The Kosher For Passover Cookbook Spiral Bound:

Kosher USA Roger Horowitz, 2016-04-12 *Kosher USA* follows the fascinating journey of kosher food through the modern industrial food system. It recounts how iconic products such as Coca Cola and Jell O tried to become kosher, the contentious debates among rabbis over the incorporation of modern science into Jewish law, how Manischewitz wine became the first kosher product to win over non-Jewish consumers, principally African Americans, the techniques used by Orthodox rabbinical organizations to embed kosher requirements into food manufacturing, and the difficulties encountered by kosher meat and other kosher foods that fell outside the American culinary consensus. *Kosher USA* is filled with big personalities, rare archival finds, and surprising influences: the Atlanta rabbi Tobias Geffen who made Coke kosher, the lay chemist and kosher certification pioneer Abraham Goldstein, the kosher meat magnate Harry Kassel, and the animal rights advocate Temple Grandin, a strong supporter of shechita or Jewish slaughtering practice. By exploring the complex encounter between ancient religious principles and modern industrial methods, *Kosher USA* adds a significant chapter to the story of Judaism's interaction with non-Jewish cultures and the history of modern Jewish American life, as well as American foodways. **Key Terms in Material Religion** S. Brent Plate, 2015-12-17 *Material religion* is a rapidly growing field, and this volume offers an accessible critical entry into these new areas of research. Each key term uses case studies and is accompanied by a color image, an object, practice, space, or site. The entries cut across geographies, histories, and traditions, offering a versatile and engaging text for the classroom. Key topics covered include Icon, ritual, magic, gender, race, Sacred, spirit, technology, Space, belief, body, brain, Taste, touch, smell, sound, vision. Each entry demonstrates in clear and jargon-free prose how the key term figures prominently in understanding the materiality of religion. Written by leading international scholars, all entries are linked by the ways materiality stands at the forefront of the understanding of religion, whether that comes from humanistic, social, scientific, artistic, curatorial, or other perspectives. Brent Plate brings his expertise and extensive teaching experience to the comprehensive introduction, which introduces students to the themes and methods of the material cultural study of religion. *Key Terms in Material Religion* provides a much-needed resource for courses on theory and method in religious studies, the anthropology of religion, and the ever-increasing number of courses focused on material religion. **Passover Lite Kosher Cookbook** Ashkanazi-Hankin, Gail, 1996 **Catalog of the Gerald K. Stone Collection of Judaica** Gerald K. Stone, 2021-01-05 Gerald K. Stone has collected books about Canadian Jewry since the early 1980s. This volume is a descriptive catalog of his Judaica collection, comprising nearly 6,000 paper or electronic documentary resources in English, French, Yiddish, and Hebrew. Logically organized, indexed, and selectively annotated, the catalog is broad in scope, covering Jewish Canadian history, biography, religion, literature, the Holocaust, antisemitism, Israel, and the Middle East, and more. An introduction by Richard Menkis discusses the significance of the catalog and collecting for the study of the Jewish experience in Canada. An informative bibliographical resource, this book will be of interest to scholars and students of Canadian and
