Sherry B. Ortner, 1978-04-14 Professor Ortner examines the Sherpas of the Himalayas      **Sherpas** James F. Fisher, 1990-05 James Fisher combines the strengths of technical anthropology literary memoir and striking photography in this telling study of rapid social change in Himalayan Nepal The author first visited the Sherpas of Nepal when he accompanied Sir Edmund Hillary on the Himalayan Schoolhouse Expedition of 1964 Returning to the Everest region several times during the 1970s and 1980s he discovered that the construction of the schools had far less impact than one of the by products of their building a short take off and landing airstrip By reducing the time it took to travel between Kathmandu and the Everest region from a hike of several days to a 45 minute flight the airstrip made a rapid increase in tourism possible Beginning with his impressions of Sherpa society in pre tourist days Fisher traces the trajectory of contemporary Sherpa society reeling under the impact of modern education and mass tourism and assesses the Sherpa s concerns for their future and how they believe these problems should be and eventually will be resolved      *Two Sherpas* Sebastián Martínez Daniell, 2023-02-28 Mount Everest and all it means to royalty explorers imperialists and two sherpas perched on a cliffside waiting for a man on the ledge below to move A British climber has fallen from a cliffside in Nepal and lies inert on a ledge below Two sherpas kneel at the edge stand exchange the odd word waiting for him to move to make a decision to descend In those minutes the world opens up to Kathmandu a sun bleached beach town on another continent and the pages of Julius Caesar Mountaineering colonialism obligation in Sebasti n Mart nez Daniell s effortless prose each breath is crystalline and the whole world is visible from here      *Backpacker* , 1989-01 Backpacker brings the outdoors straight to the reader s doorstep inspiring and enabling them to go more places and enjoy nature more often The authority on active adventure Backpacker is the world s first GPS enabled magazine and the only magazine whose editors personally test the hiking trails camping gear and survival tips they publish Backpacker s Editors Choice Awards an industry honor recognizing design feature and product innovation has become the gold standard against which all other outdoor industry awards are measured      *Routledge Handbook of Highland Asia* Jelle J.P. Wouters, Michael T. Heneise, 2022-08-09 The Routledge Handbook of Highland Asia is the first comprehensive and critical overview of the ethnographic and anthropological work in Highland Asia over the past half a century Opening up a grand new space for critical engagement the handbook presents Highland Asia as a world region that cuts across the traditional divides inherited from colonial and Cold War area divisions the Indian Subcontinent South Asia Southeast Asia China East Asia and Central Asia Thirty two chapters assess the history of research identify ethnographic trends and evaluate a range of analytical themes that developed in particular settings of Highland Asia They cover varied landscapes and communities from Kyrgyzstan to India from Bhutan to Vietnam and bring local voices and narratives relating trade and tribute ritual and resistance pilgrimage and prophecy modernity and marginalization capital and cosmos to the fore The handbook shows that for millennia Highland Asians have connected far flung regions through movements of peoples goods and ideas and at all times have been the enactors repositories and mediators of world historical processes Taken

together the contributors and chapters subvert dominant lowland narratives by privileging primarily highland vantages that reveal Highland Asia as an ecumene and prism that refracts and generates global history social theory and human imagination In the currently unfolding Asian Century this compels us to reorient and re envision Highland Asia in ethnography in theory and in the connections between this world region made of hills highlands and mountains and a planetary context The handbook reveals both regional commonalities and diversities generalities and specificities and a broad orientation to key themes in the region An indispensable reference work this handbook fills a significant gap in the literature and will be of interest to academics researchers and students interested in Highland Asia Zomia Studies Anthropology Comparative Politics Conceptual History and Sociology Southeast Asian Studies Central Asian Studies and South Asian Studies as well as Asian Studies in general
