Slow Burn The Rise And Bitter Fall Of American Intelligence In Vietnam:

Slow Burn Orrin DeForest, David Chanoff, 1991-12 An account of the CIA's organization in Vietnam from 1968 to 1975

To Hanoi and Back Wayne Thompson, 2014-07-15 After nearly eighteen months of the largely unsuccessful bombing campaign called Operation Rolling Thunder the US Air Force began to look for ways to overcome technological geographical and political challenges in North Vietnam and use limited air power more effectively In 1972 the two Linebacker campaigns joined with other air operations to make a dramatic although temporary difference While they unleashed powerful B 52 area bombers the campaigns also demonstrated the efficacy of newly developed laser guided precision bombs Drawing upon twenty years of research in classified records Wayne Thompson integrates operational political and personal detail to present a full history of the Air Force role in the war against North Vietnam He provides an unprecedented view of the motivations and actions of the people involved from aircrews to generals to politicians in every phase of the air campaigns He outlines for instance the political reasons for President Johnson's reluctance to use B 52 bombers against major North Vietnamese targets He also examines how the media influenced US policy and how US prisoners became the war's most celebrated heroes The war in Southeast Asia ultimately pushed the Air Force toward adopting more flexible tactics and incorporating increasingly sophisticated weapons that would shape later conflicts

Blowtorch Frank L Jones, 2013-03-15 History has not been kind to Robert Komer a casualty of bad historical analysis and inaccurate information A Cold War national security policy and strategy adviser to three presidents Komer was one of the most influential national security professionals of the era The book begins with a review of his early life that helped shape his worldview It then examines Komer's influence as a National Security Council staff member during the Kennedy administration where he helped set its activist course regarding the Third World Upon Kennedy's death Lyndon Johnson named Komer his point man for Vietnam pacification policy and later General Westmoreland's operational deputy in Vietnam The author highlights Komer's activities during the three years he strove to fulfill the president's vision that Communism could be repelled from Southeast Asia by economic and social development along with military force Known as Blowtorch for his abrasive personality and disdain for bureaucratic foot dragging Komer came to be seen as the right person for managing that effort and in 1968 was rewarded with an ambassadorship to Turkey The book analyzes Komer's work during the Carter

administration as special adviser to Secretary of Defense Harold Brown and Under Secretary of Defense for Policy and credits him for reenergizing the North Atlantic Treaty Organization's conventional capability and forging the military instrument that implemented the Carter Doctrine in the Persian Gulf the Rapid Deployment Joint Task Force It also explores his final role as a defense intellectual and critic of the Reagan administration's defense policies The book concludes with a useful summary of Komer's impact on American policy and strategy and his contributions to counterinsurgency practices a legacy now recognized for its importance in the wars in Iraq and Afghanistan Crucible of Power Howard Jones, 2009 Employing a narrative approach that uncovers the tangled and often confusing nature of foreign affairs *Crucible of Power* focuses on the personalities security interests and post war Cold War tendencies behind the formulation and implementation of U S foreign policy since 1945 The book includes updated coverage of the Bush administration's foreign policy with particular emphasis on the Middle East Selections from key foreign policy documents appear in each chapter *Pisces Moon* Douglas Valentine, 2023-05-15 *Pisces Moon* The Dark Arts of Empire is a non fiction book about what writer William Burroughs called the backlash and bad karma of empire Set against the author's month long trip to London Vietnam and Thailand in early 1991 it tells how the American empire was created by rapacious businessmen backed by a murderous military establishment media moguls who designed a relentless psychological warfare campaign that glorifies warriors who are programmed to kill on command and clerics who contrived a religious justification for imperialism the subordination of women and the establishment of chattel slavery *Pisces Moon* shows how these mythmakers led by CIA drug traffickers after World War Two destroyed much of Southeast Asia It also tells how the myth of American greatness has come home to roost and is now manifest as the vainglorious militant Christian nationalist movement that wishes to establish a right wing dictatorship *Pisces Moon* argues that the survival of American democracy and the world depends upon people being able to distinguish between material evidence and substantiated facts on the one hand and conspiracy theories religious beliefs and supremacist myths on the other **Dirty Tricks or Trump Cards** Roy Godson, 2018-02-06 Contrary to popular misconceptions and public branding as dirty tricks covert action and counterintelligence can have considerable value Democracies while wary of these instruments have benefited significantly from their use saving lives treasure and gaining strategic advantage As liberal democracies confront the post Cold War mix of rogue states and non state actors such as criminals and terrorists and weapons of mass destruction and mass disruption these clandestine arts may prove to be important tools of statecraft and perhaps trump cards in the twenty first century Godson defines covert action as influencing events in other parts of the world without attribution and counterintelligence as identifying neutralizing and exploiting the secret activities of others Together they provide the capability to resist manipulation and control others to advantage Counterintelligence protects U S military technological and diplomatic secrets and turns adversary intelligence to U S advantage Covert action enables the United States to weaken adversaries and to assist allies who may be hampered by open

acknowledgment of foreign support Drawing on contemporary and historical literature broad ranging contacts with senior intelligence officials in many countries as well as his own research and experience as a longtime consultant to the U S government Godson traces the history of U S covert action and counterintelligence since 1945 showing that covert action works well when it is part of a well coordinated policy and when policy makers are committed to succeeding in the long term Godson argues that the best counterintelligence is an offensive defense His exposition of the essential theoretical foundations of both covert action and counterintelligence supported by historical examples lays out the ideal conditions for their use as well as demonstrating why they are so difficult to attain This book will be of interest to students and general readers
