

A woman in a white dress is lying on her back in a field of tall, golden-brown grass. Her arms are raised and spread out to the sides, and her legs are also spread out. The grass is dense and reaches up to her waist. The overall scene is peaceful and evokes a sense of connection with nature.

Ecocriticism of the Global South Scott Slovic, Swarnalatha Rangarajan, Vidya Sarveswaran, 2015-03-24 The vast majority of existing ecocritical studies even those which espouse the postcolonial ecocritical perspective operate within a first world sensibility speaking on behalf of subalternized human communities and degraded landscapes without actually eliciting the voices of the impacted communities Ecocriticism of the Global South seeks to allow scholars from or intimately familiar with underrepresented regions to write back to the world's centers of political and military and economic power expressing views of the intersections of nature and culture from the perspective of developing countries This approach highlights what activist and writer Vandana Shiva has described as the relationship between ecology and the politics of survival showing both commonalities and local idiosyncrasies by juxtaposing such countries as China and Northern Ireland New Zealand and Cameroon Much like *Ecoambiguity Community and Development* this new book is devoted to representing diverse and innovative ecocritical voices from throughout the world particularly from developing nations The two volumes complement each other by pointing out the need for further cultivation of the environmental humanities in regions of the world that are essentially the front line of the human struggle to invent sustainable and just civilizations on an imperiled planet

Singing to the Plants Stephan V, Beyer, 2010-01-15 In the Upper Amazon mestizos are the Spanish speaking descendants of Hispanic colonizers and the indigenous peoples of the jungle Some mestizos have migrated to Amazon towns and cities such as Iquitos and Pucallpa most remain in small villages They have retained features of a folk Catholicism and traditional Hispanic medicine and have incorporated much of the religious tradition of the Amazon especially its healing sorcery shamanism and the use of potent plant hallucinogens including ayahuasca The result is a uniquely eclectic shamanist culture that continues to fascinate outsiders with its brilliant visionary art Ayahuasca shamanism is now part of global culture Once

the terrain of anthropologists it is now the subject of novels and spiritual memoirs while ayahuasca shamans perform their healing rituals in Ontario and Wisconsin Singing to the Plants sets forth just what this shamanism is about what happens at an ayahuasca healing ceremony how the apprentice shaman forms a spiritual relationship with the healing plant spirits how sorcerers inflict the harm that the shaman heals and the ways that plants are used in healing love magic and sorcery

Ghosts in the Garden Beth Kephart, 2011-02-08 National Book Award nominee Beth Kephart's new book is an enchanting midlife meditation on aging identity and memory set against the backdrop of Chanticleer garden in Pennsylvania On the morning of her forty-first birthday Kephart a mother a wife and a writer pressured by deadlines finds herself at Chanticleer one of the world's most celebrated pleasure gardens She knows little of the language of flowers She cannot name the birds in the trees She is a stranger among the gardeners and the people passing by And yet she understands that she has somehow found her way to a place that can teach her about life and growth about the past and the future Week after week she returns to Chanticleer recalling her childhood self mulling over legacy and soul striking up friendships with gardeners and conversations with other visitors Succored by the seasons and the weather she finds the grace in approaching middle age There are lessons in seeds and she finds them There are lessons in letting go Kephart writes about questions we all ask ourselves How do we remember who we used to be How do we imagine who we'll become Have we lived our lives as we set out to What legacies do we wish to leave behind The book spans a two-year cycle and each chapter is accompanied by a gorgeous black and white photograph of Chanticleer by William Sulit Ghosts in the Garden pulses with possibility and purpose with wisdom that is ageless and transcendent
