Trebilcock, Anthony Duggan, Lorne Sossin, 2012-05-03 Though most conceptions of the rule of law assume equality before the law and hence equal access to the justice system this basic right is not being met for many low and middle income Canadians This book focuses on the problem of civil access to justice for middle income earners those whose household income is high enough to disqualify them from legal aid but not high enough to cover the costs of litigation Featuring contributions by leading Canadian and international scholars practitioners and members of the judiciary this multidisciplinary collection draws on scholarship in the fields of law social science and public policy There is a particular emphasis on family law consumer law and employment law as these are the areas where research has indicated that unmet legal needs are highest Middle Income Access to Justice presents a variety of innovative solutions from dispute resolution process reforms to the development of non lawyer forms of assistance and new methods for funding legal expenses In doing so it lays the foundation for the development of a much needed new delivery model to provide early intervention for legal services
