

## The Landlady

Billy just entered Bath, England and he needs a place to stay. The setting is Bath, England. The characters are Billy, the porter, and the Landlady. But the air was deadly cold and the wind was like a flat blade of ice on his cheeks. "Excuse me," he said, "but is there a fairly cheap hotel not too far away from here?"

## Exposition

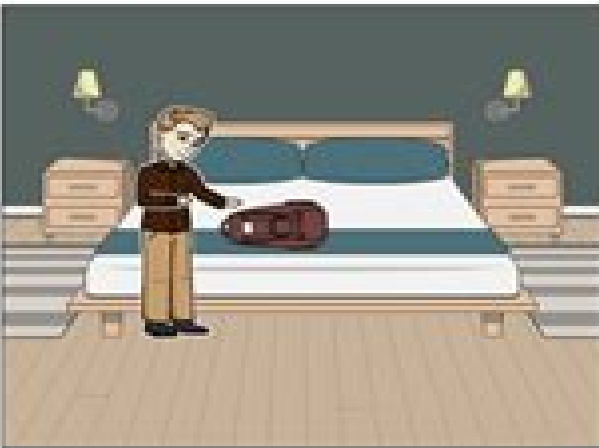

He finds a Bed and Breakfast run by an innocent old lady. This is the exposition because it starts off the story. It has set up all of the characters. "She was about forty-five or fifty years old, and the moment she saw him, she gave him a warm, welcoming smile. "Please come in," she said pleasantly. She stepped aside, holding the door wide open, and Billy found himself automatically starting forward.

## Rising Action

The Landlady starts acting a bit strange but Billy brushes it off. This is a rising action because it starts to show that maybe the Landlady isn't so innocent after all. "I saw the notice in the window," he said, holding himself back. "Yes, I know." "It was wondering about a room." "It's already for you, my dear," she said. She had a round pink face and very gentle blue eyes.

## Rising action

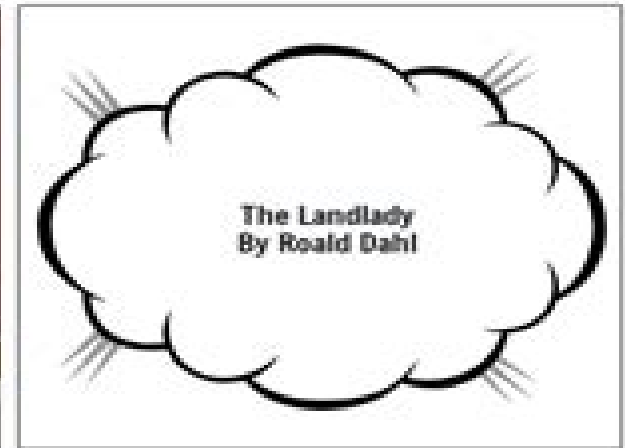

Billy brings his things to his room, then he goes down to sign the book. This is a rising action because it is an important event that sets up the climax. "Very well, then. I'll leave you now so that you can unpack. But before you go to bed, would you be kind enough to pop into the sitting room on the ground floor and sign the book? (Everyone has to do that because it's the law of the land.)"

## Cliffhanger

The Landlady reveals her true intentions, and the story ends. This is the climax/cliffhanger because the story is at its peak, while also being the end of the story.

## The End.

This story was very engaging and very fun to read but was very disturbing at the end. Overall, it was a great story.

**Silences** Ruth Rosaler,2016-10-06 How are a reader s perceptions of a plot impacted by its presentation through textual clues rather than explicit narration and why would an author choose this comparatively indirect mode of narration Conspicuous Silences answers these questions by examining Victorian novels in which pivotal events are left inexplicit for hundreds of pages at a time but are nonetheless evident to the reader The clarity with which readers understand these inexplicit plot lines is evidenced by their ability to follow the progression of narratives that rely heavily on the inexplicit content being detected without this reader comprehension these narratives would be deemed incoherent In linguistics communications that depend on a hearer s or reader s inference rather on their decoding the explicit content of an utterance are termed implicatures Conspicuous Silences explores the impact that central sustained implicatures have on a reader s experience of a novel It also discusses how authors may generate those implicatures by exploiting the reader s assumption of narratorial omniscience and the correlated reader assumption of a narrative s fictionality Reliance on such sustained fictionality related implicatures is fairly ubiquitous Conspicuous Silences concentrates on texts by Elizabeth Gaskell George Eliot Charles Dickens Frances Trollope Anthony Trollope Wilkie Collins and M E Braddon It examines the use of implicature

in communicating impolite topics communicating character psychology and in fashioning a playful narrative tone This work contributes to Victorian literary scholarship narratological discussions about narratorial omniscience and fictionality and pragmatic stylistic debates about fictionality and the use of implicature *The Case for an Afterlife* J.
