# The Kingdoms Of Nature

**Rudolf Steiner, Christopher Bamford**

## **The Kingdoms Of Nature:**

*The Kingdoms of Nature, Or, Life and Organization from the Elements to Man ...* Ransom Dexter, 1884      **An outline of the kingdoms of nature, for the use of schools** Christopher Irving, 1841 According to the preface this work is intended for teachers and schoolmasters who teach natural history. Mentioned also are separately published Darton Clark prints that may be conveniently used alongside the text. The sections on zoology are distinguished by a wealth of melodramatic anecdotes apparently intended to produce a strong impression on pupils and the section on the vegetable kingdom is completely devoted to agriculture.

**An outline of the kingdoms of Nature, for the use of schools, etc** Christopher IRVING (LL.D.), 1841      *Spiritual Beings in the Heavenly Bodies and in the Kingdoms of Nature* Rudolf Steiner, Christopher Bamford, 2011-09-01 In the architecture of Rudolf Steiner's great cosmological temple this extraordinary course of lectures on spiritual beings forms the central pillar taking its place with other important texts such as the fourth chapter of *An Outline of Esoteric Science* CW 13 *The Spiritual Hierarchies and the Physical World* CW 136 and *Inner Experiences of Evolution* CW 132. These works outline a revolutionary angelological cosmology and lie at the heart of Steiner's mission to transform our understanding of the world by offering a new non dual phenomenological path to a contemporary divine spiritual physical cosmology that is angelological and theophanic. Steiner's approach is contemporary in that being continuous with the most ancient understanding of the cosmos he also discovers it for himself through his own experience and consciousness and expresses it in his own words with a logic and language appropriate to our time. Thus he teaches us his readers to do the same. According to Rudolf Steiner the world is made up of beings. This includes the very ground of the world itself the Father being. His cosmology or angelology is personal and it is known in relationship. Therefore he presents it in terms of conditions and acts of consciousness and in relation to the divine spiritual beings whose conditions and activities they are. The spiritual world is always a world of beings. The twin realizations go together that I am an I and that reality is comprised of other I beings. Cosmology is angelology. Spiritual beings define all experience of reality.
