Smiling Through The Cultural Catastrophe:

Smiling Through the Cultural Catastrophe Jeffrey Hart, 2008-10-01 Hart presents a guide to some of the essential literary works of Western civilisation which retain their ability to energise us intellectually tracing the main currents of Western culture for all who wish to understand the roots of their civilisation and the basis for its achievements **Ordering America** William H. Young, 2010-07-21 Ordering America painting a felicitous portrait of Western civilization shows that its defining ideals rooted in man's common human nature a perception newly substantiated by modern evolutionary psychology were best fulfilled by realization of the American founding order Twentieth century progressivism and postmodern multiculturalism detoured America down the way of social constructionism human nature and equality are produced by culture and the state through groups The book sets a course to revive the Western ideals and return to an opportune center right American order applying latest scientific insights and restoring individual responsibility and reciprocity under more limited still energetic government befitting our century Love and Death in Lawrence and Foucault Barry Jeffrey Scherr, 2008 Love and Death in Lawrence and Foucault is the first full length study of Foucault and the Foucaultians not to look at them from a quasi hagiographical perspective The Lawrentian point of view employed here to deal with Foucault and his oeuvre is utterly unique imaginative and efficacious in explicating demystifying Foucaultian theory while at the same time promoting Barry J Scherr's courageous indefatigable project of restoring D H Lawrence to his rightfully and supremely high place in the pantheon of great British literature Rebellious and unconventional yet scholarly and mature Love and Death in Lawrence and Foucault is the bravest and most unorthodox study of Foucault to date It is a worthy addition to Scherr's previous literary cultural studies D H Lawrence Today and D H Lawrence's Response to Plato A supremely lively incisive lucid and profound critique Love and Death in Lawrence and Foucault is indispensable to students and scholars of Lawrence and Foucault alike The Binding of Isaac, Religious Murders & Kabbalah Lippman Bodoff, 2005 In a series of evocative groundbreaking articles the author analyzes the Biblical and Rabbinic basis for what surely are now some of the most hotly debated topics in Jewish religious thought today These include how the traditional interpretation of the Binding of Isaac has been misapplied in both Christian theology and Jewish martyrology and how the centuries long and newly resurgent belief in mysticism and messianism in kabbalah and Hasidism has distorted classical Judaism and thwarted its national and cultural development The author counters the arguments of those who see Judaism's and the world's newfound obsession with mysticism and kabbalah as a natural outgrowth of a progressive trend within rabbinic Judaism and warns of the impending danger of rejecting the very core of Jewish thought and opinion as it was expounded in the Torah and classical Jewish tradition the Oral Law Each section of this magnificent work will give the reader new insights into how different aspects of Judaism have evolved and why they have often been in contention with each other Nor is he afraid to deal with some of the supercharged issues within Judaism such as what are the underlying premises of Jewry's claim to the Divinely Promised Land

And has this claim been affected by its failure to pursue an active program of nationalism These highly acclaimed articles have been gleaned from today s leading Jewish journals and have stood the test of time They contain valuable source material and are a ready reference to the many historical and religious topics that are the focus of discussion across all main Jewish denominations

Secrets of the Oracle W. David Shaw,2009-12-01 What is wisdom Where does it come from Where can we find it And what does it mean in our lives In *Secrets of the Oracle* David Shaw explores these questions by turning to the works of wisdom writers whose words retain their meaning and transformative power even centuries after they were written Wisdom literature exists in two shaping forms the aphorism geared towards the past and the oracle a revolutionary impulse looking to the future *Secrets of the Oracle* discusses both types of wisdom finding them in the works of poets and philosophers from Tennyson and Zeno to Yeats and George Berkeley from Browning and Schleiermacher to T S Eliot and F H Bradley The book also discusses the contribution to wisdom of Jesus and the author of Ecclesiastes of Abraham Lincoln and Norman Maclean Part celebration of wisdom found and part lament for wisdom lost *Secrets of the Oracle* is convincing in its assertion that wisdom articulates what is and offers creative visions of the future

Human Purpose and Transhuman Potential Ted Chu,2014-03-01 For millennia great thinkers have contemplated the meaning and purpose of human existence but while most assumed that humanity was the end point of creation or the pinnacle of evolution Ted Chu makes the provocative claim that the human race may in fact be a means rather than an end that humankind will give rise to evolutionary successors In this wide ranging and authoritative work Chu reexamines the question of human purpose in light of the extraordinary developments of science and technology Arguing that a deep understanding of our place in the universe is required to navigate the magnitude of the choices that lie ahead he surveys human wisdom from both East and West traces the evolutionary trajectory that has led to this point and explores the potentials emerging on the scientific frontier The book addresses the legitimate fears and concerns of playing God but embraces the possibility of transcending biological forms and becoming or creating entirely new life forms

