The Knife Edge of Experience Rosemary Haughton, 1972 Immortal Diamond Richard Rohr, 2013-01-22 Dissolve the distractions of ego to find our authentic selves in God In his bestselling book *Falling Upward* Richard Rohr talked about ego or the False Self and how it gets in the way of spiritual maturity But if there s a False Self is there also a True Self What is it How is it found Why does it matter And what does it have to do with the spiritual journey This book likens True Self to a diamond buried deep within us formed under the intense pressure of our lives that must be searched for uncovered separated from all the debris of ego that surrounds it In a sense True Self must like Jesus be resurrected and that process is not resuscitation but transformation Shows how to navigate spiritually difficult terrain with clear vision and tools to uncover our True Selves Written by Father Richard Rohr the bestselling author of *Falling Upward* Examines the fundamental issues of who we are and helps us on our path of spiritual maturity *Immortal Diamond* whose title is taken from a line in a Gerard Manley Hopkins poem explores the deepest questions of identity spirituality and meaning in Richard Rohr s inimitable style

discusses both how these conceptions are related to each other and how they fit into a wider philosophical context His sophisticated and accessible account of the phenomenological philosophy of Husserl and the existential phenomenology of Heidegger will be of wide interest to students and specialists in these areas while analytic philosophers of mind will be interested by the detailed parallels which he draws with a number of concerns of the analytic philosophical tradition

Phenomenology and Human Science Research Today Massimiliano Tarozzi, 2010 **Systems Thinking for a Turbulent World** Anthony Hodgson, 2019-11-05 Systems Thinking for a Turbulent World will help practitioners in any field of change engage more effectively in transformative innovation Such innovation addresses the paradigm shift needed to meet the diverse unfolding global challenges facing us today often summed up as the Anthropocene Fragmentation of local and global societies is escalating and this is aggravating vicious cycles To heal the rifts we need to reintroduce the human element into our understandings whether the context is civic or scientific and strengthen truth seeking in decision making Aided by appropriate concepts and methods this healing will enable a switch from reaction to anticipation even in the face of discontinuous change and high uncertainty The outcome is to privilege the positive human skills for collaborative navigation through uncertainty over the disjointed rationality of mechanism and artificial intelligence which increasingly alienates us The reader in search of new ways of thinking will be introduced to concepts new to systems thinking that integrate systems thinking and futures thinking The concept of anticipatory present moment APM serves as a basis for learning the cognitive skills that better enable navigation through turbulent times A key personal and team practice is participative repatterning which is the basis for transformative innovation This practice is aided by new methods of visual facilitation The reader is guided through the unfolding of the ideas and practices with a narrative based on the metaphor of search portrayed in the tradition of ox herding found in traditional Far Eastern consciousness practice **Elemental Architecture** Phillip James Tabb, 2018-10-31 Elemental Architecture presents a new and refreshing approach to sustainable architectural practice Going beyond the standard performance based and quantitative sustainable measures it incorporates a broader framework of considerations including the more poetic and noetic possibilities of environmental design The book is structured around the ancient Greek and medieval alchemists system of the Five Temperaments fire earth air water and ether Phillip James Tabb examines how these elements produce both positive and negative environmental forces which have an impact on architectural design from drinking water and fresh air to torrential floods and tornados He shows how responding to or enhancing these forces can help us to create a more sustainable healthy and purposeful architecture To illustrate this each chapter draws on seminal contemporary works of architecture from Peter Zumthor's Bruder Klaus Field Chapel to Frank Lloyd Wright's masterpiece at Fallingwater These examples are accompanied by over a hundred high quality illustrations Expanding the discussion of sustainability to include phenomenological as well as qualitative considerations Elemental Architecture is ideal for students and researchers with an interest in sustainable architecture and architectural theory
