strategy operations tactics logistics inter service relations personnel policy diplomacy civil relations and the handling of the news media to show how the Military Assistance Command Vietnam MACV developed and became the linchpin holding the entire American effort in Vietnam together

Ending the Vietnam War Cheng Guan Ang, 2005-06-28 Existing studies of the Vietnam War have been

written mostly from an American perspective using western sources and viewing the conflict through western eyes This book based on extensive original research including Vietnamese Chinese and former Soviet sources tells the story of the war from the Tet offensive in 1968 up to the reunification of Vietnam in April 1975 Overall it provides an important corrective to the predominantly US centric narratives of the war by placing the Vietnamese communists centre stage in the story It is a sequel to the author s Routledge Curzon book The Vietnam War From the Other Side which covers the period 1962 68
