development are overcome and that development is both equitable and sustainable

Report of the FAO/SPC Regional Expert Consultation on Sea Safety in Small Fishing Vessels, 2004-01-01 This publication contains the report of an expert meeting held in Fiji in February 2004 organised to consider regional and national sea safety programmes following on from a survey undertaken in 2003 in the Pacific Islands region The survey highlighted the significant number of deaths in the region associated with small fishing boats which have received the least attention in terms of legislation construction standards enforcement strategies regional discussions training or proper use

Fishers and Scientists in Modern Turkey Ståle Knudsen, 2009 Through the ethnography and history of fish production seafood consumption state modernizing policies and marine science this book analyzes the role of local knowledge in the management of marine resources on the Eastern Black Sea coast of Turkey Fishing science and other ways of knowing and relating to fish and the sea are analyzed as particular ways of life conditioned by history ideology and daily practice The approach adopted here allows for a broader analysis of the role knowledge plays in the management of common pool resources CPR than is provided in much of the contemporary CPR debate that tends to have a somewhat narrow focus on institutions and rules By contrast the author argues that also local knowledge and the larger historical and ideological context of production as manifest in state modernization policies and consumption patterns should be taken into account when trying to explain the current management regime in Turkish Black Sea fisheries

Fishing operations. 1. Best practices to improve safety at sea in the fisheries sector. FAO Technical Guidelines for Responsible Fisheries No. 1, Suppl. 3 Food and Agriculture Organization of the United Nations, 2018-11-15 These guidelines have been produced to support implementation of the Code of Conduct for Responsible Fisheries with regard to safety at sea in the fisheries sector Their purpose is to enable relevant authorities to develop and implement strategies aimed at improved safety health and conditions of service at sea in capture fisheries and aquaculture operations They apply to all commercial fishing activities as well as activities at sea within the aquaculture sector Furthermore the principles therein may also be applied to vessels engaged in fisheries research However while these guidelines are not directed at sport and recreational activities carried out within the aquatic environment administrations responsible for such sectors may well take note of the safety and health issues therein The guidelines contribute to Strategic Objective 5 Increase the resilience of livelihoods to threats and crises
