Revolution and Change in Central and Eastern Europe Andrew Goldman, 2016-09-16 A comprehensive introduction to the nations of Central and Eastern Europe over a half century of turbulent change from post war subjugation by the Soviet Union to both shared and divergent experiences of post Communist transition to free market democracies

Deeper Reading Kelly Gallagher, 2023-10-10 Do your students often struggle with difficult novels and other challenging texts Do you feel that you are doing more work teaching the novel than they are reading it Building on twenty years of teaching language arts Kelly Gallagher shows how students can be taught to successfully read a broad range of challenging and difficult texts with deeper levels of comprehension In Deeper Reading Comprehending Challenging Texts 4 12 he shares effective classroom tested strategies that enable your students to Accept the challenge of reading difficult books and move beyond a first draft understanding Consciously monitor their comprehension as they read and employ effective fix it strategies when comprehension starts to falter Use meaningful

collaboration and metaphorical thinking to achieve deeper understanding of texts Reflect on the relevance the book holds for themselves and their peers by using critical thinking skills to analyze real world issues Gallagher also provides guidance on effective lesson planning that incorporates strategies for deeper reading Funny poignant and packed with practical ideas that work in real classrooms Deeper Reading is a valuable resource for any teacher whose students need new tools to uncover the riches found in complex texts AIMSSEC Maths Teacher Support Series Mathematical Thinking in the Lower Secondary Classroom African Institute for Mathematical Sciences Schools Enrichment Centre,2016-02-25 This series is for maths

teachers who want to develop their maths teaching skills This book is for teachers and educators who want to develop their maths teaching skills where English is the language of instruction It has been written by the international group of educators based at AIMSSEC The African Institute for Mathematical Sciences Schools Enrichment Centre The book provides practical classroom activities underpinned by sound pedagogy and recent research findings The activities are designed for teachers working alone or in self help teachers workshops They are designed to develop mathematical thinking and offer immediate practical tools to help deliver this approach **Regression Analysis** Jeremy Arkes,2025-09-12 This thoroughly practical

and engaging textbook conveys the skills needed to responsibly develop conduct scrutinize and interpret statistical analyses without requiring any high level math Regression Analysis details the most common sources of statistical biases including some not covered in other textbooks Rather than focusing on complicated equations the book describes these biases visually and with examples of situations in which they could arise As the author argues just learning how to conduct regressions without learning how to properly assess and interpret regressions can do more harm than good Other unique features include an innovative approach to describing the elusive concept of holding other factors constant and proper interpretations of the strength of evidence in light of the Bayesian critique of hypothesis testing This third edition enhances the emphasis on ethical and responsible research practices and creates more examples demonstrating how the biases and their corrections could affect the regression results This is the textbook the author wishes he had learned from as it would have helped him avoid many research mistakes he made in his career at research organizations and in academia It is ideal for undergraduate and postgraduate students learning quantitative methods in the social sciences business medicine and data analytics It will also appeal to researchers and academics looking to better understand regressions **Philosophy for Everyone** Matthew

Chrisman,Duncan Pritchard,Guy Fletcher,Elinor Mason,Jane Suilin Lavelle,Michela Massimi,Alasdair Richmond,Dave Ward,2016-07-15 Philosophy for Everyone begins by explaining what philosophy is before exploring the questions and issues at the foundation of this important subject Key topics in this new edition and their areas of focus include Moral philosophy the nature of our moral judgments and reactions whether they aim at some objective moral truth or are mere personal or cultural preferences and the possibility of moral responsibility given the sorts of things that cause behavior Political philosophy fundamental questions about the nature of states and their relationship to the citizens within those states

Epistemology what our knowledge of the world and ourselves consists in and how we come to have it and whether we should form beliefs by trusting what other people tell us Philosophy of mind what it means for something to have a mind and how minds should be understood and explained Philosophy of science foundational conceptual issues in scientific research and practice such as whether scientific theories are true and Metaphysics fundamental questions about the nature of reality such as whether we have free will or whether time travel is possible This book is designed to be used in conjunction with the free Introduction to Philosophy MOOC massive open online course created by the University of Edinburgh's Eidyn research centre and hosted by the Coursera platform www.coursera.org/course/introphil This book is also highly recommended for anyone looking for a short overview of this fascinating discipline **Killing Us ... His Way** Korrinne Marshall, Arthur

Artemis, 2017-02-20 As a child Korrinne Marshall wished that the man who continually hurt her would die As she was forced to play games with the monster in a dark shed young Korrinne did her best to rise above the reality that had become her life But what she did not realize is that decades later a choice would lead her to hell and back as she entered a relationship with a partner who harbored heinous secrets and held the power to end her life Would she ever be able to escape the cycle of abuse Arthur Artemis never had to confront an uncontrollable monster until his beloved sister was murdered by her husband As he set out on a quest to learn how and why domestic abuse victims survive Arthur reveals how his quest to find answers led him to Korrinne and her extraordinary story of endurance that eventually led him to gain life changing insight into abusers their victims and the brave survivors who emerge from the darkness to live again **Killing Us His Way** shares the compelling story based on true events of two people destined to meet as they embark on a healing journey together to confront the shadow cast by domestic violence After Sputnik Alan J. Levine, 2017-12-12 On October 4 1957 in the midst of

the Cold War the Soviet Union launched Sputnik I the first artificial earth satellite For the West and especially the United States it was a shattering blow to national morale and pride It led to a deep seated fear that the Soviet Union would surpass the United States in both technology and power and that even nuclear war might be near **After Sputnik** shows that the late 1950s were not an era of complacency and smugness but were some of the most anxious years in American history The Cold War was by no means a time of peace It was an era of a different kind of battle one that took place in negotiations and in the internal affairs of many countries but not always on the battlefield While many choose to remember President Eisenhower as a near pacifist his actions in Lebanon the Taiwan Straits crisis Berlin and elsewhere proved otherwise Seconded by his able secretary of state John Foster Dulles he steered America through some of the most difficult parts of the Cold War not always succeeding but preventing disaster The Middle East and Berlin crises the Indonesian Civil War Fidel Castro's rise to power and other events are all bluntly discussed in the light of Western and other illusions and delusions In this engaging history Alan J Levine delves deeply into this often misrepresented period of history and provides new insight into one of the most formative decades in American history The SAGE Handbook of Comparative Politics Todd Landman, Neil

Robinson,2009-06-16 The SAGE Handbook of Comparative Politics presents in one volume an authoritative overview of the theoretical methodological and substantive elements of comparative political science The 28 specially commissioned chapters written by renowned comparative scholars guide the reader through the central issues and debates presenting a state of the art guide to the past present and possible futures of the field
