

Sm Marriage Bed

John R. Clark Hall

Sm Marriage Bed:

Beds and Chambers in Late Medieval England Hollie L. S. Morgan, 2017 First full length interdisciplinary study of the effect of these everyday surroundings on literature culture and the collective consciousness of the late middle ages The bed and the chamber which contained it was something of a cultural and social phenomenon in late medieval England Their introduction into some aristocratic and bourgeois households captured the imagination of late medieval English society The bed and chamber stood for much more than simply a place to rest one's head they were symbols of authority unparalleled spaces of intimacy sanctuaries both for the powerless and the powerful This change in physical domestic space shaped the ways in which people thought about less tangible concepts such as gender politics communication God sex and emotions Furthermore the practical uses of beds and chambers shaped and were shaped by artistic and literary production This volume offers the first interdisciplinary study of the cultural meanings of beds and chambers in late medieval England It draws on a vast array of literary pragmatic and visual sources including romances saints lives lyrics plays wills probate inventories letters church and civil court documents manuscript illumination and physical objects to shed new light on the ways in which beds and chambers functioned as both physical and conceptual spaces Hollie L S Morgan is a Research Fellow in the School of History and Heritage University of Lincoln