Leadership in Christian Higher Education Michael Wright,James Arthur,2016-06-27 Universities and Colleges with a Christian affiliation have in recent years sought to renew and redefine their identities and almost all have rearticulated their mission for the modern age after a long and serious process of reappraisal This process has been accompanied by an ongoing discussion of the nature and identity of higher education itself This discussion has required leadership that is different from most secular leadership This book provides a range of experienced voices including the Archbishop of Canterbury that reflect on the character and mission of leadership in Christian higher education in the 21st Century

Minds on Fire Mark C. Carnes,2014-09-15 Why are so many students intellectually disengaged Mark Carnes says it is because students are so deeply absorbed in competitive social play He shows how month long role immersion games in the curriculum can channel those competitive impulses into transformative learning experiences and how bricks and mortar colleges can set young minds on fire

Babel and the Ivory Tower William

David Shaw, Professor W David Shaw, 2005-01-01 Writing at the time of his retirement from an academia that after four decades has become unfamiliar Shaw English U of Toronto says in a society where book learning is an anomaly scholars must breach the citadel of computer wizards and technicians by combining their knowledge of books with the rebel s power to criticize authority the prophet s power to renew tradition and the poet s power to create a world that is no less true for being a vision He insists that scientists scholars and professional practitioners must learn from each other Annotation 2004 Book News Inc Portland OR booknews com

Old-Time Religion Embracing Modernist Culture Douglas Carl Abrams, 2016-12-07

Old Time Religion Embracing Modernist Culture focuses on the founding generation of American fundamentalism in the 1920s and 1930s and their interactions with modernity While there were culture wars there was also an embrace Through a book culture fostered by liberal Protestants and thriving periodicals they strengthened their place in American culture and their adaptation helps explain their resilience in the decades to come The most significant adaptation to modernist culture was the embrace of the modern secular university as a model for evangelical higher education After political battles along sectarian lines in the twenties fundamentalists learned to compete in a pluralist society By the thirties they were among the strongest supporters of Jews and began working with Catholics to fight communism In politics and higher education they encountered issues of race gender and class While opposing higher critics of the Bible their approaches to texts were in some cases similar a focus on the original languages commitment to scholarship ambiguities about both the role of reason and the interpretation of key doctrines Several had graduate training some even in European universities With their views of end times they continued innovative approaches to prophetic texts from nineteenth century dispensationalists In response to evolution and prophetic texts in a time conscious age they also had innovative ideas about biblical time Fundamentalists engaged in debate with Freud and while rejecting his ideas absorbed elements of psychology Some understood William James effort to accommodate religion and modern ideas Although rejecting John Dewey s pragmatism fundamentalists found value in studying modern philosophy They tapped a secular Enlightenment philosophy to defend their supernatural Christianity Between the wars they even participated in the interest in Nietzsche Usually dismissed as fractious they rose above core differences and cooperated among themselves across denominational lines in building organizations In doing so they reflected both the ecumenism of the liberal Protestants and the organizational impulse in modern urban industrial society This study the first to focus on the founding generation also covers a broad spectrum of fundamentalists from the Northeast Midwest the South and the West Coast including some often overlooked by other historians

Passions in Economy, Politics, and the Media

Wolfgang Palaver, Petra Steinmair-Pösel, 2005 Passions play an important role in economy politics and the media Recent discussions of the economy for instance do no longer hesitate to stress the importance of a passion like envy functioning as a driving force in this field Also the world of advertising illustrates the importance of passions in the economy Modern forms of politics on the contrary claimed to be detached from passions and to rely solely on rationality Recent developments since the end of the cold war however have clearly challenged this self understanding of modern politics Not even politics can escape the world of passions In our days both the economy and politics depend on the media another example of a highly passionate realm Passions also have an important religious dimension One of the central questions of any great religion is how to deal with passions This book offers an interdisciplinary approach to the phenomenon of passions in the fields of economy politics and the media drawing on Re

The Living Moment

Jeffrey Hart, 2012-07-31 In the spirit of Lionel Trilling Edmund Wilson

and Susan Sontag the renowned literary critic Jeffrey Hart writes The Living Moment a close reading of literature as it intersects with the political Hart s book is an even handed guide for anyone toddling into the mists of the modernist moment effortlessly moving between such modernist monuments as Eliot s The Waste Land Hemingway s A Farewell to Arms Mann s Doctor Faustus and Fitzgerald s The Great Gatsby Hart s most stunning achievement is his brilliant inclusion of Marilynne Robinson s Gilead as a modernist text for the way the novel teaches us to see more to hear more to feel more Hart s dazzling study is an examination of important works of literature as they explore the experience of living in a broken world with thought and sometimes with examples of resolve that possess permanent validity The Living Moment is for anyone who is wearied by so much of today s trendy narrow and ideologically driven criticism xml namespace prefix o ns urn schemas microsoft com office office

