You Quit Theodore Fenske, 2009-01-19 Smoking doesn't have to leave you at a dead end. This unique book provides insight whether you are a current or past smoker on how to reduce your risk for heart attack and stroke before it's too late. Rather than asking you to quit smoking, Dr. Fenske instead asks you to make changes in your life while you quit by focusing on how the cardiovascular system is susceptible to disease and how its healthy function can be optimized independent of smoking. Humorous and informative. While *You Quit* asks you to take a series of small intentional steps toward vascular health. Armed with a state-of-the-art perspective on vascular biology, you follow Peter, an overweight cigarette-addicted patient, as he takes these small strides. You will see clearly how each improvement directly impacts his vital statistics just as they will for you, even if quitting isn't on your road map yet.

Risky Teen Behavior Heidi Watkins, 2012-02-10 This must-have resource explores issues related to a variety of risky teen behaviors as well as a discussion of whether or not risky teen behavior is a growing serious problem. The Unforgotten Women of the Islamic State Gina Vale, 2024-09-11 *The Unforgotten Women of the Islamic State* explores the governance of the Islamic State (IS) terrorist organization through the lives and words of local Iraqi, Syrian, and Kurdish women. While the roles and activities of foreign, predominantly Western, pro-IS women have garnered significant attention, the experiences and insights of local civilian populations have been largely overlooked. Drawing on the testimonies of 63 local Sunni Muslim and Yazidi women, Gina Vale exposes the group's intra-gender stratified system of governance. Eligibility for the group's protection, security, citizenship, and entrance into the semi-public sphere were not universal but required convergence with the gender norms of IS through permanent erasure or at least temporary disguise of certain markers of difference. In some cases, this was directed by a pre-meditated divide-and-conquer strategy, while in others, it manifested as unregulated violence at the hands of individual group members, including women. The structure follows the trajectory of IS's increasing control over its citizens and captive populations, its militarization of society, imposition of law and order, provision of goods and services, and intervention in civilians' private lives. Analysis of diverse first-hand accounts and the group's documentation reveals that the presence, exclusion, and victimization of local civilian women were necessary to the functioning and legitimization of IS's caliphate project and the supremacy of affiliated men and women. As a fledgling proto-state, IS needed local Iraqi, Syrian, and Kurdish women. Though far from represented or protected, they were by no means forgotten.

Tobacco Iain Gately, 2018-09-01 A rich, complex history. Deeply engaging and witty. *Los Angeles Times*. Long before Columbus arrived in the New World, tobacco was cultivated and enjoyed by the indigenous inhabitants of the Americas, who used it for medicinal, religious, and social purposes. But when Europeans began to colonize the American continents, it became something else entirely: a cultural touchstone of pleasure and success and a coveted commodity that would transform the world economy.

forever Iain Gately's *Tobacco* tells the epic story of an unusual plant and its unique relationship with the history of humanity from its obscure ancient beginnings through its rise to global prominence to its current embattled state today. In a lively narrative Gately makes the case for the tobacco trade being the driving force behind the growth of the American colonies, the foundation of Dutch trading empire, the underpinning cause of the African slave trade, and the financial basis for victory in the American Revolution. Well researched and wide ranging, *Tobacco* is a vivid and provocative look at the surprising roles this plant has played in the culture of the world. Ambitious, informative, and perceptive, Gately is an amusing writer, which is a blessing. The Washington Post Documents the resourcefulness with which human beings of every class, religion, race, and continent have pursued the lethal leaf. The New York Times Book Review *Journal of the National Cancer Institute*, 2008
