Making the Second Ghetto Arnold R. Hirsch,2009-04-03 In Making the

Second Ghetto Arnold Hirsch argues that in the post depression years Chicago was a pioneer in developing concepts and devices for housing segregation Hirsch shows that the legal framework for the national urban renewal effort was forged in the heat generated by the racial struggles waged on Chicago s South Side His chronicle of the strategies used by ethnic political and business interests in reaction to the great migration of southern blacks in the 1940s describes how the violent reaction of an emergent white population combined with public policy to segregate the city In this excellent intricate and meticulously researched study Hirsch exposes the social engineering of the post war ghetto Roma Barnes Journal of American Studies According to Arnold Hirsch Chicago s postwar housing projects were a colossal exercise in moral deception An excellent study of public policy gone astray Ron Grossman Chicago Tribune An informative and provocative account of critical aspects of the process in Chicago A good and useful book Zane Miller Reviews in American History A valuable and important book Allan Spear Journal of American History *Black Chicago* Allan H. Spear,2018-12-14 Allan Spear explores here the history of a major Negro community during a crucial thirty year period when a relatively fluid patter of race relations gave way to a rigid system of segregation and discrimination This is the first historical study of the ghetto made famous by the sociological classics of St Clair Drake E Franklin Frazier and others by the novels of Richard Wright and by countless blues songs It was this ghetto that Martin Luther King Jr chose to focus on when he turned attention to the racial injustices of the North Spear by his objective treatment of the results of white racism gives an effective timely reminder of the serious urban problems that are the legacy of prejudice Class and Reform David John Hogan,1985 Focuses on Progressive education reform in Chicago between 1880 and 1920 child labor and compulsory education laws juvenile courts kindergartens playagrounds child centered pedagogy vocational education and guidance IQ testing junior high schools and school governance Examines the social and intellectual origins of Progressive educational reform its guiding principles its relationship to Progressive reform generally the response of working class individuals and organizations to previous forms of education and the gradual incorporation of public education into the market revolution of the last century *Polish Immigrants and Industrial Chicago* Dominic A. Pacyga,1991 How did working class immigrants from Poland create new communities in Chicago during the industrial age This book explores the lives of immigrants in two iconic South Side Polish neighborhoods the Back of the Yards and South Chicago and the stockyards and steel mills in which they made their living Pacyga shows how Poles forged communities on the South Side in an attempt to preserve the customs of their homeland how through the development of churches the building of schools the founding of street gangs and the opening of saloons they

tried to recreate the feel of an Eastern European village Through such institutions Poles also were able to preserve their folk beliefs and family customs But in time the economic hardships of industrialization forced Poles to reach out to their non Polish neighbors And this led in large part to the organization of labor unions in Chicago s steel and meatpacking industries
