Committee on Government Operations, 1971 **Beautiful Ontario Towns** Fred Dahms, 2001-05-15 Beautiful Ontario Towns captures the unique heritage preserved in southwestern Ontario's small towns and villages Fred Dahms has selected ten prosperous picturesque communities that offer a welcome respite for city dwellers looking for a pleasant outing or a new place to live Some like St Jacobs Elora and St Marys are already well known Others like Neustadt or Thornbury are an unexpected surprise Each of these settlements would make a comfortable and enjoyable day's outing for residents of Toronto Hamilton Kitchener Waterloo or the other large cities of southwestern Ontario Fred Dahms who has made a special study of small towns in the province shares his knowledge of each place's history its amenities and the reasons for its success Lavishly illustrated with full colour photographs Beautiful Ontario Towns also includes maps and key statistical information for each place The Changing Social Geography of Canadian Cities Larry S. Hummon, 1990-07-05 This book interprets popular American belief and sentiment about cities suburbs and small towns in terms of community ideologies Based on in depth interviews with residents of American communities it shows how people construct a sense of identity based on their communities and how they perceive and

explain community problems e g why cities have more crime than their suburban and rural counterparts in terms of this identity Hummon reveals the changing role of place imagery in contemporary society and offers an interpretation of American culture by treating commonplaces of community belief in an uncommon way as facets of competing community ideologies He argues that by adopting such ideologies people are able to make sense of reality and their place in the everyday world

Building A New Heritage (RLE Tourism) Gregory Ashworth, Peter Larkham, 2013-05-20 At the heart of the European debate lies the tension between the idea of European unity and individual state identities and nationalisms This volume provides an insight into this dichotomy by exploring the role of heritage in the new Europe The main theme of this book is that a number of possible heritages can be shaped from the European past depending on the purposes for which they are intended Through different methods of management intervention heritage can fulfil a variety of functions becoming a major commercial resource in the form of the tourism industry or enlisted in the creation and maintenance of place identities Leading contributors look at different perceptions of heritage by different cultures and the social and political consequences of heritage planning The nature of heritage planning for emerging spatially fragmented state structures is also discussed
