Experiences of a Backwoods Preacher, Or, Facts and Incidents Culled from Thirty Years of Ministerial Life Joseph Henry Hiltz, 1887      **The Facts on File Companion to the French Novel** Karen L. Taylor, 2006 French novels such as Madame Bovary and The Stranger are staples of high school and college literature courses This work provides coverage of the French novel since its origins in the 16th century with an emphasis on novels most commonly studied in high school and college courses in world literature and in French culture and civilization      *Stereo Review*, 1971      Words on Cassette, 2002 R R Bowker Publishing, 2002      *A Million of Facts ... A new edition* Sir Richard PHILLIPS, 1853      *Culture and Rural-Urban Revitalisation in South Africa* Mziwoxolo Sirayi, Modimowabarwa Kanyane, Giulio Verdini, 2021-06-14 This book captures ground breaking attempts to utilise culture in territorial development and regeneration processes in the context of South Africa and our new normal brought by COVID 19 the fourth industrial revolution and climate change the world over The importance of culture in rural urban revitalisation has been underestimated in South Africa and the African continent at large Despite some cultural initiatives that are still at developmental stages in big cities such as Johannesburg eThekweni and Cape Town there is concern about the absence of sustainable policies and plans to support culture creativity and indigenous knowledge at national and municipal levels Showcasing alternative strategies for making culture central to development this book discusses opportunities to shift culture and indigenous knowledge from the peripheries and place them at the epicentre of sustainable development and the mainstream of cultural planning which can then be applied in the contexts of Africa and the Global South Governmental institutions research councils civil society organisations private sector and higher education institutions come together in a joint effort to explain the nexus between culture economic development rural urban linkages grassroots and technological innovations Culture and Rural Urban Revitalization in South Africa is an ideal read for those interested in rural and urban planning cultural policy indigenous knowledge and smart rural village model      **Arts and Humanities in Progress** Dario Martinelli, 2016-10-13 The book aims to introduce a research concept called Numanities as one possible attempt to overcome the current scientific social and institutional crisis of the humanities Such crisis involves their impact on and role within society their popularity among students and scholars and their identity as producers and promoters of knowledge The modern western world and its economic policies have been identified as the strongest cause of such a crisis Creating the conditions for but in fact encouraging it However a self critical assessment of the situation is called for Our primary fault as humanists was that of stubbornly thinking that the world s changes could never really affect us as we felt our identity was sacred In the light of these approaches the main strengths of humanities have been identified in the ability to promote critical thinking and analytical reasoning provide knowledge and understanding of democracy and social justice develop leadership cultural and ethical values The main problems of humanities are the lack economic relevance the socio institutional perception of them as impractical and unemployable the fact that they do not match with technological

development Finally the resulting crisis consists mainly in the absence or radical reduction of funding from institutions a decrease in student numbers a decrease in interest a loss of centrality in society A Humanities New Humanities project should consider all these aspects with self critical assessment on the first line The goal is to unify the various fields approaches and also potentials of the humanities in the context dynamics and problems of current societies and in an attempt to overcome the above described crisis Humanities are introduced not as a theoretical paradigm but in terms of an umbrella concept that has no specific scientific content in it that particularly means that the many existing new fields and research trends that are addressing the same problems post humanism transhumanism transformational humanities etc are not competitors of Humanities but rather possible ways to them Therefore more than a theoretical program Humanities intend to pursue a mission and that is summarized in a seven point manifesto In the light of these premises and reflections the book then proceeds to identify the areas of inquiry that Humanities in their functions and comprehensive approach seek to cover The following list should also be understood as a statement of purposes for this entire book series These in other words will be the topics areas we intend to represent Once elaborated on the foundations of Humanities the book features a second part that presents two case studies based on two relatively recent and now updated investigations that the author has performed in the fields of musical and animal studies respectively The two cases and relative areas of inquiry were selected because they were considered particularly relevant within the discussion of Humanities and in two different ways In the first case study the author discussed the most typical result or perhaps cause of the technophobic attitude that was addressed in the first part of the book the issue of authenticity as applied in the author s particular study to popular music In the second case study he analyzes two different forms of comparative analysis between human and non human cognition like in the former case this study too is aimed at a critical commentary on what the author considers redundant biases in current humanistic research anthropocentrism and speciesism

A Critical Companion to Zoosemiotics: Dario Martinelli, 2010-06-30 A critical companion of zoosemiotics is the first attempt to systematise the study of animal communication and signification through its most important and or problematic terms and concepts and its most representative scholars It is a companion in that it attempts to cover the entire range of key terms in the field and it s critical in that it aims not only to describe but also to discuss problematise and in some cases resolve these terms
