Society - Water - Technology Reinhard F. Hüttel, Oliver Bens, Christine Bismuth, Sebastian

Hoechstetter,2015-11-02 This book presents the results of the Interdisciplinary Research Group Society Water Technology of the Berlin Brandenburg Academy of Sciences and Humanities It describes interdisciplinary evaluation criteria for major water engineering projects MWEPs and portrays an application to the Lower Jordan Valley Middle East and the Fergana Valley Central Asia Both areas are characterised by transboundary conflicts by challenges due to demographic and climate change and by political and societal pressures Based on the findings the book provides recommendations for science and political decisions makers as well as for international financing institutions In addition it outlines research gaps from an interdisciplinary perspective In the past MWEPs have been used as an instrument to cope with the demands of growing populations and to enhance development progress Experiences with MWEPs have shown that a purely technical approach has not always brought about the desired results In many cases MWEPs have even resulted in negative implications for society and environment Therefore improved management strategies and enhanced technologies for a sustainable water resource management system are a prerequisite to meet present and future challenges And moreover the continuous evaluation and optimisation of these measures is likewise a must

Local Politics in Jordan and Morocco Janine A. Clark,2018-04-03 In recent years authoritarian states in the Middle East and North Africa have faced increasing international pressure to decentralize political power Decentralization is presented as a panacea that will foster good governance and civil society helping citizens procure basic services and fight corruption Two of

these states Jordan and Morocco are monarchies with elected parliaments and recent experiences of liberalization Morocco began devolving certain responsibilities to municipal councils decades ago while Jordan has consistently followed a path of greater centralization Their experiences test such assumptions about the benefits of localism Janine A Clark examines why Morocco decentralized while Jordan did not and evaluates the impact of their divergent paths ultimately explaining how authoritarian regimes can use decentralization reforms to consolidate power Local Politics in Jordan and Morocco argues that decentralization is a tactic authoritarian regimes employ based on their coalition strategies to expand their base of support and strengthen patron client ties Clark analyzes the opportunities that decentralization presents to local actors to pursue their interests and lays out how municipal level figures find ways to use reforms to their advantage In Morocco decentralization has resulted not in greater political inclusivity or improved services but rather in the entrenchment of pro regime elites in power The main Islamist political party has also taken advantage of these reforms In Jordan decentralization would undermine the networks that benefit elites and their supporters Based on extensive fieldwork Local Politics in Jordan and Morocco is an important contribution to Middle East studies and political science that challenges our understanding of authoritarian regimes survival strategies and resilience **Nationalist Voices in Jordan** Betty S. Anderson, 2009-09-15

According to conventional wisdom the national identity of the Jordanian state was defined by the ruling Hashemite family which has governed the country since the 1920s But this view overlooks the significant role that the Arab street in this case ordinary Jordanians and Palestinians played and continues to play in defining national identity in Jordan and the Fertile Crescent as a whole Indeed as this pathfinding study makes clear the street no less than the state has been a major actor in the process of nation building in the Middle East during and after the colonial era In this book Betty Anderson examines the activities of the Jordanian National Movement JNM a collection of leftist political parties that worked to promote pan Arab unity and oppose the continuation of a separate Jordanian state from the 1920s through the 1950s Using primary sources including memoirs interviews poetry textbooks and newspapers as well as archival records she shows how the expansion of education new jobs in the public and private sectors changes in economic relationships the establishment of national militaries and the explosion of media outlets all converged to offer ordinary Jordanians and Palestinians who were under the Jordanian government at the time an alternative sense of national identity Anderson convincingly demonstrates that key elements of the JNM s pan Arab vision and goals influenced and were ultimately adopted by the Hashemite elite even though the movement itself was politically defeated in 1957 *Jordan* Sean Yom, 2025-09-17 In *Jordan* Sean Yom provides a concise yet authoritative synthesis of the country from its founding over a century ago to the present He explores Jordan s government society economy and foreign policy in a systematic manner offering an immersive tour of this underappreciated but vital Arab country Uniquely Yom combines theoretical work from political science sociology and other scholarly fields with firsthand knowledge of Jordan garnered over decades of study to guide readers towards the most important insights

This book underscores the urgency of grasping contemporary Jordanian affairs and shows why the ways opposition and uprisings unfold within its borders will likewise shape the future of democracy in the Arab world
