

Shakespeare's Language of the Theatre

Shakespeare used language not only to tell the story of his plays but also to let it come alive in the special context of the theatre. Theatres at the time looked very different from theatres today: they were round buildings without a roof over the courtyard and a big part of the audience stood on three sides around the stage, which reached far into the courtyard. The drawing below gives you an idea of what the stage area looked like in Shakespeare's time.

In a theatre like this, you cannot use a lot of scenery to make the audience understand where the action was taking place because you would block the view of some of the people standing in the courtyard. In addition, they could not turn down the lights for scenes set at night. The only source of light was normal daylight, and performances usually started in the early afternoon. In order to make the audience understand where the play is set and at which time of the day the scene is happening, Shakespeare put a lot of information about this into the lines the characters speak.

In addition, the lines also help the actors to remember what they are actually meant to do on stage while speaking them: they mention the props the actors need and they even say what they have to do with them during the scene. For an actor who needs to keep several plays in his mind and who had very little time to learn their part off by heart and to rehearse the play, this is a great help.

World Encyclopedia of

Contemporary Theatre Irving Brown (Consulting Bibliographer), Natasha Rappaport (Bibliographer), Don Rubin (General Editor), Rosabel Wang (Consulting Bibliographer), 2013-10-11 An annotated world theatre bibliography documenting significant theatre materials published world wide since 1945 plus an index to key names throughout the six volumes of the series **The Theatre**, 1900 The Oxford Handbook of Modern Irish Theatre Nicholas Grene, Chris Morash, 2016-07-28 The Oxford Handbook of Modern Irish Theatre provides the single most comprehensive survey of the field to be found in a single volume Drawing on more than forty contributors from around the world the book addresses a full range of topics relating to modern Irish theatre from the late nineteenth century to the most recent works of postdramatic devised theatre Ireland has long had an importance in the world of theatre out of all proportion to the size of the country and has been home to four Nobel Laureates Yeats Shaw and Beckett Seamus Heaney while primarily a poet also wrote for the stage This collection begins with the influence of melodrama and looks at arguably the first modern Irish playwright Oscar Wilde before moving into a series of considerations of the Abbey Theatre and Irish modernism Arranged chronologically it explores areas such as women in theatre Irish language theatre and alternative theatres before reaching the major writers of more recent Irish theatre including Brian Friel and Tom Murphy and their successors There are also individual chapters focusing on Beckett and Shaw as well as a series of chapters looking at design acting and theatre architecture The book concludes with an extended survey of the critical literature on the field In each chapter the author does not simply rehearse accepted wisdom all of the contributors push the boundaries of their respective fields so that each chapter is a significant contribution to scholarship in its own right The Drama of South Africa Loren Kruger, 2005-11-01 The Drama of South Africa comprehensively chronicles the development of dramatic writing and performance from 1910 when the country came into official existence to the advent of post apartheid Eminent theatre historian Loren Kruger discusses well known figures as well as lesser known performers and directors who have enriched the theatre of South Africa She also highlights the contribution of women and other minorities concluding with a discussion of the post apartheid character of South Africa at the end of the twentieth century *City Stage* Mike Ingham, Xu Xi, 2005-06-01 City Stage is an anthology of recent Hong Kong English language drama written for Hong Kong performers and audiences All the plays were written in the last ten years and so capture and reflect the fast developing multiculturalism of the Hong Kong scene a somewhat paradoxical phenomenon in view of the 1997 return to China Mainland sovereignty The richness and diversity of the subject matter the wide range of theatre styles from the naturalistic to the highly stylized and quite simply the engaging quality of the dramatic writing all make this anthology both an essential adjunct to the 2001 prose fiction and poetry collection City Voices and at the same time a ground breaking independent record of an incredibly fertile period in Hong Kong's recent creative life history Thematically speaking whilst all plays have their unique voice and subject matter it is accurate to say that the quest for personal and communal identity is a theme that goes to the heart of all present selections The anthology is important in that

it epitomizes the increasing interconnectedness of previously segregated facets of Hong Kong culture indicating the very welcome tendency towards more open dialogue between Chinese and non Chinese practitioners and audiences The anthology contains the complete texts of the shorter plays and strategically selected excerpts from the longer plays All the texts in this collection were written as English language versions for performance rather than literary translations although for some a Chinese language text was also written
