[By Luca Ombrosi?] Done Into English by Harold Acton. With Introduction by Norman Douglas. [With a Portrait.]*. Translated from the Last German Edition ... Leopold von Ranke,1851 **The Last Judgment** James A. Connor,2009-06-23 Painted on the altar wall of the Sistine Chapel 28 years after Michelangelo completed the glorious and hopeful ceiling The Last Judgment is full of stark images depicting the End of Days James Connor uses the famous fresco as the lens by which to view the end of the Renaissance arguing that Michelangelo s imagery and composition reflect the religious and political upheavals of the time Combining his flair for storytelling with incisive historical analysis Connor demonstrates how the Counter Reformation arose from the ashes of Renaissance Italy and how that sea change altered the course of Western history **The History of the Popes During the Last Four Centuries** Leopold von Ranke,1908

Tom Swan and the Last Spartans: Part Two Christian Cameron,2016-03-17 Fifteenth century Europe Tom Swan is not a professional soldier He s really a merchant and a scholar looking for remnants of Ancient Greece and Rome temples graves pottery fabulous animals unicorn horns But he also has a real talent for ending up in the midst of violence when he didn t mean to Having used his wits to escape execution he begins a series of adventures that take him to street duels in Italy meetings with remarkable men from Leonardo Da Vinci to Vlad Dracula and from the intrigues of the War of the Roses to the fall of Constantinople The last quarter of the nineteenth century Israel Smith Clare,1899 *The Last Prophecy* Murat Ugray,2021-01-26 Do the number Pi contain everything within Such as your date of birth your date of death even the date of the Doomsday Well what if someone knew that a long time ago and coded it somewhere Could someone else have discovered America in the Middle Ages before Columbus Well what if this mysterious person is really a great Oracle who has to hide his talent and what if his purpose of going there is not to discover a new continent but to solve one of the world s greatest secrets the Secret of a Mayan prophetic calendar that explains when the Doomsday in a Mayan pyramid is coming The Mayans actually calculated the date of the Doomsday as 13 0 0 0 0 Baktun and they encoded it into a giant calendar Well what did that actually mean 13 Baktun was actually a giant code in which the Mayans who were also adept at mathematics placed the true date of the Doomsday into the number Pi and it indicated a date that was not 2012 but further Did the Mayans come up with this information themselves or did they get it from a lost civilization far more advanced than themselves called Atlantis Now everything was ready he was about to find out which date actually 13th Baktun coincide with that is the biggest secret of human history hidden in the Mayan Calendar which is impossible to solve by calculating the hidden code in the number of Pi 13th Baktun 13 3333 366 6666 day 4903rd code The 4903rd number of the Pi number

Coincidence with the year 2222 In 1500 on a dark night in a farmhouse near Granada in Southern Spain a gray colored 1 meter extraterrestrial creature who called himself Alien in his notes stood in front of the door with two letters containing a series of prophecies about the future of the world and a mysterious map with a place marked on it and with a huge picture that consisted of 100 scrambled numbers of some cryptic complex numbers and writing of future dates and he was staring at Bruno with his big black eyes In fact this number picture which is a giant Anagram was a small piece of a giant spiral that began with 3 14 and extending to infinity in which the histories of all the past and future events in the world were encoded Alien suddenly threw the things in his hand towards him and began to run rapidly through the cornfield towards the lights descending from the sky 1 km away As he began to run the flying object began to quickly descend from the sky and disappeared into the darkness Bruno first glanced toward the direction of the alien and went with fearful eyes The chain of events that began in medieval Spain with a dramatic and bitter life and death struggle in the Inquisition led Bruno and his sister Sofia on a dangerous and long journey from Andalusia to a Mayan temple in Mexico the center of the Mayan civilization and it would eventually end with their execution But the Great Prophecy that was announced would bring an end not only for the church or for them but also the whole world this time Because The Last Prophecy was leading humanity to the end of its story the Doomsday which started with the expulsion from Heaven Where did humanity come from where are we going You will find the answer to this question in The Last Prophecy

Finance Masters: A Brief History Of International Financial Centers In The Last Millennium Olivier Coispeau, 2016-08-10 One thousand years ago a handful of dynamic medieval city states developed trade at the frontier of capitalism Their unique commercial ambition led to the emergence of finance capitals of international significance Finance Masters From the 11th century onward international financial hubs led by astute and bold merchant bankers and visionary leaders inspired the numerous innovations that triggered economic revolutions in the last millennium and laid the ground for modern finance This book explores not only classic financial centers but also offshore financial centers and gambling centers to connect them to contemporary finance and it also delves into the unique function of leading financial hubs to execute financial transactions over a wide geographical domain and transform the world economy The 2008 2009 Great Recession showed that working on fundamental issues such as market structure pricing mechanism and games was indeed necessary but probably still insufficient to create the antibodies needed to mitigate systemic risk and prevent the irrational exuberance capable of triggering devastating economic crash In the continuation of the Theory of Moral Sentiments written by Adam Smith in 1759 seventeen years before his Wealth of Nations it seems a deeper historical understanding of the key success factors which quietly assembled in the backyard of our market economy can be a useful lifeline This book aims to explain the widening gulf that emerged over time between economics regulatory and ethical considerations necessary to a smoother functioning of markets Finance Masters is also a book about the extraordinary men who led the evolution of modern finance with the innovations that changed the course of economic

history This book tries to capture the salient factors behind the geography of finance hubs from the early fairs in medieval England and Venice to Wall Street in contemporary New York The development and the legacy of those Finance Masters deserve more attention to reflect upon the evolution of incumbent players and better understand their possible future This book a must read for economics and finance students and young finance professionals who seek a broader and better understanding of the origins of modern economics

Women and Art in Early Modern Europe: Patrons, Collectors, and Connoisseurs ,1999 This anthology reflects a larger impulse to recover women s involvement in the creation of an aesthetic culture from the late medieval through the early modern periods By asking how the perspectives and experiences of female patrons contributed to the invention of particular styles or iconographies or how they shaped taste or how they influenced demand these twelve original essays introduce significant new information about specific women patrons while raising theoretical issues for patronage studies more generally While most of the projects discussed are consistent with the period s male sanctioned concept of female patronage as an expression of conjugal devotion or dynastic promotion at the same time the women involved devised strategies that circumvented these rules allowing them to explore the potential of art as a means of proclaiming their own identity and taste