Stephen R. Donaldson and the Modern Epic Vision

Christine Barkley, 2014-01-10 This

critical study analyzes Stephen R Donaldson s role as a modern writer who uses the fantasy genre to discuss situations and predicaments germane to the modern world Donaldson reclaims an epic vision in his Thomas Covenant novels that is lacking in most modern literature Chapters demonstrate how this use of epic heroism helps solve seemingly insurmountable problems and provides more meaning and purpose for individuals As Donaldson s characters learn to transcend their world the reader is engaged in a serious enlightened discussion about the need for imagination responsibility and acceptance to resolve such problems as alienation pollution disease and despair

Ritual Unbound

Thomas Cousineau, 2004 This study

explores the vestiges of primitive sacrificial rituals that emerge in a group of canonical modernist novels including The Turn of the Screw Heart of Darkness The Good Soldier The Great Gatsby and To the Lighthouse It argues that these novels reenact a process that achieved its seminal expression in the Genesis story of The Binding of Isaac in which Abraham having been prevented from sacrificing Isaac offers up a ram in his place Modernist reenactments of this pattern present narrators who although vigorously protesting the victimization of certain characters unfailingly seize upon others as their surrogates

Each novel is designed in such a way however as to resist the reconstruction of a sacrificial ritual to which its narrator is prone The resulting tension between the binding and unbinding of ritual persecution dramatizes the paradox that we can neither believe convincingly in the guilt of our scapegoats nor imagine a society that has dispensed with them entirely Thomas Cousineau is Professor of English at Washington College in Maryland *Great Books* David Denby,2013-06-18 NATIONAL BESTSELLER A lively adventure of the mind The tone of the prose is one of unqualified enthusiasm energy vigor intellectual curiosity and what might be called an ecstasy of imaginative journalism The New York Times Book Review At the age of forty eight writer and film critic David Denby returned to Columbia University and re enrolled in two core courses in Western civilization to confront the literary and philosophical masterpieces the great books that are now at the heart of the culture wars In *Great Books* he leads us on a glorious tour a rediscovery and celebration of such authors as Homer and Boccaccio Locke and Nietzsche Conrad and Woolf The resulting personal odyssey is an engaging blend of self discovery cultural commentary reporting criticism and autobiography an inspiration for anyone in love with the written word

American Conservatism Bruce Frohnen,Jeremy Beer,Nelson O. Jeffrey,2014-05-20 A must own title National Review Online American Conservatism An Encyclopedia is the first comprehensive reference volume to cover what is surely the most influential political and intellectual movement of the past half century More than fifteen years in the making and more than half a million words in length this informative and entertaining encyclopedia contains substantive entries on those persons events organizations and concepts of major importance to postwar American conservatism Its contributors include iconic patriarchs of the conservative and libertarian movements celebrated scholars well known authors and influential movement activists and leaders Ranging from abortion to Zoll Donald Atwell and written from viewpoints as various as those which have informed the postwar conservative movement itself the encyclopedia s more than 600 entries will orient readers of all kinds to the people and ideas that have given shape to contemporary American conservatism This long awaited volume is not to be missed **Feminism and Affect at the Scene of Argument** Barbara Tomlinson,2010-05-07 Showing how both feminist

and anti feminist arguments work and providing tools for social justice and changing civic life **Divided We Fall** Bryce J. Christensen,2017-09-20 In the weeks that followed the horror of September 11 politicians of both major parties resolutely asserted America s national unity Barely four years later the illusions of the rhetoric of unity have given way to the divisive oversimplifications of Red vs Blue electoral cartography *Divided We Fall* Family Discord and the Fracturing of America offers a more nuanced yet more disturbing picture of American disunity a disunity both social and political both public and personal Deeper than the disagreements that separate voter from voter this disunity increasingly separates man from woman husband from wife parent from child grandparent from grandchild and sibling from sibling Though the national turmoil in family life has unquestionably opened new divides in political life on the questions of abortion and gay marriage for instance this analysis explores the bewildering cross cutting tensions surrounding these fissures The search for ways to bridge such

fissures takes on particular urgency because of the mounting costs of family disintegration social and legal cultural and psychological Because they recognize the often desperate plight of single mothers and their children policymakers have often worked together in bipartisan fashion to intensify government efforts to collect child support from non custodial fathers to place abused children in foster care and to provide shelter for the family fragments on the street But these pragmatic government responses to pressing social needs are no substitute for deeper probing into the cultural causes of these needs Indeed as the author probes those causes including the erosion of the home economy of restraints on sexual conduct and of the traditional family wage he warns that continued reliance on government to compensate for family failure will make matters worse in the long run While family failure puts ever more burdens on government this investigation shows how such failure withers the selfless civic impulses that sustain any healthy government
